3. Setup Guide

3.1. App Installation and Device Pairing

To unlock the full potential of your TOOBUR Smart Watch IDW26, download and install the "VeryFit" app on your smartphone. The app is compatible with Android 6.0+ and iOS 9.0+ devices.

1. Download the "VeryFit" app from your smartphone's app store.
2. Open the app and click "Start to Use".
3. Select your region and input your personal information (gender, birth date, height, weight). You can skip nickname entry.
4. You may register for an account to save and synchronize your health data, or skip this step.
5. In the app, select "Watch/bracelet" as the device type.
6. Ensure your watch is powered on and close to your phone. The app will search for the device.
7. Select "IDW26" from the list of found devices and confirm the pairing request.
8. Alternatively, you can scan the QR code displayed on your watch using the app's QR scan function to connect.
9. Once bound successfully, the settings are complete, and you can begin using your watch.

Your browser does not support the video tag.

3.2. Alexa Integration

Your TOOBUR Smart Watch IDW26 features Alexa Built-in, allowing you to use voice commands for various tasks.

1. Within the VeryFit app, navigate to the Alexa section.
2. Click "Log In Now" to connect your Amazon Alexa account.
3. Follow the on-screen prompts to sign in to your Amazon account and agree to the Alexa usage rights.
4. Once connected, you can use Alexa for weather updates, setting timers, controlling smart home devices, and more.

4.2. Answer/Make Calls

The TOOBUR Smart Watch IDW26 supports Bluetooth calls, allowing you to answer or make calls directly from your wrist when connected to your smartphone.

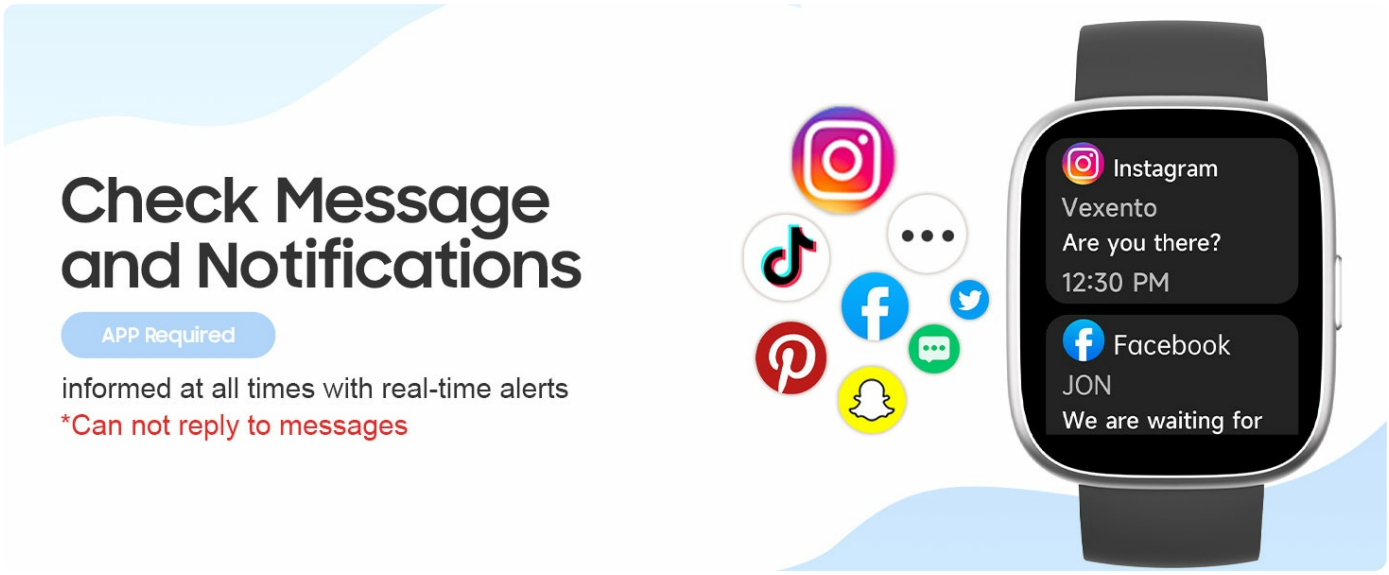

Image: The smart watch displaying an incoming call and a dialpad for making calls.

