EMONAIR ET01

EMONAIR Air Tracker Tags (4-Pack) ET01 - Instruction Manual

Your comprehensive guide to setting up and using your EMONAIR Air Tracker Tags.

INTRODUCTION

The EMONAIR Air Tracker Tags are Bluetooth-enabled item finders designed to help you locate your belongings quickly and efficiently. Compatible exclusively with Apple's Find My app (iOS only), these tags provide peace of mind by allowing you to track items like keys, luggage, backpacks, and wallets. Each tag features a loud built-in speaker, long-range tracking capabilities via the Apple Find My network, and a user-replaceable battery for extended use.

SETUP GUIDE

Follow these simple steps to connect your EMONAIR Air Tracker Tags with your iOS device:

1. **Enable Bluetooth:** On your iPhone or iPad, go to **Settings** > **Bluetooth** and ensure Bluetooth is turned **On**.
2. **Open Find My App:** Launch the **Find My** app on your iOS device.
3. **Activate Tracker:** Press the button on the EMONAIR Air Tracker Tag. Release the button when you hear a beep, indicating the tag has turned on and entered pairing mode.
4. **Add Item:** In the Find My app, tap the **Items** tab, then tap **Add Item**, and select **Other Supported Item**.
5. **Connect:** Follow the on-screen instructions in the Find My app to complete the pairing process. Tap **Connect** when prompted.

Works with the Apple Find My app

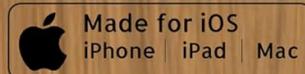

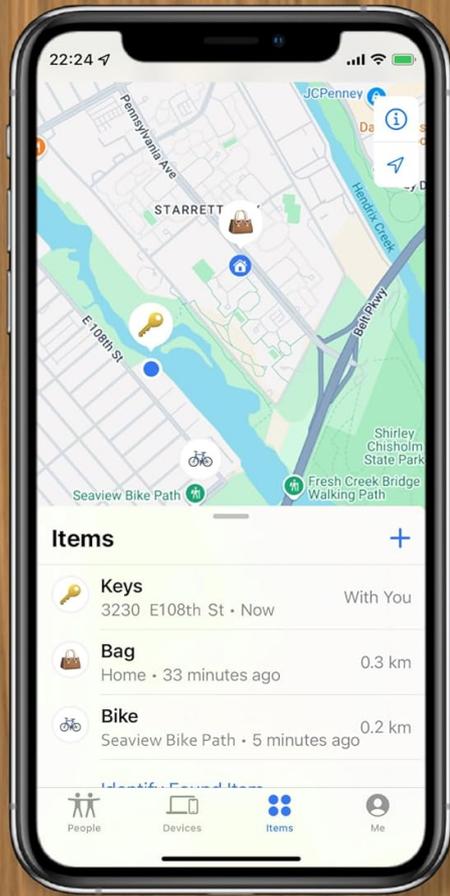

Figure 1: EMONAIR Air Tracker Tags integrated with the Apple Find My app, displaying tracked items on a map interface. This image illustrates the primary function of the tags in locating personal belongings.

Easy Setup

Step 1

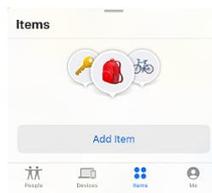

Go to Settings > Turn on **Bluetooth**. Open the **Find My** app.

Button

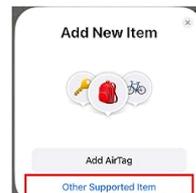

Step 2

Press the **button** on the Mate Tag, then release, the Tag will **beep** and **turn on**, that the Tag enters the pairing state.

Step 3

In the Find My app, Tap "Items"> "**Add Items**"

Step 4

Tap "**Other Supported Item**"

Step 5

Tap "**Connect**" and follow the in-app instructions to complete pairing.

