HISINGY Firefly FPV RTF Kit

HISINGY Firefly FPV Drone Kit Instruction Manual

Model: Firefly FPV RTF Kit

Brand: HISINGY

INTRODUCTION

Welcome to the comprehensive instruction manual for your HISINGY Firefly FPV Drone Kit. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your drone. The Firefly FPV Drone Kit is designed for beginners and kids, offering features like FPV goggles, Altitude Hold, Automatic Emergency Stop, and APP control for an immersive flying experience.

SAFETY GUIDELINES

Adhering to safety guidelines is crucial for a safe and enjoyable flying experience. Please read and understand the following:

- Do Not Fly Over People or Streets:** Always operate the drone in open, clear areas away from crowds and public roads.
- Do Not Touch Spinning Propeller Blades:** Keep hands and face clear of the propellers when the drone is powered on. Propellers can cause injury.
- Pay Attention to Local Laws and Regulations:** Always be aware of and comply with local drone flying regulations, including no-fly zones around airports, military bases, and historical architecture.
- Environmental Conditions:** Avoid flying in strong winds or adverse weather conditions.
- Battery Safety:** Use only approved chargers and batteries. Do not overcharge or puncture batteries.

SETUP

1. Battery Charging and Installation

Ensure all batteries are fully charged before your first flight. Connect the ES950CH Charger to a USB power source and insert the ES950 Lithium Battery. Once charged, carefully install the battery into the drone.

2. Controller Setup

The TX-50 Controller requires 2 AAA batteries (not included). Install them in the battery compartment. Power on the controller by pressing the power button.

3. FPV Goggles Setup

The ARX-300 FPV Goggles are ready to use. Ensure they are charged via their USB-C port. Adjust the head strap for a comfortable fit. If the image appears blurry, you can extend or retract the display portion for better focus.

4. Drone Power-On and Binding

After installing the flight battery, place the drone on a flat, stable surface. Power on the drone. The drone and controller are pre-bound from the factory. If re-binding is necessary, push the left stick up and down on the

controller to enter bind mode. The LED on the quadcopter will blink twice, indicating a successful connection.

OPERATING INSTRUCTIONS

1. Basic Flight Controls

- **Takeoff/Landing:** Short press the one-key takeoff/land button on the controller. The drone will ascend to about 5 feet or descend and land automatically.
- **Ascend/Descend:** Move the left stick up and down.
- **Yaw (Rotate):** Move the left stick left and right to spin the quadcopter counter-clockwise and clockwise.
- **Forward/Backward/Left/Right:** Use the right stick to move the quadcopter in these directions.

2. Advanced Features

- **Altitude Hold:** The drone maintains a stable altitude, making it easier for beginners to control.
- **Automatic Emergency Stop:** In case of emergency or loss of control, long press the emergency stop button on the controller to quickly stop the propellers.
- **FPV Functionality:** With the FPV goggles, you can experience real-time video streaming from the drone's camera.
- **APP Control (HISINGY App):** Download the HISINGY app to connect and control the micro drone via Bluetooth. You can adjust settings like flight speed, collect flight data, and perform OTA upgrades.
- **Liftoff Compatibility:** The remote control can connect the quadcopter to FPV simulators like Liftoff for practice.
- **DIY Accessories:** The modular design supports a rich ecology of DIY spare parts for customization.

PERFECT DRONE FOR BEGINNERS

- **ALTITUDE HOLD**

- **AUTOMATIC EMERGENCY STOP**

MAINTENANCE

- **Propeller Inspection:** Regularly check propellers for damage. Replace any bent or broken propellers immediately using the provided spare parts.
- **Cleaning:** Keep the drone clean from dust, dirt, and debris. Use a soft, dry cloth to wipe surfaces.
- **Battery Care:** Store batteries in a cool, dry place. Do not leave batteries fully discharged for extended periods.
- **Firmware Updates:** Periodically check the HISINGY app for available firmware updates to ensure optimal performance.

TROUBLESHOOTING

- **Drone Not Responding:** Ensure the drone and controller are powered on and properly bound. Check battery levels.
- **Drone Drifts:** Perform a gyroscope calibration. Use the trim buttons on the controller to adjust for any persistent drift.
- **No FPV Feed:** Check that the FPV goggles are powered on and connected to the correct channel. Ensure the drone's camera is functioning.
- **App Connectivity Issues:** Verify Bluetooth is enabled on your smartphone and the drone. Restart both the app and the drone if issues persist.
- **Propellers Not Spinning:** Check for any obstructions around the propellers. Ensure the drone is armed (refer to controller instructions).

SPECIFICATIONS

Feature	Detail
Brand	HISINGY
Model Name	Firefly FPV RTF Kit
Special Feature	Adjustable, First Person View (FPV), Lightweight, Rechargeable, Speed Adjustment
Age Range (Description)	8+ years
Color	Yellow
Connectivity Technology	2.4G
Item Weight	61 Grams (2.15 ounces)
Material	ABS
Battery Cell Composition	Lithium Ion
Remote Control Included?	Yes
Product Dimensions	10.5"L x 8.6"W x 7.2"H
Manufacturer	HISINGY

FULL OF EXCITEMENT AND JOY

ideal gift for
Christmas and Birthday