4.3. Notifications

Receive real-time alerts for messages and notifications from various apps directly on your watch. Note that replying to messages directly from the watch is not supported.

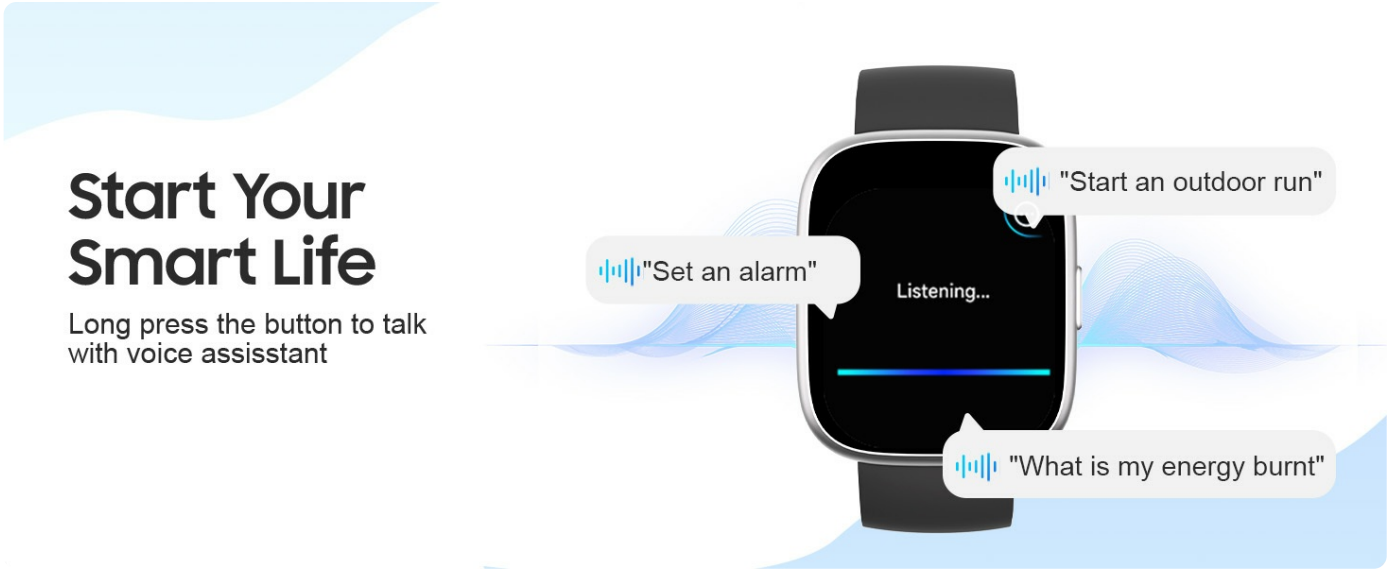

Image: The smart watch screen displaying notifications from popular social media applications.

4.4. Health Tracking

The watch continuously monitors various health metrics:

- **Heart Rate:** Real-time heart rate monitoring with alerts for irregularities.
- **Blood Oxygen (SpO2):** Track your blood oxygen levels.
- **Stress Levels:** Monitor your stress levels throughout the day.
- **Menstrual Cycle Tracking:** Track your period and predict ovulation.

Image: Icons representing heart rate, blood oxygen, and menstrual tracking features on the smart watch.

4.5. Fitness & Activity Tracker

Track your fitness goals with over 100 sports modes. The watch records steps, calories burned, distance, and speed.

- **100+ Sports Modes:** Select from a wide range of activities to accurately track your workouts.
- **Daily Activity Tracking:** Monitors steps, calories, and distance throughout the day.

