ZGNBSD STL16

ZGNBSD Executive Desk STL16 (78.7") Instruction Manual

Model: STL16 | Size: 78.7"

1. Product Overview

The ZGNBSD Executive Desk STL16 is a modern L-shaped office desk designed for productivity and organization. It features a spacious desktop, integrated storage, smart power management, and an LED light strip. Constructed from high-quality multilayer wood, this desk offers durability and a sleek aesthetic for any professional environment.

Image 1.2: Diagram highlighting key features including multi-layer wood board, LED light strip, large storage drawers, smart lock, and multi-function socket strip.

Key Features:

- **Spacious L-shaped Desktop:** Accommodates multiple devices and work materials.
- **Ample Storage:** Two drawers (one with a password lock) and three additional compartments for organization.
- **Integrated LED Light Strip:** Provides ambient lighting with adjustable brightness.
- **Smart Power Management:** Adjustable power rail with multiple outlets to reduce cable clutter.
- **Durable Construction:** Made from high-quality multilayer wood, resistant to heat, scratches, and wear.
- **No Assembly Required:** Delivered ready to use.

2. Safety Information

Please read and understand all safety instructions before using the desk. Retain this manual for future reference.

- Ensure the desk is placed on a stable, level surface to prevent tipping.
- Do not overload drawers or shelves beyond their recommended weight capacity.
- Keep liquids away from electrical components (power rail, LED strip) to prevent electric shock.
- Avoid placing hot items directly on the desk surface without protection.
- Do not attempt to modify or disassemble the electrical components. Contact qualified personnel for repairs.
- Keep children and pets away from moving parts or electrical outlets.

3. Setup and Installation

This ZGNBSD Executive Desk STL16 is designed for convenience and requires no assembly. It comes ready to use directly out of the box.

Unpacking and Placement:

1. Carefully remove the desk from its packaging. Due to its size and weight (700 lbs), it is recommended to have multiple people assist with unpacking and moving.
2. For desks larger than 80 inches (this model is 78.7"), please note that you may need to arrange for your own unloading assistance upon delivery.
3. Place the desk in your desired location, ensuring adequate space for movement and access to power outlets.
4. Verify that the desk is stable and level.

