5. MAINTENANCE AND CARE

5.1 Fabric Care (Bouclé Polyester)

- **Regular Cleaning:** Vacuum regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for polyester upholstery. Test on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use bleach, abrasive cleaners, or solvents, as these can damage the fabric.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight to prevent fading.

5.2 Frame and Base Care (Engineered Wood, Metal)

- **Cleaning:** Wipe the frame and metal base with a soft, damp cloth. Dry immediately to prevent water spots or rust.
- **Avoid Moisture:** Do not allow liquids to sit on the frame or base.
- **Lubrication:** The swivel mechanism is designed for long-term smooth operation and typically does

not require lubrication. If stiffness occurs, ensure no debris is obstructing the mechanism.

- **Chair feels wobbly after assembly:** Ensure all bolts and fasteners are securely tightened. Retighten if necessary.
- **Swivel mechanism is stiff or noisy:** Check for any obstructions (e.g., loose fabric, debris) around the base. Ensure the chair is on a level surface. If the issue persists, contact customer support.
- **Fabric appears flattened:** Regular use can cause slight compression. Fluff the throw pillow and seat cushion periodically to maintain their shape.
- **Missing parts:** If any parts are missing from the accessory kit, refer to the contact information in the Warranty & Support section.