OPERATING INSTRUCTIONS

Finding Your Items

There are several ways to locate your EMONAIR Air Tracker Tags:

- **Play Sound (Within Bluetooth Range):** If your item is within 200 feet (Bluetooth range), open the Find My app, select your EMONAIR tag, and tap **Play Sound**. The tag will emit a loud sound (80-100 decibels) to help you pinpoint its location. You can also ask Siri for assistance.
- **Map Navigation (Out of Bluetooth Range):** If your item is beyond Bluetooth range, the Find My app will display its last known location on a map. You can then use the map to navigate to the item's general vicinity.

One-Tap Find
Locate your items by making the tags ring (with a loud 100 decibels) via the built-in speaker.

Figure 3: The "One-Tap Find" feature in action, demonstrating how to make the EMONAIR tag ring via the Find My app to locate keys. The tag emits a loud sound for easy detection.

Left-Behind Remind & Lost Mode

- **Left-Behind Remind:** The Find My app can notify you instantly if your EMONAIR tag goes out of Bluetooth range from your iOS device. This feature helps prevent you from forgetting important items.
- **Lost Mode:** If an item with your tag is lost, you can activate Lost Mode in the Find My app. This allows any nearby Apple device on the Find My network to anonymously detect your tag's location and update you. You can also add contact information so that if someone finds your tag, they can easily return it to you.

Left-Behind Remind

When an item with an EMONAIR Bluetooth tracker goes out of Bluetooth range from your iOS device, you'll get an instant phone notification.

"Keys" Left Behind

20m ago

This item is no longer detected near you. It was last seen near *****

Figure 4: An example of the "Left-Behind Remind" notification on an iPhone, alerting the user that their EMONAIR Bluetooth tracker (and attached keys) is no longer nearby. This feature helps prevent accidental loss.

Lost Mode

If you set lost mode and add contact info, nearby Apple devices can share the tag's location, giving you more ways to track your valuables.

Figure 5: The "Lost Mode" interface within the Find My app, showing how a lost EMONAIR tag can display contact information to anyone who finds it, facilitating its return.

MAINTENANCE

Battery Replacement

The EMONAIR Air Tracker Tags use a replaceable CR2032 coin cell battery, which typically lasts 12 to 25 months. You can check the battery status directly within the Find My app. To replace the battery:

1. Locate the small screw on the back of the tag.
2. Use a small screwdriver to open the battery compartment.
3. Remove the old CR2032 battery.
4. Insert a new CR2032 battery with the positive (+) side facing up.
5. Securely close the battery compartment.

Figure 6: Detailed diagram of the EMONAIR Mate Air Tracker Tag, highlighting key features like the button, key ring hole, and the screw for battery access. Dimensions are also provided.

Water and Dust Resistance

The EMONAIR Air Tracker Tags are rated IP67, meaning they are resistant to water splashes, rain, and short-term submersion. This ensures your items remain safe in various conditions. However, prolonged submersion or exposure to high-pressure water jets is not recommended.

TROUBLESHOOTING

- **Tag not pairing:** Ensure Bluetooth is enabled on your iOS device. Make sure the tag is powered on (press the button until it beeps). Try restarting your iOS device and the tag.
- **Sound is too low:** The tag emits a sound between 80-100 decibels. Ensure there are no obstructions muffling the sound.
- **Inaccurate location:** Location accuracy depends on the Apple Find My network. In areas with fewer Apple devices, location updates might be less frequent or precise.
- **Battery draining quickly:** Ensure the tag is not constantly being searched for or ringing, as this can deplete the battery faster. Check the battery status in the Find My app.

SPECIFICATIONS

Feature	Detail
Product Dimensions	1.3 x 1.3 x 0.31 inches
Item Weight	0.264 ounces
Item Model Number	ET01
Batteries	1 x CR2032 (included, replaceable)
Battery Life	12-25 months
Connectivity Technology	Bluetooth
Supported Application	Apple Find My (iOS Only)
Water & Dust Resistance	IP67
Material	Polycarbonate (PC), Acrylonitrile Butadiene Styrene (ABS)