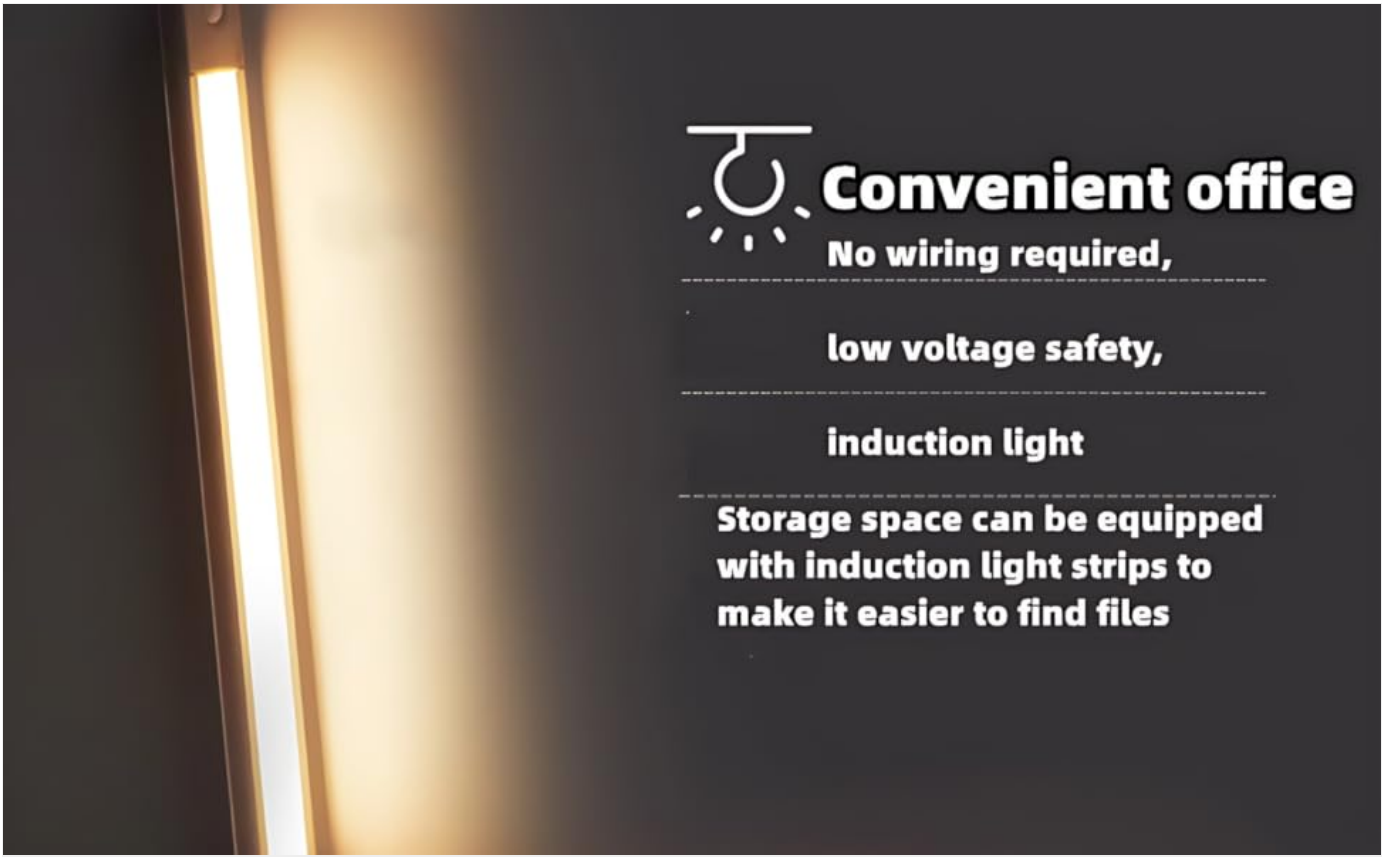

Image 3.1: Visual reminder that no assembly is required, and for larger sizes, self-unloading may be necessary.

4. Operating Instructions

4.1 LED Ambient Light Strip

The desk features a built-in LED light strip for ambient lighting.

