KYKY KYKY01

KYKY KYKY01 Automatic Self-Cleaning Litter Box User Manual

Model: KYKY01 | Brand: KYKY

1. Introduction

Thank you for choosing the KYKY KYKY01 Automatic Self-Cleaning Litter Box. This device is designed to simplify cat care by automatically cleaning your cat's litter, providing a fresh environment for your pets and convenience for you. Its open design and low entrance make it accessible for cats of all ages and sizes, including kittens and older cats. The large capacity is suitable for multi-cat households, and the integrated app control offers remote management and health monitoring features.

2. Safety Information

Your safety and the safety of your pets are paramount. Please read and understand all safety instructions before operating the device.

- **Infrared Sensor:** The litter box is equipped with an infrared sensor that detects the presence of a cat. If a cat is detected during a cleaning cycle, the operation will pause immediately to prevent injury.
- **Anti-Pinch Mechanism:** In the event of physical contact with the cleaning rake, the device features an anti-pinch mechanism that reverses the rake's direction, ensuring your cat's safety.
- **Power Disconnection:** Always disconnect the power cord before performing any maintenance, cleaning, or when the unit is not in use.
- **Indoor Use Only:** This appliance is designed for indoor use only. Do not expose it to rain or moisture.
- **Children and Pets:** Keep children and pets away from moving parts during operation. Ensure children do not play with the appliance.

3. Package Contents

Please verify that all components are present in the package:

- KYKY KYKY01 Automatic Self-Cleaning Litter Box (Main Unit)
- Power Adapter
- User Manual (this document)
- Waste Bags (starter pack)
- Litter Mat

Image 3.1: All items included in the KYKY KYKY01 product package.

4. Product Features

- **Open Design:** Mimics traditional litter boxes, promoting easier adaptation for cats.
- **Low Entrance:** Convenient for kittens, short-legged cats, and older cats with limited mobility.
- **Large Capacity:** Accommodates large cats and multiple-cat households, allowing cats to turn comfortably.
- **Airtight Waste Compartment:** A 5L enclosed waste compartment effectively isolates odors, allowing for extended periods between waste disposal.
- **App Control:** Manage cleaning cycles, set dormant times, and monitor your cat's health remotely via the dedicated smartphone application.
- **Quiet Operation:** Designed to operate with minimal noise, ensuring a peaceful home environment.
- **Compatibility:** Works with various types of clumping cat litter, offering cost savings compared to crystal litter.

5. Setup

5.1 Initial Placement

Place the litter box on a flat, stable surface indoors, away from direct sunlight or heat sources. Ensure there is

enough space around the unit for easy access and maintenance.

5.2 Filling with Litter

1. Ensure the litter box is powered off and unplugged.
2. Pour clumping cat litter into the main litter tray.
3. Fill the litter to a level between the 'MIN' and 'MAX' lines indicated inside the tray. Overfilling or underfilling can affect cleaning performance and potentially cause wear.
4. Recommended litter types include bentonite, mineral, raw bentonite, and sodium-based mineral cat litter. Avoid long strip cat litter as it may not clump effectively for automatic cleaning.

Image 5.1: Guidance on suitable litter types for optimal performance and cost savings.

5.3 Power Connection

Connect the power adapter to the litter box and then plug it into a standard electrical outlet. The display will illuminate, indicating the unit is powered on.

5.4 App Pairing (2.4G WiFi)

1. Download the KYKY app from your smartphone's app store.
2. Open the app and follow the on-screen instructions to create an account and add your device.
3. Ensure your smartphone is connected to a 2.4GHz Wi-Fi network during the pairing process. The litter box supports 2.4G WiFi only.
4. On the litter box, long press the left button (power button) to initiate Wi-Fi connection mode. The display will show a Wi-Fi icon or similar indicator.
5. Complete the pairing process within the app.

6. Operating Instructions

6.1 Manual Operation

- **Power On/Off:** Short press the left button to turn the unit on or off.
- **Start Cleaning:** Short press the right button to initiate a manual cleaning cycle.
- **Adjust Delayed Cleaning Time:** Long press the right button to adjust the delayed cleaning time. Refer to the display for current settings.

6.2 App Control Functions

The KYKY app provides comprehensive control and monitoring capabilities:

- **One-Click Cleaning:** Remotely start a cleaning cycle with a single tap.
- **Delayed Cleaning:** Set a delay for cleaning after your cat uses the box, allowing litter to clump properly.
- **Dormant Time:** Schedule periods when the litter box will not clean, such as during nighttime, to avoid disturbances.
- **Health Management:** Monitor your cat's usage patterns, including the number of visits and excretion duration, to track their health.
- **Real-time Notifications:** Receive alerts and status updates directly on your smartphone.

7. Maintenance

Regular maintenance ensures the longevity and optimal performance of your KYKY KYKY01 litter box.

7.1 Waste Disposal

The 5-liter waste collection bucket should be emptied regularly, depending on the number of cats and their usage. For multi-cat households, emptying every 2-3 days is recommended. Simply remove the collection bucket, tie off the waste bag, and replace it with a new one.

7.2 Cleaning the Litter Tray and Rake

1. Power off and unplug the unit.
2. Remove the main litter tray and the cleaning rake. These components are designed for easy disassembly.
3. Rinse the litter tray and rake with water or wipe them down with a damp cloth. Use mild soap if necessary.
4. Ensure all parts are completely dry before reassembling them into the main unit.

Image 7.1: The KYKY KYKY01 disassembled for thorough cleaning of its components.

7.3 Cleaning the Main Unit

Wipe the exterior of the main unit with a soft, damp cloth. Do not immerse the main unit in water or use abrasive

cleaners.

8. Troubleshooting

If you encounter issues with your KYKY KYKY01, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Power cord not connected properly; Power outlet malfunction.	Ensure power cord is securely plugged into the unit and a working outlet. Try a different outlet.
Cleaning cycle does not start.	Cat detected by sensor; Litter level too high/low; Rake obstruction.	Check if a cat is near the sensor. Adjust litter level. Inspect rake for obstructions and clean if necessary.
Odor is present.	Waste compartment full; Ineffective litter; Unit needs cleaning.	Empty waste compartment. Ensure you are using high-quality clumping litter. Perform a thorough cleaning of the unit.
App cannot connect to the unit.	Incorrect Wi-Fi band; Incorrect Wi-Fi password; Unit not in pairing mode.	Ensure your router is broadcasting a 2.4GHz Wi-Fi signal. Verify Wi-Fi password. Long press the left button on the unit to enter pairing mode.
Litter is not clumping effectively.	Low-quality litter; Insufficient time for clumping.	Switch to a high-quality, fine-grained clumping litter. Adjust delayed cleaning time in the app to allow more time for clumping.

If the problem persists after attempting these solutions, please contact customer support.
