

## Goniyado #8900X

# Goniyado 52" Low Profile Ceiling Fan User Manual

Model: #8900X

Brand: Goniyado

## 1. INTRODUCTION

Thank you for choosing the Goniyado 52" Low Profile Ceiling Fan. This modern indoor ceiling fan is designed to provide efficient air circulation and lighting for your bedroom, living room, kitchen, dining room, or study room. It features a high-efficiency DC motor for quiet operation, 6 adjustable speeds, 3 color temperatures with stepless dimming, and convenient control via both a remote and a dedicated mobile application. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your fan.

## 2. SAFETY INFORMATION

Please read all instructions carefully before beginning installation. Failure to do so could result in electric shock, fire, or personal injury.

- Ensure the power is turned off at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The mounting structure must be capable of supporting a minimum of 35 lbs (15.9 kg).
- Do not bend the blade holders during installation, balancing, or cleaning.
- Keep hands, fingers, and other objects away from rotating fan blades.
- This fan is designed for indoor and outdoor covered usage.

### 3. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation. If any parts are missing or damaged, contact customer support.

- Ceiling Fan Motor Assembly
- Fan Blades (6 double-sided blades)
- Light Kit
- Remote Control (2 AAA batteries included)
- Mounting Bracket and Hardware
- User Manual

### 4. SETUP AND INSTALLATION

The Gonyado 52" Low Profile Ceiling Fan is designed for easy assembly. For detailed visual guidance, please refer to the online installation video.

Figure 4.1: Product Dimensions and Mounting Type. This fan is suitable for flat mount installations.

Figure 4.2: Double-Sided Fan Blades. The blades feature a reversible design with white on one side and maple on the other to match various decor styles.

## 4.1 App Setup and Pairing

The fan supports control via a mobile application. Follow these steps to set up the app and pair your device:

1. Scan the QR code provided in the manual or on the product packaging to download the "Fan Lamp Pro" application.
2. Ensure Bluetooth is enabled on your phone.
3. Open the "Fan Lamp Pro" app and select the language.
4. Click the "+" button to add a new device.
5. Turn off the main power to the fan, then turn it back on. While the fan is powering on, click the "connecting" button in the app. The fan light will blink twice to indicate a successful connection.

Your browser does not support the video tag.

Video 4.1: APP Settings Guide. This video demonstrates how to set up and pair your ceiling fan with the mobile application for smart control.

## 5. OPERATING INSTRUCTIONS

Your Gonyado ceiling fan can be controlled using the included remote control or the "Fan Lamp Pro" mobile application.

### 5.1 Fan Control

- **6 Speeds Adjustable:** Adjust the fan speed from a gentle breeze (1-2 speeds) to a strong airflow (5-6 speeds) to suit your comfort needs.
- **Reversible Function:** The fan supports a reverse function, allowing you to change the direction of the blades seasonally. In summer, the fan operates in downdraft mode to create a cooling effect. In winter, it operates in updraft mode to circulate warm air.
- **Quiet Operation:** The high-efficiency DC motor ensures quiet operation, with noise levels as low as 35dB, making it ideal for bedrooms and quiet environments.

# Noiseless Experience

Super quiet - only wind, no sound

15dB	30dB	40dB	50dB
Rustled Leaves	Our Fan Light	Others Fan Light	Talking sound

Figure 5.1: 6 Speeds Adjustable. Choose from six fan speeds to meet different airflow requirements.

# 6 Speeds Adjustable

Meet the wind need in different scenarios

Silent motor  
25W Input

1-2 Speeds

Comfortable Wind

3-4 Speeds

Natural Wind

5-6 Speeds

Cool Wind

Figure 5.2: Reversible Air Circulation. Optimize comfort year-round by switching between downdraft and updraft modes.

Figure 5.3: Noiseless Experience. The fan operates at a very low noise level, comparable to rustling leaves.

## 5.2 Light Control

- **3 Color Temperatures:** Switch between 3000K (Warm Light), 4000K (Natural Light), and 6000K (White Light) to set the desired ambiance.
- **Stepless Dimming:** Adjust the brightness from 0% to 100% to create the perfect lighting for any activity.
- **Memory Function:** The fan remembers your last light setting (color temperature and brightness) when turned off and on again.

## Customized Light Effect

### 3 LIGHT COLORS ADJUSTABLE

Figure 5.4: Customized Light Effect. Easily adjust light color and brightness to your preference.

### 5.3 Timer Function

- Set a 2-hour timer for automatic shut-off, available via the mobile application.

## 6. MAINTENANCE

Regular maintenance helps ensure the long-term performance and appearance of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these may damage the finish.
- **Blade Care:** The double-sided wooden fan blades can be cleaned with a dry or slightly damp cloth. Ensure they are dry before operating the fan.
- **Light Source:** The LED light source is energy-saving and designed for long life. If replacement is ever needed, consult the manufacturer or a qualified technician.
- **Tighten Screws:** Periodically check and tighten all screws on the fan assembly to ensure secure

operation.

## 7. TROUBLESHOOTING

If you encounter issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not operate / Light does not turn on	No power supply; Remote/App not paired; Loose wiring.	Check circuit breaker and wall switch. Ensure main power is on. Re-pair remote/app (see Section 4.1). Verify all wiring connections are secure.
Remote control not working	Batteries are dead or incorrectly inserted; Remote not paired correctly.	Replace AAA batteries. For pairing, some users found pressing the "setup" button for 5 seconds worked better than the "power" button. Ensure the main power is cycled during pairing.
App control not working	Bluetooth is off; App not paired; App glitch.	Ensure Bluetooth is enabled on your phone. Follow app pairing steps in Section 4.1. Try restarting the app or your phone.
Light issues (e.g., RGB button not working, light won't turn off)	Software glitch; Remote issue.	Try resetting the fan by turning off the main power at the circuit breaker for a few minutes, then turning it back on. Replace remote batteries.
Fan wobbles	Loose blades or mounting; Unbalanced blades.	Check and tighten all screws on the fan blades and mounting bracket. Ensure blades are securely attached.
No manual pull chain control	This model relies solely on remote and app control.	Ensure remote and app are always accessible and functional. Keep spare batteries for the remote.

If problems persist after attempting these solutions, please contact customer support for further assistance.

## 8. SPECIFICATIONS

Feature	Detail
Brand	Goniyado
Model Name	#8900X
Color	52" White
Material	Acrylic, Engineered Wood, Iron
Style	Modern

<b>Feature</b>	<b>Detail</b>