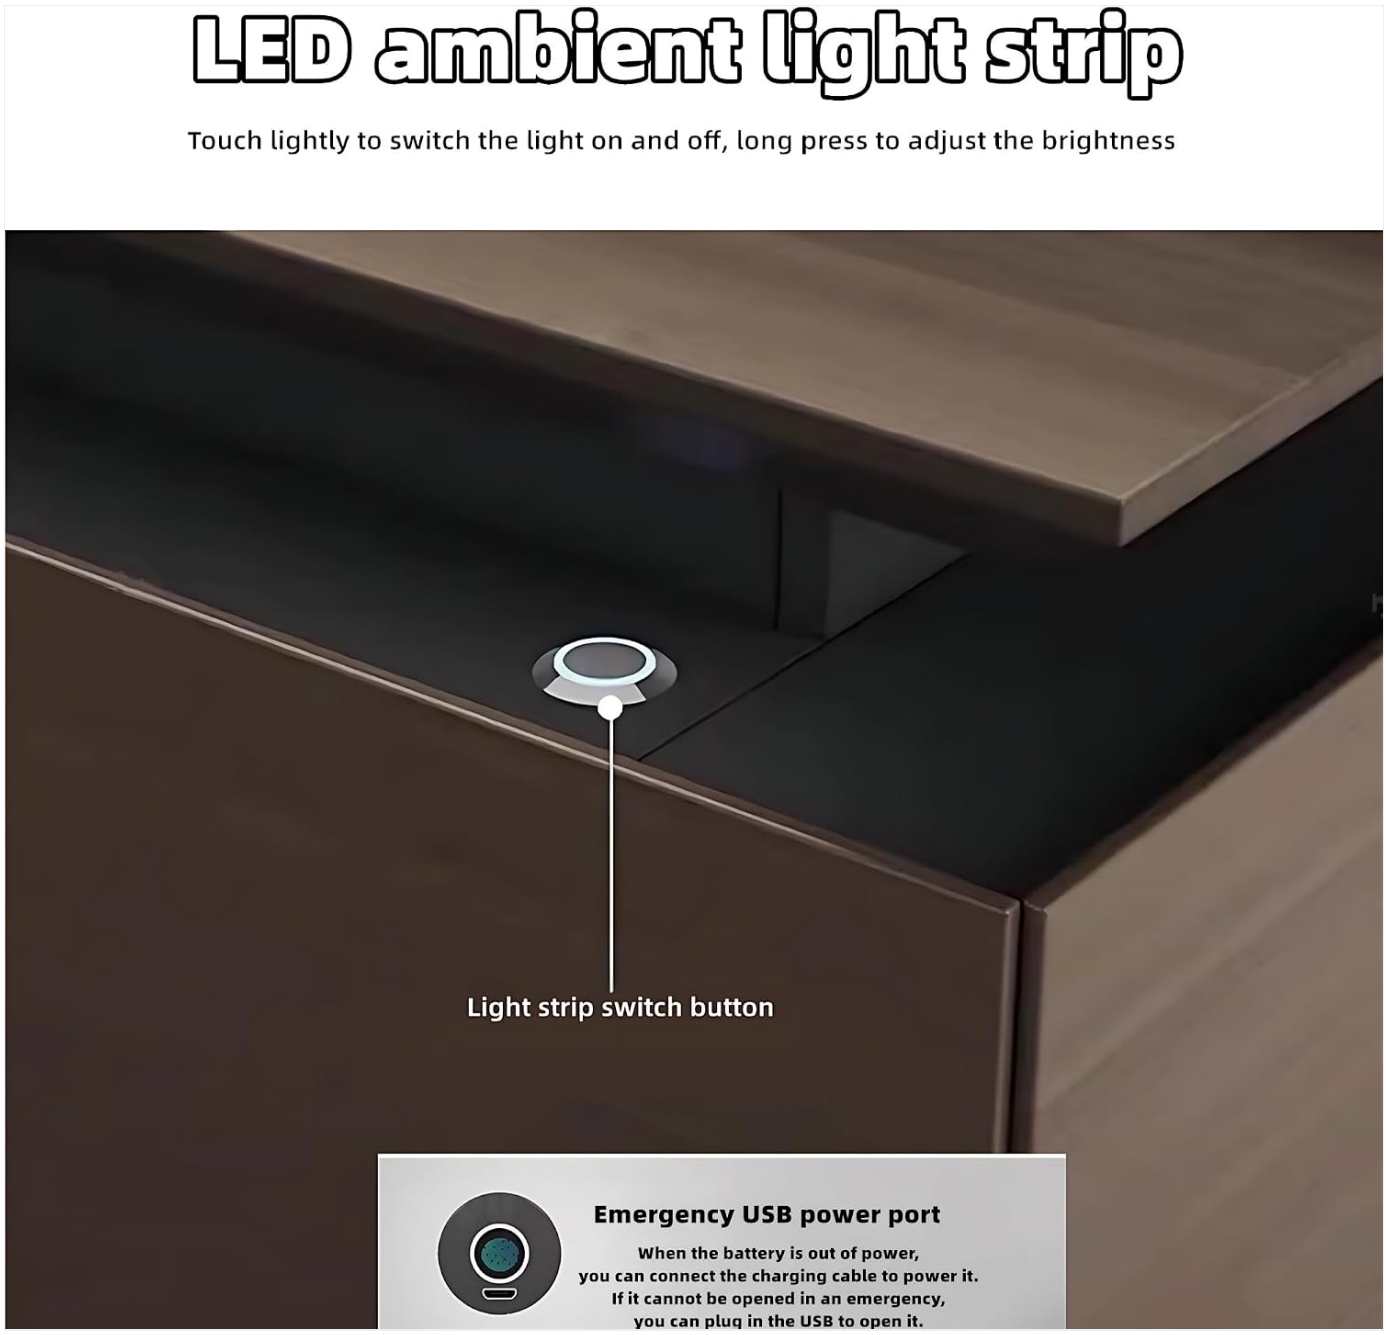

Image 4.1: Close-up of the LED light strip switch button and the emergency USB power port.

- **Turning On/Off:** Lightly touch the designated switch button to turn the LED light strip on or off.
- **Adjusting Brightness:** Long press the switch button to adjust the brightness level of the LED light. Release when the desired brightness is reached.
- **Emergency USB Power Port:** If the desk's internal battery for the light strip is low, you can connect a charging cable to the emergency USB power port to supply power.

4.2 Smart Fingerprint Unlocking

One of the drawers is equipped with a smart fingerprint unlocking mechanism for enhanced security.

Image 4.2: Overview of the desk's storage compartments and a detailed view of the smart fingerprint unlocking feature.

