

AGM AGM_M9 4G_2PB

AGM M9 Rugged Feature Cell Phone User Manual

Model: AGM_M9 4G_2PB

1. INTRODUCTION

The AGM M9 is a rugged 4G basic mobile phone designed for simplicity and durability. It features large buttons, a large font display, and loud volume, making it suitable for users who prefer essential phone functions without the complexities of a smartphone. This device is built to withstand challenging environments, offering waterproof, dust-proof, and drop-proof capabilities.

This manual provides detailed instructions on setting up, operating, maintaining, and troubleshooting your AGM M9 phone.

2. INITIAL SETUP

2.1 Battery Installation

1. Remove the back cover of the phone by gently prying it open from the designated notch.
2. Insert one of the provided 1000mAh Lithium-Ion batteries into the battery compartment, ensuring the gold contacts align with the phone's terminals.
3. Replace the back cover, pressing firmly until it clicks into place.

2.2 SIM Card and TF Card Installation

Important Note:

- The AGM M9 is compatible exclusively with GSM T-Mobile carriers. Confirm compatibility before use.
- If using a new SIM card, activate it in another phone before inserting it into the M9 to ensure proper

recognition.

- Gently open the SIM card slot and carefully place the SIM card inside. Avoid excessive force to prevent damage.

The AGM M9 supports two SIM cards and one TF (microSD) card for storage expansion up to 128GB.

1. With the back cover and battery removed, locate the SIM card slots (SIM1, SIM2) and the TF card slot.
2. Insert your SIM cards into the respective slots.
3. Insert a TF card (optional) into its dedicated slot.
4. Reinstall the battery and back cover.

Flexible

The M9 allows for 2 Sim cards + 1 TF card.
A grand total of 3 slots to expand your storage up to **128GB** while combining personal and professional life in one device.

The **1000mAh battery** is long lasting and removable so that it is easy to replace if necessary.

Add an extra battery.

Say goodbye to low battery.

2.3 Powering On/Off

- To power on: Press and hold the red 'End Call' button until the screen lights up.
- To power off: Press and hold the red 'End Call' button, then select 'Power off' from the options.

3. OPERATING YOUR PHONE

3.1 Making and Receiving Calls

- **Making a Call:** Enter the phone number using the keypad and press the green 'Call' button.
- **Receiving a Call:** Press the green 'Call' button when the phone rings.
- **Ending a Call:** Press the red 'End Call' button.
- **Speed Dial:** Assign frequently called numbers to keys 2-9. To use, press and hold the assigned number key.

User-Friendly

Compact, light, and with a large keypad. AGM M9 fits perfectly in the hand and runs a straightforward system that makes it extra easy to use. The M9 also allows Speed Dialing. Save up to 9 numbers, one on each key, and enjoy easy and fast calls.

