TOPTRO

TOPTRO Smart Projector User Manual

Model: B1

1. INTRODUCTION

Thank you for choosing the TOPTRO Smart Projector. This manual provides essential information for setting up, operating, and maintaining your projector to ensure optimal performance and longevity. Please read this manual thoroughly before using the product and retain it for future reference.

2. IMPORTANT SAFETY INFORMATION

- **Operating Environment:** For the best viewing experience, it is recommended to use the projector in a dark environment.
- **Audio Compatibility:** The projector does not support Dolby Audio. Ensure Dolby Audio is turned off on your source device to avoid sound issues.
- **Bluetooth Connectivity:** The projector's Bluetooth function does not support direct connection to smartphones or computers for audio output. It is designed for connecting to external Bluetooth speakers or headphones.
- **Battery Usage:** The built-in battery provides approximately 2.5 hours of playback on a full charge. If the battery is depleted, charge for at least 15 minutes before resuming use.
- **Software Updates:** If the application prompts you to update, it is recommended not to update. Press the "return button" on the remote control to continue normal operation.
- **Dust Prevention:** The projector features a fully sealed optical system designed to prevent dust accumulation, reducing issues like yellowing and black spots. Do not attempt to open the optical system.

3. PACKAGE CONTENTS

Please check the box for the following items:

- TOPTRO Smart Projector
- Power Cord
- Remote Control
- User Manual (this document)

4. PRODUCT OVERVIEW

Key Features

- **Built-in Battery:** 20000mAh capacity for up to 2.5 hours of portable use.
- **Built-in Android System:** Access to a built-in App Store for streaming applications like YouTube, Netflix, and Prime Video.
- **Smart Electric Focus & Auto Vertical Keystone:** Automatic image adjustment for clear, rectangular projection.
- **Fully Sealed Optical Machine:** Prevents dust contamination, reducing yellowing and black spots, and extends lifespan.
- **Shocking Stereo Sound:** Customized super large sound cavity for 360-degree stereo surround sound.
- **5G High-Speed WiFi:** Faster and more stable wireless connection.

Projector Components

Image: Top view of the projector, highlighting the USB and HDMI input ports for connecting various devices.

Image: A projected image demonstrating the high-definition picture quality, emphasizing clarity and detail.

Image: The projector positioned near an external speaker, symbolizing its powerful stereo sound output.

5. INITIAL SETUP

1. Powering On:

Connect the power cord to the projector and a power outlet. If using the built-in battery, ensure it is sufficiently charged. Press the power button located on the top of the projector to turn it on.

Intelligent Design, One-Key Start

Image: A user's finger pressing the power button located on the top surface of the projector.

2. Placement:

Place the projector on a stable, flat surface. For optimal image quality, project onto a smooth, light-colored wall or a projector screen in a dark room.

3. Focus and Keystone Correction:

The projector features smart electric focus and auto vertical keystone correction. Use the smart remote control to obtain a clear, rectangular image within 5 seconds. The auto vertical keystone function will automatically correct distorted images.

5G High Speed Wifi, Say Goodbye to Lag

iOS

Android

Win10

Image: A remote control being used to adjust the electric focus of the projector, ensuring a crystal-clear image.

4. Connecting Devices:

Connect your desired input devices (e.g., TV stick, game console, laptop) to the projector's HDMI or USB ports. Ensure the correct input source is selected on the projector's menu.

5. Network Connection (WiFi):

Navigate to the network settings in the projector's menu. Select your 5G WiFi network and enter the password to connect for internet access and streaming.

6. OPERATION

Basic Operation

- Use the provided remote control to navigate the projector's interface.
- The remote allows you to adjust volume, select input sources, access settings, and control media playback.

Smart System & Applications

The TOPTRO Smart Projector features a built-in Android operating system. This allows you to download and install various applications directly from the integrated App Store, including popular streaming services like YouTube, Netflix, and Prime Video. It is recommended to connect a TV box or Fire TV stick (not included) for a wider range of content.

Built-in Smart System

Watch more movies without a TV stick

Image: The projector's interface showing various pre-installed and downloadable streaming applications.

Screen Mirroring / Casting

The projector supports connectivity with iOS, Android, and PC devices, allowing you to mirror or cast content from your

smartphone, tablet, or computer. Refer to the on-screen instructions for specific mirroring protocols.

Electric Focus

Crystal-clear visuals at the touch of a button

Image: A visual representation of the projector's 5G WiFi capability, demonstrating faster and more stable connections compared to 2.4G WiFi.

7. MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. For the lens, use a specialized lens cleaning

cloth and solution. Do not use abrasive cleaners or solvents.

- **Storage:** When not in use, store the projector in a cool, dry place away from direct sunlight and extreme temperatures.
- **Dust Protection:** The fully sealed optical system (IP5X certified) significantly reduces dust ingress. Avoid exposing the projector to excessively dusty environments.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cord not connected; Battery depleted	Ensure power cord is securely connected. If using battery, charge for at least 15 minutes.
Blurry image	Out of focus; Incorrect keystone	Use the remote control for electric focus adjustment. The projector has auto vertical keystone correction.
No sound	Volume too low; Dolby Audio enabled on source; Incorrect audio output	Increase volume. Disable Dolby Audio on your source device. Check audio output settings.
Cannot connect Bluetooth device	Attempting to connect to smartphone/computer; Device not in pairing mode	Bluetooth is for speakers/headphones only, not smartphones/computers. Ensure your Bluetooth device is in pairing mode.
App update prompt	System prompting for update	It is recommended not to update. Press the "return button" on the remote control to continue normal operation.
Yellowing or black spots on screen	Dust accumulation (unlikely due to sealed system)	The sealed optical system minimizes this. If issues persist, contact customer support.

9. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	TOPTRO
Display Resolution	1920 x 1080 (1080P)
Connectivity Technology	Bluetooth, WiFi (5G supported), HDMI, USB
Special Feature	Portable, Built-in Battery, Smart Android System, Auto Focus, Auto Keystone
Recommended Uses	Home Cinema, Outdoor Movies, Camping, Travel
Manufacturer	TOPTRO
First Available	November 22, 2024

10. WARRANTY AND CUSTOMER SUPPORT

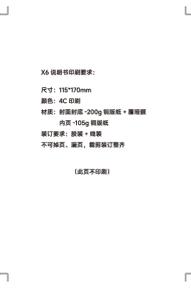

TOPTRO provides comprehensive after-sales support for your projector:

- **1-Year Money-Back Guarantee:** If you are not satisfied with your purchase within one year, you may be eligible for a refund.
- **3-Year Repair Service:** The projector is covered by a 3-year repair warranty for manufacturing defects.
- **Lifetime Professional Technical Support:** TOPTRO offers lifetime technical assistance for any issues or questions you may have regarding your projector.

For any problems or inquiries, please contact TOPTRO customer support through the official website or your purchase platform. Please have your product model and purchase details ready when contacting support.