- **Initial Setup:** Refer to the separate guide provided with the fingerprint lock for initial setup and registration of fingerprints.
- **Unlocking:** Place your registered finger on the fingerprint sensor to unlock the drawer.
- **Locking:** The drawer will automatically lock when closed, or can be manually locked depending on the specific lock settings.

4.3 Power Rail and Outlets

The desk includes an adjustable power rail with multiple outlets for convenient device charging and power access.

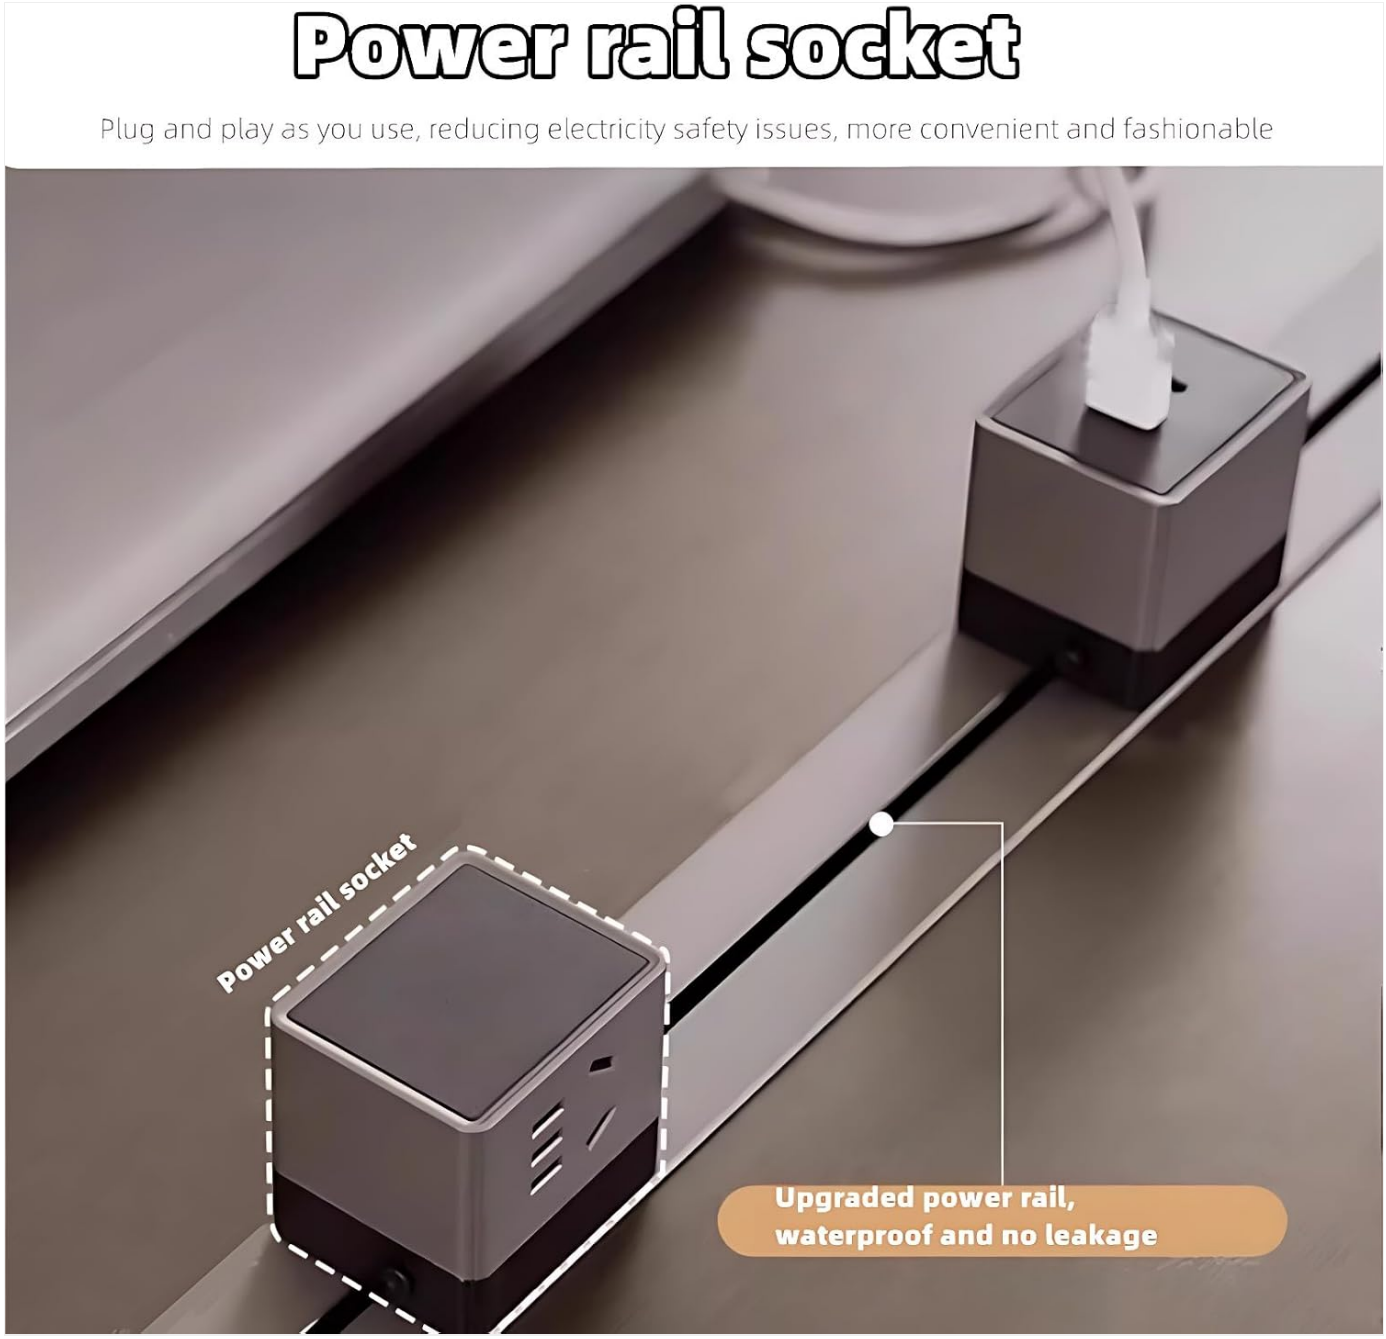

Image 4.3: Close-up of the power rail and a plug-in socket, highlighting its waterproof design.

- **Connecting Devices:** Plug your electronic devices into the available outlets on the power rail.
- **Cable Management:** Utilize the multi-function cable box to organize and conceal cables, maintaining a tidy workspace.
- **Safety:** The upgraded power rail is designed to be waterproof and prevent leakage, enhancing safety.

4.4 Drawer and Storage Compartment Usage

The desk provides various storage options to keep your office essentials organized.

- **Drawers:** Use the two drawers for storing documents, stationery, and personal items. One drawer features a password lock for secure storage.
- **Storage Compartments:** The three additional spacious compartments are ideal for larger items such as computers, printers, or binders.

5. Maintenance

Proper care and maintenance will ensure the longevity and appearance of your ZGNBSD Executive Desk STL16.

- **Cleaning the Surface:** Wipe the desk surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the lacquered finish.