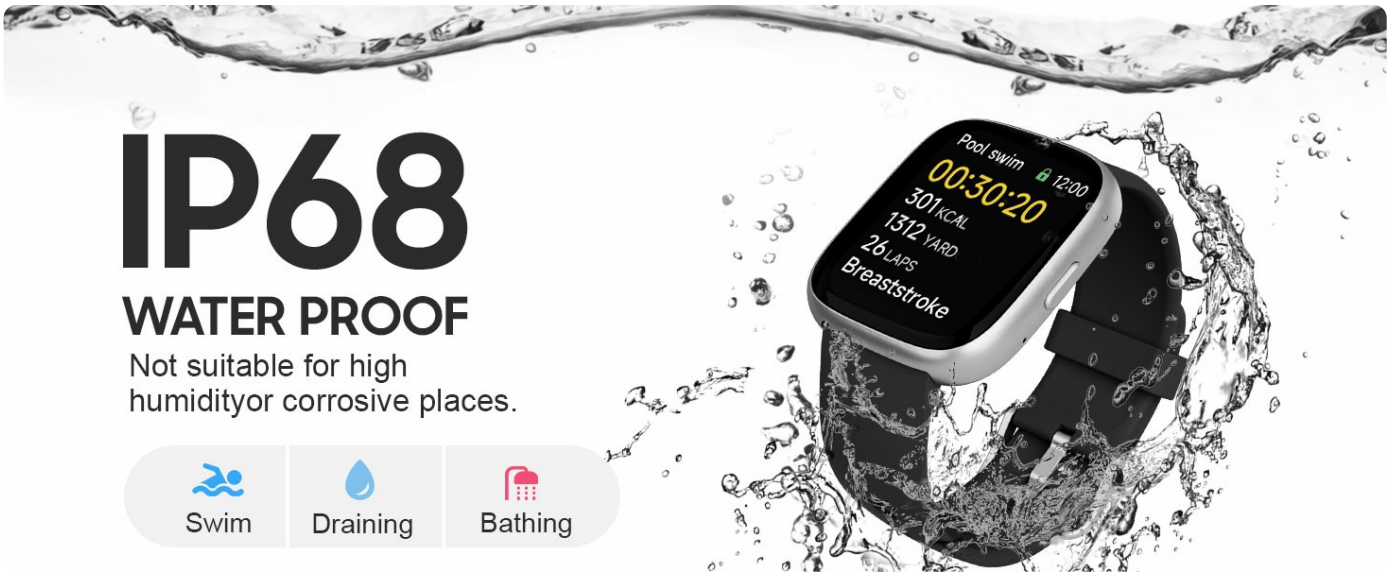

Image: The smart watch screen showing daily activity tracking data, including steps, calories, and distance.

4.6. Sleep Tracking

Monitor your sleep patterns, including REM, light, and deep sleep stages. Data is sent to the "VeryFit" app for personalized insights. For accurate recording, ensure you wear the watch for more than 3 hours of sleep.

