Hy-T26

Hy-T26 Pro Wireless Bluetooth Translation Earbuds User Manual

Model: Hy-T26

PRODUCT OVERVIEW

The Hy-T26 Pro Wireless Bluetooth Translation Earbuds are designed to facilitate seamless communication across language barriers, offering real-time two-way translation. These earbuds also provide high-quality audio for music and calls, featuring a comfortable ear-hanging design and extended battery life.

Image: Hy-T26 Pro Earbuds and their compact charging case, showcasing the sleek black design.

Key features include Bluetooth 5.3 connectivity, IPX5 waterproof rating, and a 300mAh charging compartment capacity for extended use. The earbuds are equipped with 16mm dynamic speakers for 360° Hi-Fi stereo sound and noise reduction technology for clear audio.

SETUP GUIDE

Follow these steps to set up your Hy-T26 Pro Translation Earbuds for first-time use.

1. Charging the Earbuds and Case

- Before first use, fully charge the charging case and earbuds.
- Connect the Type-C charging cable to the charging port on the case and a power source.
- The indicator lights on the case will show charging status.
- A full charge for the case takes approximately 2 hours.

Efficient with an Extended Battery Duration

2. Downloading the Companion Application

For full translation functionality, it is essential to download the dedicated companion application. Based on user feedback, the application is named **NebulaBudsAPP**. Search for this application on your device's app store (Android or iOS).

- Open your smartphone's app store (Google Play Store for Android or Apple App Store for iOS).
- Search for "NebulaBudsAPP".
- Download and install the application.

3. Pairing with Your Device

- Ensure the earbuds are charged and placed in the charging case.

- Open the charging case. The earbuds will automatically enter pairing mode.

- On your smartphone or tablet, go to Bluetooth settings and turn Bluetooth on.

- Select "Hy-T26 Pro" from the list of available devices to connect.

- Once connected, a confirmation sound will play, and the earbuds will be ready for use.

OPERATING INSTRUCTIONS

Learn how to use your Hy-T26 Pro Earbuds for various functions, including translation, audio playback, and calls.

1. Using the Translation Function

The core feature of the Hy-T26 Pro is its real-time translation capability, which requires the companion app.

- Ensure your earbuds are connected to your device via Bluetooth.
- Open the **NebulaBudsAPP** on your smartphone.
- Within the app, select the source language (the language being spoken) and the target language (the language you want to hear/see the translation in).
- Choose the desired translation mode (e.g., two-way conversation, lecture mode, or text/picture translation).
- Speak clearly into the earbud's microphone. The app will process your speech and provide real-time translation through the earbuds and/or display it on your screen.
- For two-way conversations, the other party can speak into their earbud (if they also have one paired to their device and app) or into your phone's microphone, and the translation will be provided to both parties.

2. Audio Playback and Calls

- **Music Playback:** Once connected, your earbuds will automatically play audio from your device. Use your device's controls to play, pause, skip tracks, and adjust volume.
- **Making/Receiving Calls:** When a call comes in, the earbuds will ring. Tap the control button on either earbud to answer or end a call. Press and hold to reject a call.
- **Voice Control:** The earbuds support voice control. Refer to the app or your device's settings for specific voice command functionalities.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Hy-T26 Pro Earbuds.

- **Cleaning:** Regularly wipe the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged.
- **Water Resistance:** The earbuds have an IPX5 waterproof level, meaning they are resistant to splashes and sweat. Do not submerge them in water or expose them to heavy rain. Dry them thoroughly if they get wet.
- **Charging:** Use only the provided Type-C cable for charging. Avoid using damaged cables or chargers.

TROUBLESHOOTING

If you encounter issues with your Hy-T26 Pro Earbuds, refer to the following common solutions.

Problem	Possible Cause / Solution
Earbuds not pairing/connecting.	Ensure earbuds are charged. Make sure Bluetooth is enabled on your device. Place earbuds back in the case, close, then open again to re-enter pairing mode. Forget "Hy-T26 Pro" from your device's Bluetooth list and try pairing again. Ensure your device is within the 10-meter Bluetooth range.
Translation function not working.	**Crucial:** Ensure the **NebulaBudsAPP** is correctly installed and running. Verify that the earbuds are connected to the app. Check your internet connection, as real-time translation often requires online processing. Ensure correct source and target languages are selected in the app. Speak clearly and at a moderate pace into the microphone. Update the app to the latest version.
Poor audio quality or disconnections.	Move closer to your connected device. Check for interference from other wireless devices. Ensure earbuds are clean and free of debris. Re-pair the earbuds with your device.
Earbuds not charging.	Check if the charging cable is securely connected to both the case and the power source. Try a different charging cable or power adapter. Ensure the charging contacts on the earbuds and inside the case are clean.

SPECIFICATIONS

Feature	Detail
Model Name	Hy-T26
