- **Moving:** When moving the cabinet, lift it rather than dragging to prevent damage to the legs or floor.
- **Environmental Conditions:** Avoid exposing the furniture to extreme temperature changes or direct sunlight for prolonged periods, as this may cause warping or fading.

6. TROUBLESHOOTING

If you encounter issues with your LUMISOL Murphy Bed Cabinet, refer to the following common problems and solutions.

6.1 Assembly Difficulties

- **Unclear Instructions/Unlabeled Parts:** Carefully review the assembly manual's diagrams. If parts are unlabeled, compare them to the illustrations to identify them. If you are unsure, do not force parts together.
- **Parts Not Fitting:** Double-check that you are using the correct parts for each step. Ensure components are oriented correctly. If a part seems too large or small, re-examine the diagrams. Do not modify parts unless explicitly instructed.
- **Missing Hardware:** Verify against the hardware list in your manual. If items are missing, contact customer support for replacements.

6.2 Operation Issues

- **Bed Does Not Fold/Unfold Smoothly:** Check for any obstructions. Ensure all hinges are properly aligned and lubricated if necessary. Verify that no bedding is caught in the mechanism.
- **Drawer Sticking:** Ensure the caster wheels are clean and free of debris. Check that the drawer is properly aligned within its tracks.
- **USB/Power Module Not Working:** Confirm the unit is plugged into a functional wall outlet. Check for any loose connections within the module itself.