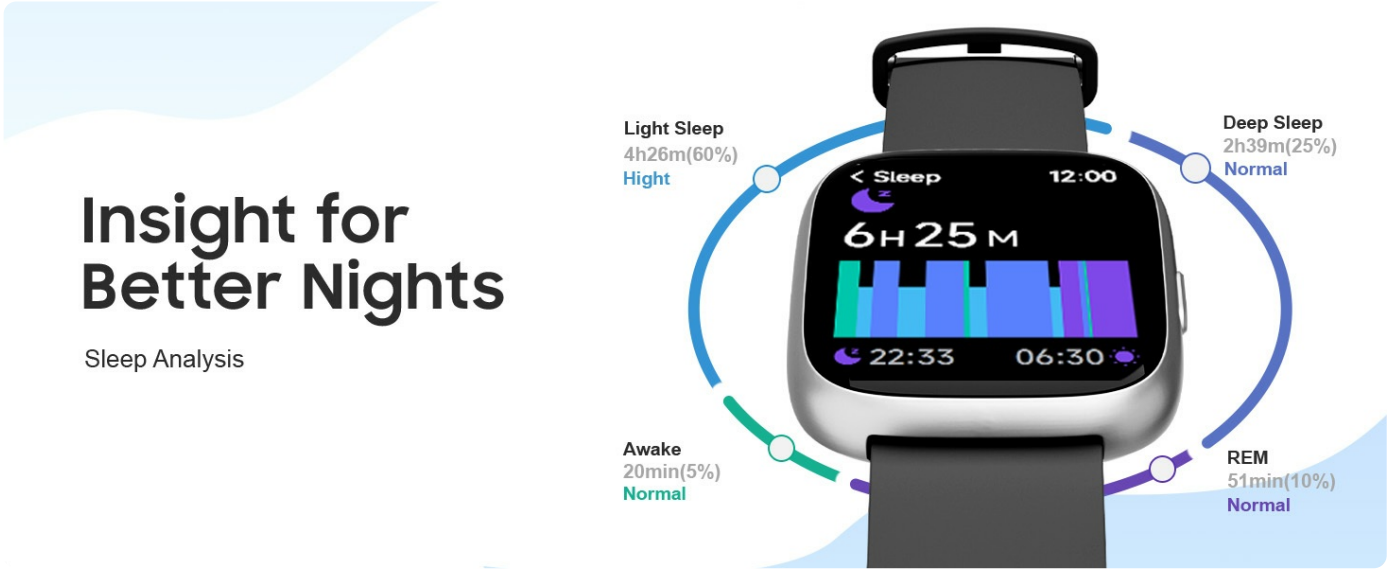

Image: The smart watch screen illustrating a detailed sleep analysis, breaking down sleep into different stages.

4.7. Customizable Watch Faces

Personalize your watch with a variety of watch faces. The watch comes with 5 built-in local watch faces (no app required), and over 100 cloud watch faces are available through the VeryFit app. You can also upload your own photos to create custom watch faces.

5. Maintenance

5.1. Charging and Battery Life

The TOOBUR Smart Watch IDW26 features an extended battery life. It takes approximately 2.5 hours to fully charge. A full charge provides up to 30 days of standby time, 20 days in power-saving mode, and 7-10 days of daily usage. The exact duration of use may vary based on usage frequency.

- Charge for at least 1 hour before initial use.
- If the battery is completely drained, charge for at least 30 minutes before powering on.

Image: The smart watch connected to its charging cable, highlighting its long battery life and quick charging time.

5.2. Water Resistance

The watch is IP68 waterproof, making it suitable for swimming and various activities. It is water resistant up to 1.5 meters. However, it is not suitable for high humidity or corrosive environments.

Image: The smart watch partially submerged in water, emphasizing its IP68 waterproof feature.

5.3. Changing Watch Straps

You can easily change the watch straps to customize the look of your TOOBUR Smart Watch IDW26.

1. To remove an old strap, move the lug of the strap to detach it from the watch body.
2. To attach a new strap, align the left lug of the new strap with the hole on the watch, then move the right lug to align with the other hole and place it firmly in position.

Your browser does not support the video tag.

Video: A short demonstration on how to change the watch straps on the TOOBUR Smart Watch IDW26.

6. Troubleshooting

If you encounter issues with your TOOBUR Smart Watch IDW26, consider the following:

- **Bluetooth Connection:**
  - Syncing activity data requires a Bluetooth connection to the VeryFit App.
  - Answering calls requires a Bluetooth connection to both the phone and the VeryFit App.
  - To receive phone notifications, ensure the VeryFit app is running in the background and Bluetooth remains connected.
  - If the connection repeatedly disconnects, try restarting both the watch and your phone's Bluetooth.

Detailed function introductions and additional precautions can be found within the VeryFit App.