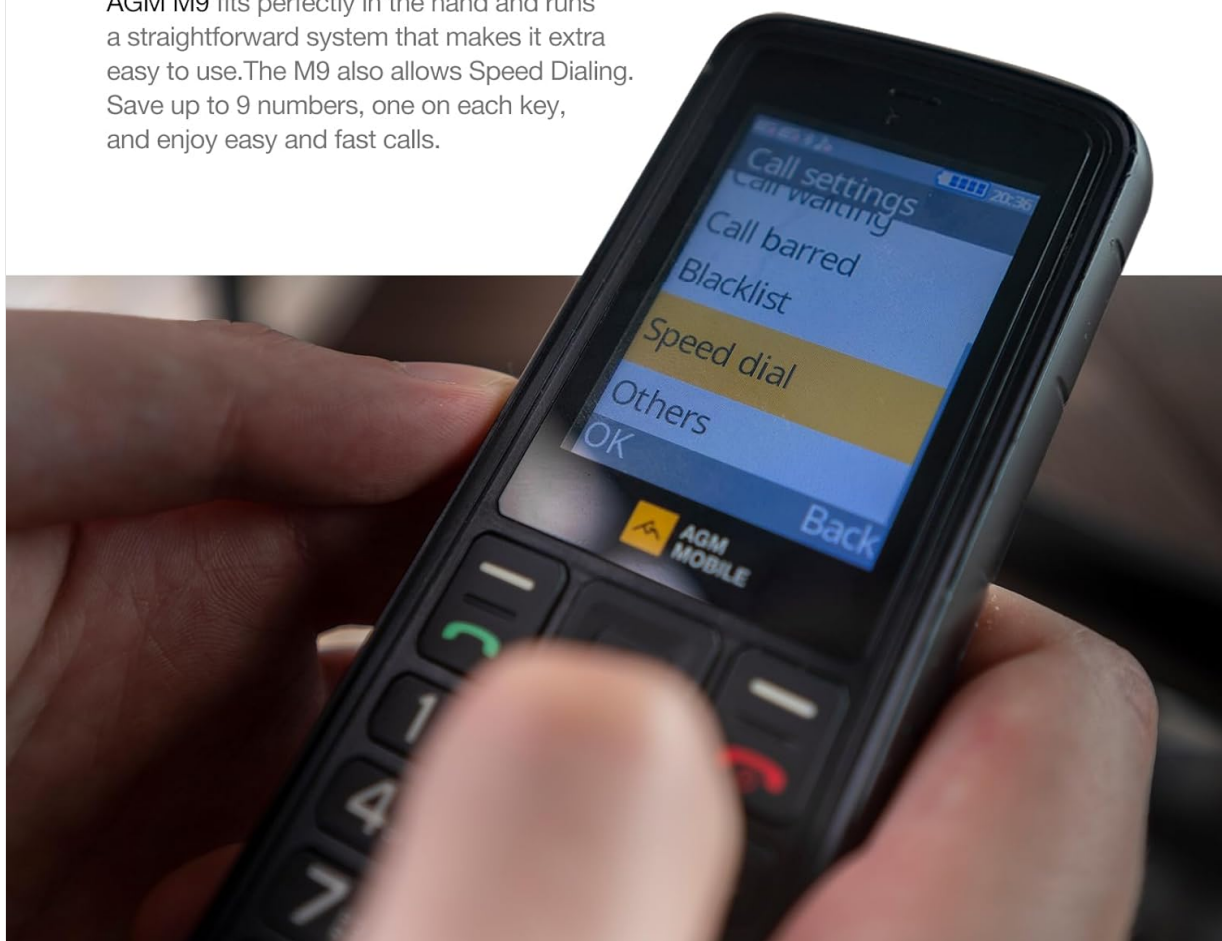

Image: The phone's user-friendly interface with large keypad and clear menu options, including speed dial settings.

3.2 Text Messaging (SMS)

The AGM M9 supports T9 text input. To compose a message, navigate to the 'Messages' menu, select 'Write message', and use the keypad to type. Press the corresponding number key multiple times to cycle through letters assigned to that key.

Designed for Everyone

The large font and powerful sound up to 108db makes the M9 easy to read and easy to hear. Perfect for visually or hearing impaired people.

Image: The phone's large font display, designed for easy readability, shown with a magnifying glass to emphasize accessibility.

3.3 Flashlight Operation

The AGM M9 includes a built-in high-intensity flashlight located at the top of the phone.

- To turn on/off: Locate the dedicated flashlight button on the side of the phone and slide it to activate or deactivate the light.

Extra Features

Powerful torch

You never know when you will need one, better to have it easily accessible and ready at anytime.

3.4 FM Radio and Music Player

The phone features a built-in FM radio and music player for entertainment without internet connectivity.

- Access these features through the main menu.
- For FM radio, ensure headphones are connected as they act as the antenna.
- Music files can be stored on a TF card and played via the music player.

3.5 Bluetooth Connectivity

The AGM M9 supports Bluetooth for connecting to compatible accessories like headphones.

- Navigate to 'Settings' > 'Bluetooth' to enable and pair with devices.

3.5mm Jack Bluetooth 🎵

In terms of music, you have options. Plug your favorite headphones directly through the **3.5mm** jack or connect your pair of AGM Buds by **Bluetooth**.

4. KEY FEATURES

4.1 Rugged Design

The AGM M9 is engineered for durability, meeting IP68 and IP69K standards for water and dust resistance. It is also drop-resistant from heights of up to 1.8 meters, ensuring reliability in various conditions.

