Dekala SWL3S-PRO

Dekala Sunrise Alarm Clock User Manual

Model: SWL3S-PRO
Brand: Dekala

INTRODUCTION

The Dekala Smart Sunrise Alarm Clock is designed to enhance your sleep and wake-up experience. It combines a sunrise simulation wake-up light, a sound machine, and a Bluetooth speaker, offering a personalized and gentle transition from sleep to wakefulness. This multifunctional device also includes dual alarms, adjustable brightness, various light scenes, natural sounds, FM radio, and smart control options via app and voice commands.

SETUP

1. Power Connection

Connect the provided power adapter to the DC input port on the back of the alarm clock. Plug the adapter into a standard electrical outlet. The device will power on and the display will illuminate.

2. Time Setting

To set the time, locate the time setting button (often indicated by a clock icon or a gear icon) on the device. Press and hold this button to enter time setting mode. Use the adjustment buttons (usually +/- or a rotating dial) to set the hour and minute. Press the time setting button again to confirm each selection. You can typically switch between 12-hour and 24-hour formats.

3. App Control Setup

For smart control features, download the "DEKALA" or "Smart Life" app from your smartphone's app store. Follow the in-app instructions to pair your alarm clock with your device via Wi-Fi or Bluetooth. This enables remote control of light settings, sounds, alarms, and other functions.

OPERATING INSTRUCTIONS

1. Alarm Settings

The Dekala alarm clock supports dual alarms, allowing you to set separate wake-up times for weekdays and weekends. Press the "Alarm 1" or "Alarm 2" button to activate and set the desired time. The snooze function provides an additional 9 minutes of sleep, which can be activated up to 5 times by tapping the top of the clock when the alarm sounds.

7-Day Programmable Dual Alarm Clocks
Support daily/weekdays/weekends mode

1 Alarm 1 for weekdays

2 Alarm 2 for weekends

Snooze Mode (Humaized design)
Gives you multiple 9-minute naps before completely waking up

Tap to Snooze
Sunlight and sound stop

9 Min x5

Snooze Time
9 Mins each time, up to 5 times.

2. Sunrise/Sunset Simulation

The sunrise simulation feature gradually brightens the light before your set alarm time, mimicking a natural sunrise to gently wake you up. Conversely, the sunset simulation gradually dims the light to help you fall asleep. This feature promotes a more natural sleep-wake cycle.

3. Light Modes

The alarm clock offers 11 dynamic scene lights and adjustable brightness from 5% to 100%. You can select various colors and lighting effects to suit your mood or create different atmospheres in your room. Use the dedicated light control buttons or the app to cycle through modes and adjust intensity.

5%-100% Adjustable Brightness

4. Sound Machine & FM Radio

Choose from 15 soothing natural sounds, including white noise, to help you relax and fall asleep. The device also features a built-in FM radio. Use the sound control buttons to select your preferred sound or radio station. Adjust the volume to your comfort level.

5. Charging Features

The alarm clock includes a USB port for charging your phone or other small electronic devices. Some variants of this product may also include a wireless charging pad on the base for compatible smartphones and smartwatches, offering convenient charging solutions.

MAINTENANCE

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.

- **Storage:** Store in a cool, dry place when not in use for extended periods.
- **Handling:** Handle with care to avoid dropping or physical damage.

TROUBLESHOOTING

- **Device not powering on:** Ensure the power adapter is securely connected to both the device and a working electrical outlet.
- **Alarm not sounding/light not changing:** Verify that the alarm time is correctly set and activated. Check volume levels for sound alarms. Ensure sunrise/sunset simulation is enabled in settings.
- **App connectivity issues:** Make sure Bluetooth or Wi-Fi is enabled on your smartphone and the alarm clock is within range. Restart both the app and the alarm clock if issues persist.
- **FM Radio static:** Extend the FM antenna (if applicable) and try repositioning the device for better signal reception.
