2. KEY FEATURES

- **4-in-1 Functionality:** Functions as a spy camera, video recorder, dash cam, and sunglasses, suitable for outdoor driving, cycling, climbing, skiing, hiking, and travel.
- **Integrated Wi-Fi Connectivity:** Connect to a free smartphone app via Wi-Fi to control recording, view HD videos/photos, and share content. Wi-Fi signal range is approximately 10 meters.
- **Extended Battery Life:** Equipped with a rechargeable battery providing approximately 2 hours of continuous recording. Supports recording while connected to a power bank.
- **Expandable Storage:** Supports micro SD cards up to 256GB (not included) for ample storage of recordings.
- **Polarized UV Protection Lenses:** Fashionable polarized lenses with UV protection reduce harmful blue light and provide optimal eye protection.
- **Versatile Use:** Comfortable to wear and widely used for cycling, hunting, fishing, mountaineering, hiking, camping,

walking, and travel. Suitable for all unisex adult face shapes.

4. SETUP

4.1. Charging the Device

Before first use, fully charge the sunglasses. Connect the provided USB charging cable to the charging port on the sunglasses and to a power source (e.g., computer USB port, USB wall adapter). The LED indicator will show charging status. A full charge provides approximately 2 hours of recording time.

Image: The sunglasses can be charged on the go using a power bank, offering approximately 2 hours of battery life.

4.2. Inserting a Micro SD Card

The device requires a micro SD card (up to 256GB, not included) to store recordings. Locate the micro SD card slot on the frame of the sunglasses. Gently insert the micro SD card until it clicks into place. Ensure the card is formatted before first use for optimal performance. Refer to the user manual for detailed formatting instructions via a computer.

4.3. Setting Time and Date

To ensure accurate time and date stamps on your recordings, connect the sunglasses to a computer using the USB cable. Access the device's storage and locate a "time.txt" file. Open this file and edit the time and date according to the specified format. Save the file and safely eject the device from your computer.

5. OPERATING INSTRUCTIONS

5.1. Power On/Off

- **Power On:** Press and hold the power button (usually located on the temple) for a few seconds until the LED indicator lights up.
- **Power Off:** Press and hold the power button for a few seconds until the LED indicator turns off. The device may vibrate to confirm power off.

5.2. Switching Between Photo and Video Modes

The sunglasses feature a switch or button to select between photo and video recording modes. Ensure the desired mode is selected before initiating capture.

5.3. Recording Video

Once powered on and in video mode, press the designated button (often the same as the power button, but a single short press) to start video recording. The LED indicator will typically flash or change color to indicate active recording. Press the button again to stop recording.

Image: The sunglasses capture HD 1080p video, ensuring clear footage of your activities.

5.4. Taking Photos

When in photo mode, press the designated button (e.g., a short press or double-click, depending on the model's specific controls) to capture a still image. The LED indicator will briefly flash to confirm the photo has been taken.

5.5. Wi-Fi Connection and App Usage

Download the dedicated free app on your smartphone. Activate Wi-Fi on your phone and connect to the sunglasses' Wi-Fi hotspot. Through the app, you can remotely control recording, view live footage, browse recorded videos and photos, and share them directly to social media platforms.

CONNESSIONE WIFI, FACILE CONDIVISIONE DEI CONTENUTI CATTURATI ATTRAVERSO L'APP DEL TELEFONO

Visualizzate e scaricate i momenti più belli registrati sull'APP del telefono e condivideteli direttamente sui social media

Image: Seamless Wi-Fi connection allows for easy viewing and sharing of captured moments via a smartphone app.

6. MAINTENANCE

- **Cleaning Lenses:** Use the provided microfiber cleaning cloth to gently wipe the lenses. Avoid using abrasive materials or harsh chemicals that could scratch or damage the polarized coating.
- **Storage:** Store the sunglasses in their protective case when not in use to prevent scratches and damage. Keep them away from extreme temperatures and direct sunlight for prolonged periods.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in active use.

Image: The polarized lenses offer UV protection and clear vision, requiring proper cleaning to maintain their quality.

7. TROUBLESHOOTING

- **Device not powering on:** Ensure the battery is charged. Connect to the charger and check if the LED indicator lights up.
- **Cannot record video/take photos:** Check if a micro SD card is inserted and properly formatted. Ensure there is sufficient storage space on the card.
- **Wi-Fi connection issues:** Make sure the sunglasses' Wi-Fi hotspot is active. Try restarting both the sunglasses and your smartphone. Ensure you are within the 10-meter Wi-Fi range.
- **Poor video/photo quality:** Ensure lenses are clean. Check lighting conditions. For best photo results, hold the device very still.
