autoabc CarPlay/Android Auto

autoabc Wireless CarPlay/Android Auto Adapter Mini

Model: CarPlay/Android Auto

INTRODUCTION

This instruction manual provides detailed guidance for the installation, operation, and maintenance of your autoabc Wireless CarPlay/Android Auto Adapter Mini. This device converts your vehicle's existing wired CarPlay or Android Auto system into a wireless one, offering enhanced convenience and a clutter-free driving experience. Please read this manual thoroughly before use to ensure proper functionality and to maximize your product's lifespan.

Safety Information

- Do not expose the device to extreme temperatures, direct sunlight, or moisture.
- Avoid dropping or subjecting the device to strong impacts.
- Do not attempt to disassemble or modify the device. This will void the warranty.
- Ensure the device is securely plugged into the USB port to prevent accidental disconnection during driving.
- Always prioritize safe driving. Do not operate your phone or the adapter in a way that distracts you from the road.

Package Contents

Verify that all items are present in the package:

- autoabc Wireless CarPlay/Android Auto Adapter Mini (USB-A connector)
- Instruction Manual (this document)

Setup

Follow these steps for initial setup:

1. **Vehicle Compatibility:** Ensure your vehicle is equipped with factory-installed wired CarPlay or Android Auto. This adapter is compatible with most 2016+ car models. For a comprehensive list of compatible CarPlay models, visit [Apple CarPlay Compatible Models](#).
2. **Phone Compatibility:** Your smartphone should be running iOS 10 or higher for CarPlay, or Android 11 or higher for Android Auto, for optimal performance.
3. **Plug In the Adapter:** Locate your car's USB-A port, typically used for wired CarPlay/Android Auto. Plug the autoabc adapter into this port. The adapter features a 360° rotatable connector for flexible positioning.

Image: Diagram illustrating the three steps for setup: 1. Plug adapter into car USB-A port, 2. Pair phone to adapter via Bluetooth, 3. Connect and enjoy apps.

4. **Pair Your Phone:** On your smartphone, enable Bluetooth and Wi-Fi. Search for the adapter's Bluetooth signal (usually named 'Bluetooth Cpl-****' or similar) and pair with it.
5. **Confirm Connection:** Once paired, your phone will prompt you to enable CarPlay or Android Auto. Confirm the connection. The adapter's LED light will indicate a successful connection.
6. **Automatic Reconnection:** After the initial setup, the adapter should automatically connect to your phone within 7-10 seconds each time you start your vehicle.

The autoabc Wireless Adapter is designed for seamless integration and operation:

- **Wireless Connectivity:** Enjoy all the features of CarPlay or Android Auto without the need for a physical cable connection to your phone.
- **Retain OEM Functions:** The adapter maintains your vehicle's original screen touch, physical buttons, rotary knobs, and voice controls (e.g., Siri, Google Assistant).
- **360° Rotatable Design:** The adapter's USB connector can rotate 360 degrees, allowing for optimal positioning in various car USB port layouts.

360° Rotatable

Image: The autoabc adapter shown rotating 360 degrees, highlighting its flexible design.

- **LED Light Customization:** The adapter features an LED light that can display various colors. You can customize or turn off these lights through the online upgrade interface. By default, it cycles through 7 colors.
- **Fast and Stable Connection:** Equipped with an independent AC chip, the adapter ensures fast and stable wireless connections.

MAINTENANCE

To ensure the longevity and optimal performance of your adapter:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the adapter. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight.
- **Firmware Updates:** Periodically check for online firmware updates to ensure the best performance and compatibility. Instructions for updating are provided in the Troubleshooting section.

TROUBLESHOOTING

If you encounter issues, please refer to the following common solutions:

- **Adapter Not Connecting Automatically:**
 - Ensure your phone's Bluetooth and Wi-Fi are enabled.
 - Verify that your phone is paired with the adapter's Bluetooth.

- Restart your phone and/or your car's infotainment system.
- If the issue persists, try resetting the connection by forgetting the adapter's Bluetooth device on your phone and repeating the setup steps.

• **Intermittent Connection or Disconnections:**

- Ensure the adapter is firmly seated in the USB port.
- Check for any potential interference from other wireless devices.
- Perform an online firmware update (see below).

• **Cannot Change LED Light Color:**

- Access the online settings page for the adapter. If the option to change LED light color is not visible, scroll to the bottom of the webpage to initiate an online upgrade.
- After the upgrade is complete, refresh the webpage. The LED light color customization options should now be available.

• **Online Firmware Upgrade:**

- Connect your phone to the adapter via Wi-Fi (the adapter creates a local Wi-Fi network).
- Open a web browser on your phone and navigate to the adapter's IP address (usually displayed on your car's screen or found in the adapter's Wi-Fi network details).
- Follow the on-screen instructions to check for and install any available firmware updates.