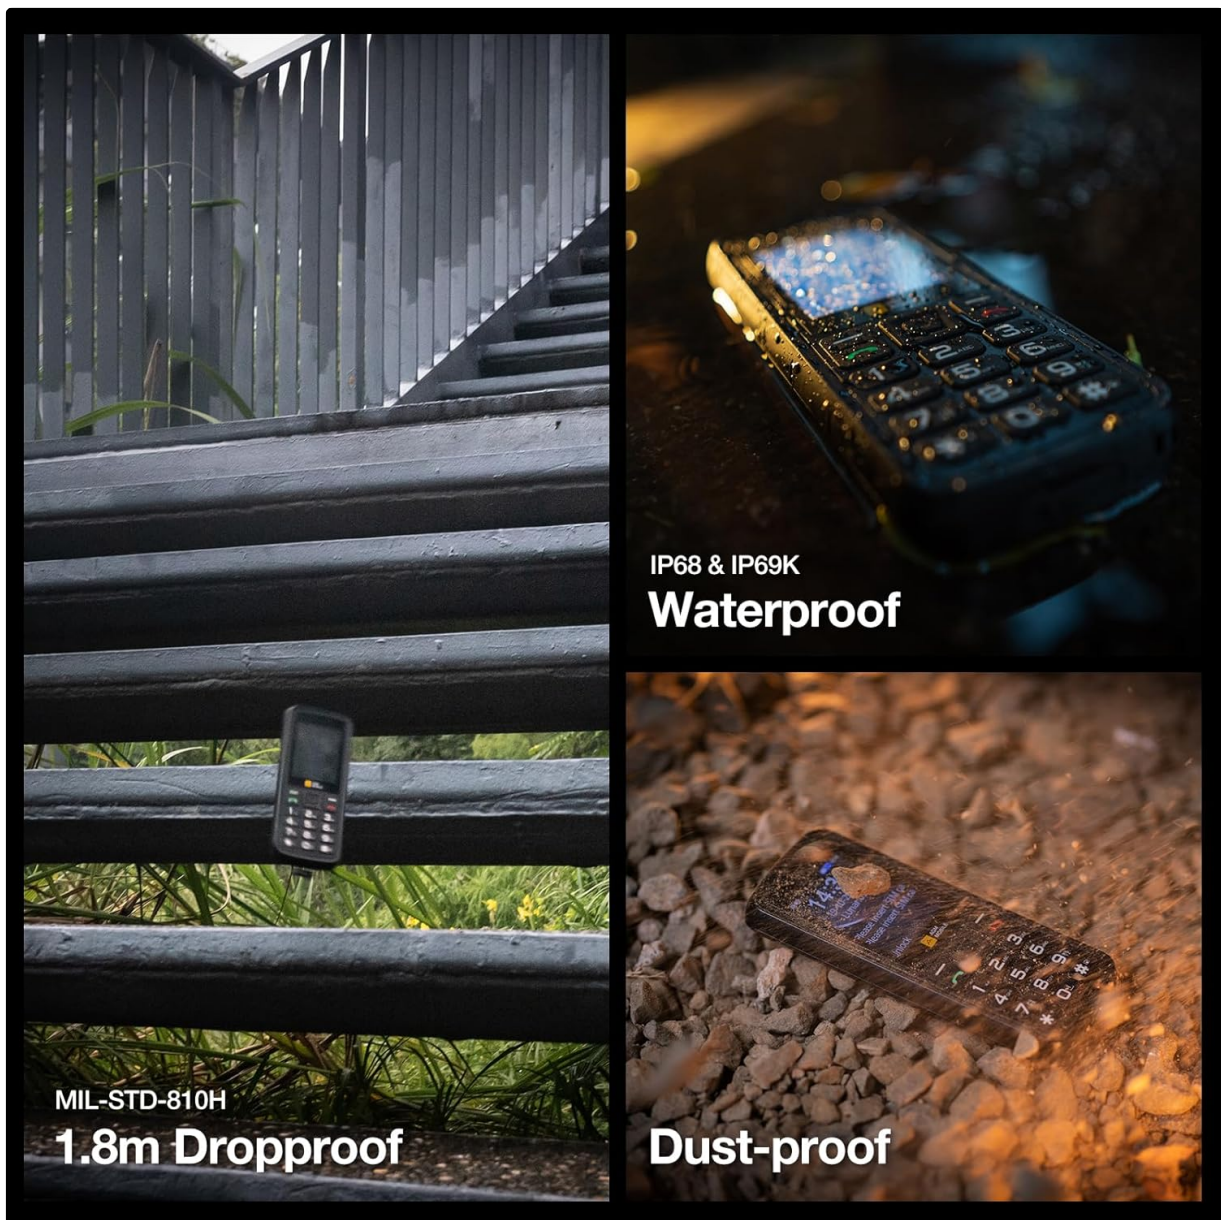

Image: Visual representation of the phone's IP68/IP69K waterproof, dust-proof, and 1.8m drop-proof capabilities.

4.2 Extended Battery Life

The phone comes with two replaceable 1000mAh batteries, providing extended usage and ensuring continuous connectivity. Batteries can be swapped effortlessly for prolonged operation.

4.3 4G Connectivity

The AGM M9 supports 4G, 3G, and 2G networks, offering reliable call quality and connectivity. When using two SIM cards, one can support 4G at a time.

4G Connectivity

More bands for better coverage. Built with 4G VoLTE capabilities, calls will be crisp and clear.

5. CARE AND MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the phone's surface. Avoid harsh chemicals or abrasive materials.

- **Water Exposure:** While waterproof, ensure all port covers are securely closed before exposing the phone to water. After water exposure, dry the phone thoroughly before charging.
- **Temperature:** Avoid exposing the phone to extreme temperatures (hot or cold) as this can affect battery life and internal components.
- **Storage:** Store the phone in a cool, dry place when not in use for extended periods.

6. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|-----------------------------|---|---|
| Phone does not power on. | Battery is drained or not properly installed. | Charge the battery. Ensure the battery is correctly inserted and the protective tape (if any) is removed from the battery contacts. |
| SIM card not detected. | SIM card not activated or improperly inserted. | Ensure SIM card is activated with your carrier. Reinsert the SIM card carefully, ensuring it is seated correctly in the slot. Avoid forcing the card. |
| No network signal. | Out of network coverage or carrier incompatibility. | Move to an area with better signal. Confirm your SIM card is from a compatible T-Mobile GSM carrier. |
| Difficulty with T9 texting. | Unfamiliarity with T9 input method. | Practice using the keypad. Press the number key repeatedly to cycle through the letters assigned to it until the desired letter appears. |
