4. ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended that two adults perform the assembly to ensure safety and ease of construction. Please follow the detailed step-by-step instructions provided in the separate assembly manual included with your package.

Key Assembly Tips:

- **Organize Parts:** Lay out all panels and hardware before starting.
- **Use Proper Tools:** A Phillips head screwdriver and a hammer are typically required. Do not overtighten screws.
- **Wooden Dowels:** When inserting wooden dowels, ensure they are not hammered in too far, as this can cause damage to the panels. They should be flush or slightly recessed.
- **Door Alignment:** Door alignment can be adjusted using the screws on the hinges after the doors are hung. This may require fine-tuning to achieve an even gap.
- **Drawer Tracks:** Install drawer tracks carefully. Ensure they are level and properly secured to allow smooth drawer operation.

5. SETUP AND PLACEMENT

Once assembled, carefully move the wardrobe to its desired location. Consider the following:

- **Level Surface:** Place the wardrobe on a flat, level surface to prevent wobbling and ensure doors and drawers operate correctly.
- **Clearance:** Ensure adequate space around the wardrobe for doors to open fully and drawers to extend without obstruction.
- **Environment:** Avoid placing the wardrobe in areas with excessive moisture, direct sunlight, or extreme temperature fluctuations, as this can affect the wood material.

7. MAINTENANCE AND CARE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Spills:** Clean spills immediately to prevent staining or damage to the wood.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary.
- **Avoid Overloading:** Do not exceed the weight capacity of the hanging rod or drawers to prevent structural damage.

8. TROUBLESHOOTING

Common Issues and Solutions:

- **Wobbly Wardrobe:** Ensure the wardrobe is on a level surface. Adjust any leveling feet if present, or place shims under the base. Check that all assembly screws are tightened.
- **Doors Not Aligning:** Adjust the screws on the door hinges. There are typically adjustment screws that allow for horizontal, vertical, and depth alignment. Refer to the assembly manual for specific hinge adjustment instructions.
- **Drawers Sticking or Falling Off Track:** Ensure drawer slides are correctly installed and lubricated if necessary. Check that drawers are not overloaded. If the issue persists, re-examine the drawer track installation steps in the assembly manual.