- **Dusting:** Regularly dust the desk with a dry, soft cloth.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the wood.
- **Drawer Glides:** If drawers become stiff, a small amount of silicone spray lubricant can be applied to the simple glide mechanism.
- **Electrical Components:** Ensure all electrical connections are secure. Do not attempt to clean electrical outlets with liquids.

6. Troubleshooting

This section addresses common issues you might encounter with your executive desk.

LED Light Strip Issues:

- **Light not turning on:**
  - Ensure the desk is properly connected to a power source.
  - Check if the emergency USB power port is being used to supply power if the internal battery is low.
  - Gently re-touch the switch button.
- **Light flickering or dim:**
  - The internal battery may be low; connect to an external power source via the emergency USB port.
  - Long press the switch button to adjust brightness.

Power Rail Issues:

- **No power from outlets:**
  - Verify the main power connection to the desk.
  - Check if the device you are trying to power is functioning correctly.

Drawer Issues:

- **Drawer sticking or difficult to open/close:**
  - Check for any obstructions in the drawer or along the glide mechanism.
  - Ensure the desk is on a level surface.
  - Apply a small amount of silicone lubricant to the drawer glides if necessary.
- **Fingerprint lock not working:**
  - Ensure your finger is clean and dry when attempting to unlock.
  - Re-register your fingerprint if issues persist (refer to the lock's specific instructions).
  - Check the battery level of the fingerprint lock.

If you encounter problems not listed here or require further assistance, please contact ZGNBSD customer support.
