- **Cable Management:** Ensure all cables are neatly managed and not pinched or tangled, especially during height adjustments.

7. TROUBLESHOOTING

If you encounter any issues with your ModernMate furniture set, please refer to the following common troubleshooting tips:

- **Desk Not Adjusting:** Check if the power cord is securely plugged into both the desk and the wall outlet. Ensure no objects are obstructing the lifting mechanism.
- **Uneven Movement:** If the desk moves unevenly, ensure the weight on the desktop is distributed evenly and that all assembly screws are tightened.
- **Noise During Operation:** A slight hum is normal during adjustment. If you hear unusual or loud noises, stop operation and inspect for obstructions.
