EMONAIR ET01

EMONAIR Air Tracker Tags User Manual

Model: ET01

INTRODUCTION

The EMONAIR Air Tracker Tag is a compact Bluetooth item finder designed to help you locate your valuable items quickly and efficiently. Utilizing Apple's Find My network, this device allows you to track keys, luggage, backpacks, and other personal belongings directly from your iOS device. Its robust design and long-lasting replaceable battery ensure reliable performance.

WHAT'S IN THE BOX

- EMONAIR Air Tracker Tag (Model: ET01)
- CR2032 Battery (pre-installed or included separately)
- User Manual (this document)

SETUP GUIDE

Follow these steps to set up your EMONAIR Air Tracker Tag with your iOS device. This product is designed exclusively for iOS devices and is not compatible with Android.

1. **Enable Bluetooth:** On your iPhone or iPad, go to **Settings > Bluetooth** and ensure Bluetooth is turned **On**.

2. **Open Find My App:** Locate and open the **Find My** app on your iOS device.
3. **Activate Tracker:** Press the button on the EMONAIR Air Tracker Tag. Release the button. The Tag will beep, indicating it has turned on and entered pairing mode.
4. **Add Item:** In the Find My app, tap on the **Items** tab. Then tap **Add Item**, and select **Other Supported Item**.
5. **Complete Pairing:** Follow the on-screen instructions within the Find My app to complete the pairing process. This typically involves confirming the connection and naming your tracker.

OPERATING INSTRUCTIONS

Locating Your Items

The EMONAIR Air Tracker Tag leverages the Apple Find My network to help you locate your belongings.

- **Find Nearby Items (Within Bluetooth Range):**

If your item is within Bluetooth range (approximately 200 feet), open the **Find My** app, select your EMONAIR Air Tracker Tag from the **Items** tab, and tap **Play Sound**. The tracker will emit a loud sound (80-100 decibels) to help you pinpoint its exact location. You can also ask Siri for assistance.

One-Tap Find

Locate your items by making the tags ring (with a loud 100 decibels) via the built - in speaker.

Image: An iPhone displaying the Find My app with an option to 'Play Sound', next to a set of keys with an EMONAIR Air Tracker Tag, illustrating the one-tap find feature.

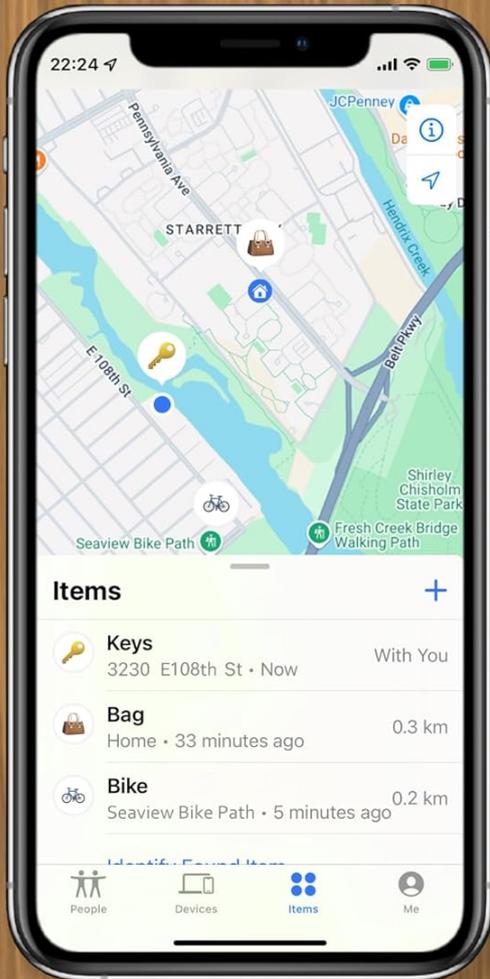

- **Find Distant Items (Outside Bluetooth Range):**

If your item is out of Bluetooth range, the Find My app will display its last known location on a map. You can use the app's navigation feature to guide you to the item's general vicinity. The Apple Find My network, composed of billions of iOS devices worldwide, anonymously helps locate your tracker by relaying its location when it comes into contact with any device on the network.

Left-Behind Remind

The Left-Behind Remind feature notifies you if you leave your item behind. If your EMONAIR Air Tracker Tag goes out of Bluetooth range from your iOS device, you will receive an instant notification on your phone, helping you remember to retrieve your belongings.

Left-Behind Remind

When an item with an EMONAIR Bluetooth tracker goes out of Bluetooth range from your iOS device, you'll get an instant phone notification.

"Keys" Left Behind

Lost Mode

If you lose your item, you can activate Lost Mode in the Find My app. This allows you to add your contact information. If someone finds your EMONAIR Air Tracker Tag, they can use their Apple device to view your contact details and help return your item. Nearby Apple devices will also anonymously share the tag's location, providing more ways to track your valuables.

Lost Mode

If you set lost mode and add contact info, nearby Apple devices can share the tag's location, giving you more ways to track your valuables.

MAINTENANCE

Battery Replacement

The EMONAIR Air Tracker Tag uses a replaceable CR2032 coin cell battery, which typically lasts between 12 to 25 months. You can check the battery status directly within the Apple Find My app.

To replace the battery:

1. Locate the screw on the back of the EMONAIR Air Tracker Tag.
2. Carefully unscrew the battery cover.
3. Remove the old CR2032 battery.
4. Insert a new CR2032 battery with the positive (+) side facing up.
5. Replace the battery cover and secure it with the screw.

Water and Dust Resistance

The EMONAIR Air Tracker Tag is rated IP67, meaning it is resistant to water splashes, rain, and short-term submersion. While it offers protection against everyday exposure to water and dust, it is not recommended for prolonged submersion or use in extreme conditions.

TROUBLESHOOTING

• Tracker not pairing:

- Ensure Bluetooth is enabled on your iOS device.
- Make sure the EMONAIR Air Tracker Tag has a fresh battery and is powered on (press the button until it beeps).
- Ensure you are within close proximity to the tracker during pairing.
- Restart your iOS device and try the pairing process again.

• No sound from tracker:

- Check the battery level in the Find My app. A low battery might prevent the sound from playing.
- Ensure your iOS device is within Bluetooth range of the tracker.

• Inaccurate location:

- Location accuracy depends on the Apple Find My network. In areas with fewer iOS devices, location updates might be less frequent.
- Ensure your iOS device has a stable internet connection for map updates.

SPECIFICATIONS

Model Number	ET01
Dimensions (L x W x H)	1.3 x 1.3 x 0.31 inches (33 x 33 x 7.9 mm)
Weight	0.264 ounces (7.6 grams)
