6. Operating Instructions

The ChooChoo Bathroom Floor Cabinet is designed for ease of use and versatile storage.

- **Adjustable Shelves:** The cabinet features adjustable shelves that can be moved to 5 different height positions. To adjust, remove any items from the shelf, lift the shelf, remove the shelf pins, reposition the pins to the desired height, and then place the shelf back on the pins. This allows you to customize the storage space for items of varying sizes, such as towels, toiletries, or cosmetics.
- **Door Operation:** The four doors are equipped with magnetic door closures to ensure they stay securely closed, keeping your items protected and organized. Gently pull the handles to open and push to close until the magnetic catch engages.

7. Maintenance and Care

To maintain the appearance and longevity of your ChooChoo Bathroom Floor Cabinet, follow these care guidelines:

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes, as these can damage the painted finish.
- **Moisture Resistance:** The cabinet is constructed from high-quality MDF and coated with water-based, eco-friendly paint, making it moisture-resistant. However, it is recommended to wipe up any spills immediately to prevent water damage, especially in humid environments like bathrooms.
- **Inspection:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary. Verify that the anti-tip device is still securely attached to the wall.

8. Troubleshooting

If you encounter any issues with your ChooChoo Bathroom Floor Cabinet, please refer to the following common problems and solutions:

- **Doors are Uneven or Do Not Close Properly:**
  - Check that the cabinet is assembled squarely and placed on a level surface.
  - Inspect the hinges for proper installation and adjustment. Most hinges allow for minor adjustments to align the doors.
  - Ensure the magnetic catches are correctly positioned and functioning.
- **Cabinet Feels Unstable or Wobbly:**
  - Verify that all assembly screws are tightened.
  - Ensure the cabinet is placed on a flat, stable floor.
  - Confirm that the anti-tip device is correctly installed and secured to a wall stud.
