HOMYEDAMIC 9012-GREY-19

HOMYEDAMIC Recliner Chair Rocker Instruction Manual

Model: 9012-GREY-19

INTRODUCTION

Thank you for choosing the HOMYEDAMIC Recliner Chair Rocker. This manual provides essential information for the proper assembly, operation, maintenance, and troubleshooting of your new chair. Please read these instructions carefully before use to ensure safe and optimal performance.

Figure 1: The HOMYEDAMIC Recliner Chair Rocker.

SETUP AND ASSEMBLY

The HOMYEDAMIC Recliner Chair Rocker requires assembly. It is recommended that two people assemble the chair, though it can be done by a single person in approximately 20 minutes. Ensure all parts are present before beginning assembly.

Package Contents

Your package should contain all necessary components for assembly. Some smaller parts may be tucked within the chair's upholstery for shipping. Carefully check all compartments.

ADJUSTABLE RECLINE FUNCTION

Assembly Steps

1. Unpack all components from the box. Lay them out on a clean, soft surface to prevent damage.
2. Attach the backrest to the seat base. Ensure the connection points align and secure firmly.
3. Connect any remaining components as per the detailed instructions provided in the physical manual (not included here).
4. Verify all connections are secure and stable before use.

Dimensions and Safety

Refer to the product dimension diagram for detailed measurements. The chair is designed with anti-tip-over support feet for enhanced stability.

OPERATING INSTRUCTIONS

The HOMYEDAMIC Recliner Chair offers multiple functions for your comfort.

Swivel and Rocking Function

This chair features a 360-degree swivel function, allowing you to easily adjust your direction without moving the entire chair. It also includes a rocking function, enabling a gentle sway for relaxation.

SWIVEL & ROCKING DESIGN

360 ° SWIVEL

360 ° rotation function facilitates you to adjust direction and provides a comfortable experience.

ROCKING FUNCTION

You can sway back and forth while watching TV or resting to relax.

Figure 5: Swivel and rocking capabilities.

Reclining Function

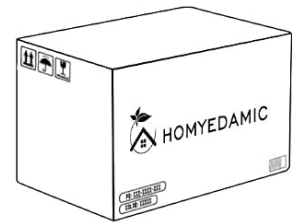

The chair offers a 145-degree reclining function. To recline, locate the side pull ring (not electrically operated) and pull it to extend the footrest and recline the backrest. To return to the upright position, push the footrest back into place. Note that closing the footrest may require some effort due to resistance.

- **90° Reading Position:** Upright for comfortable reading or working.
- **120° Watching TV Position:** Slightly reclined for relaxed viewing.
- **145° Napping Position:** Fully reclined for resting or napping.

WIDER RECLINER

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your recliner chair.

- **Cleaning:** For general cleaning, use a soft, damp cloth to wipe down the fabric. For spills, blot immediately with a clean cloth. Avoid harsh chemicals or abrasive cleaners.
- **Frame Inspection:** Periodically check all bolts and screws to ensure they are tight. Re-tighten if necessary. The chair features an all-metal body certified by BIFMA for durability.
- **Mechanism Care:** The reclining mechanism is designed for durability, tested for 25,000 openings and closings. Keep the mechanism free of dust and debris. Do not lubricate unless specifically instructed by customer support.

TROUBLESHOOTING

If you encounter any issues with your recliner chair, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Footrest is difficult to close.	The footrest mechanism is designed with some resistance to ensure stability when extended.	Apply firm, steady pressure to close the footrest. This is normal operation and not a defect.
Chair does not stay fully reclined.	Improper balance or weight distribution.	Ensure you are centered in the chair. The chair's design may require a specific balance to maintain the fully reclined position. It is primarily designed for sitting and rocking, not extended sleeping.
Creaking noises during use.	Loose connections or new components settling.	Check all assembly bolts and screws and tighten them if loose. If creaking persists, contact customer support.
Missing parts or damaged components upon arrival.	Shipping damage or packaging error.	Contact HOMYEDAMIC customer service immediately with your order details.

If you experience any issues not listed here, or if the suggested solutions do not resolve the problem, please contact HOMYEDAMIC customer service for assistance.

SPECIFICATIONS

Feature	Detail
Brand	HOMYEDAMIC
Model Name	9012-GREY-19
Color	Dark Gray a - Flannel
