Garvee OUTBUILDING

Garvee 10x10 ft Metal Storage Shed Instruction Manual

MODEL: OUTBUILDING

1. Product Overview

The Garvee 10x10 ft Metal Storage Shed is designed to provide a secure and spacious solution for organizing tools, equipment, and materials in your backyard, garden, patio, or lawn. Constructed from galvanized steel, this shed offers durability and resistance to various weather conditions. Key features include a pitched roof for efficient water drainage, dual air vents for circulation, and a lockable sliding door for enhanced security.

2. Safety Information

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Two-Person Assembly:** Assembly requires at least two people for safety and ease of installation.
- **Wear Protective Gear:** Always wear work gloves and eye protection during assembly to prevent cuts and injuries from sharp edges.
- **Clear Work Area:** Ensure the assembly area is clear of obstructions and debris.
- **Stable Surface:** Assemble the shed on a flat, level, and stable surface.
- **Secure Foundation:** The shed must be anchored to a solid foundation to prevent wind damage. Anchoring hardware may not be included.
- **Children and Pets:** Keep children and pets away from the assembly area.
- **Electrical Tools:** Use power tools carefully and according to their manufacturer's instructions.

3. Setup Instructions

The Garvee Metal Storage Shed is designed for straightforward assembly. All parts are pre-cut, pre-drilled, and labeled. It is highly recommended to have multiple people assist with assembly.

3.1. Unpacking and Part Identification

- Carefully unpack all components and verify against the parts list provided in your package.
- Organize parts by their labels to simplify the assembly process.

3.2. Base Frame Assembly

Begin by assembling the base frame. Connect the designated frame pieces using the provided screws and connectors. Ensure all connections are secure and the frame forms a stable rectangle.

3.3. Wall Assembly

Attach the vertical support posts to the base frame. Then, carefully slide and secure the wall panels into the frame. Ensure panels are correctly oriented and fastened to maintain structural integrity.

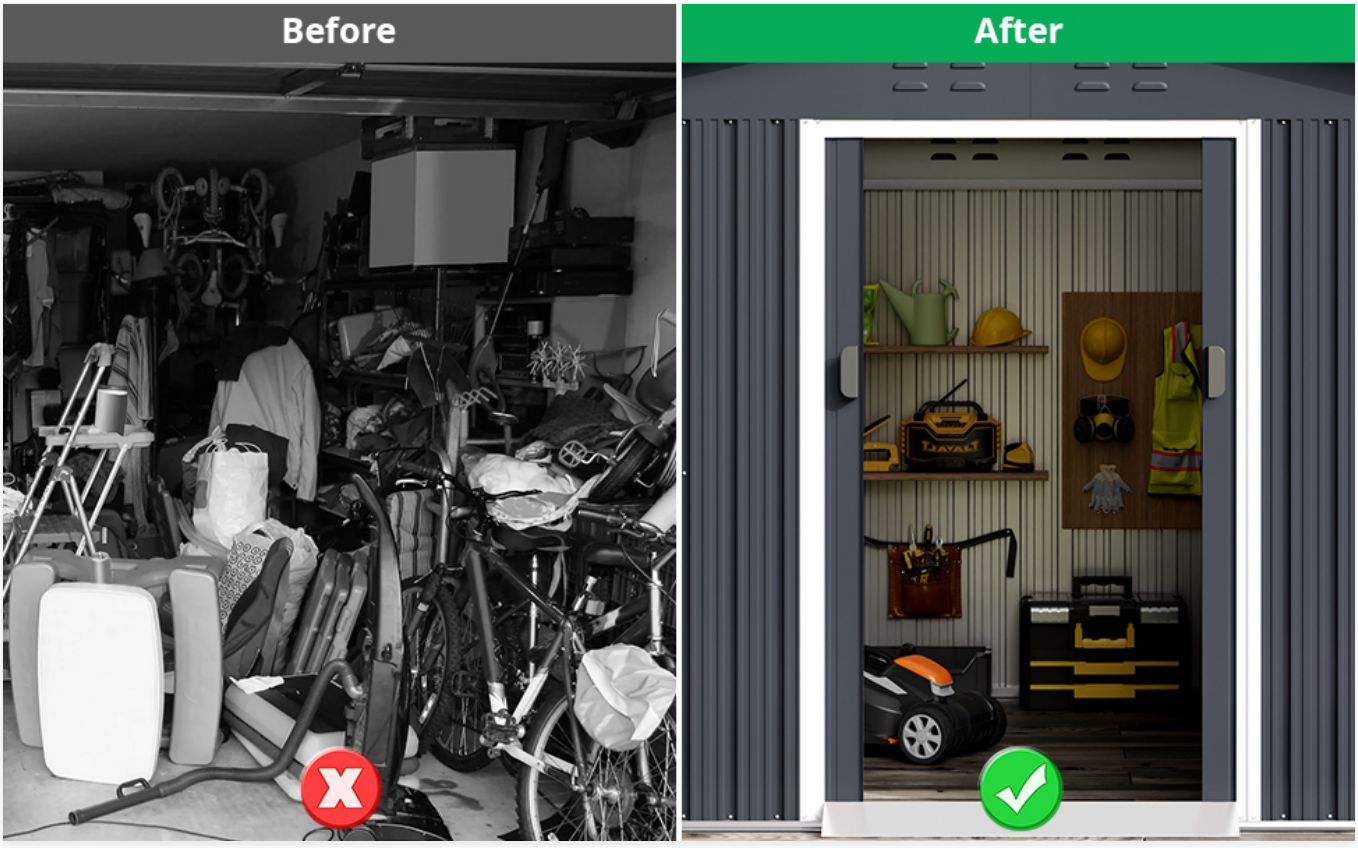

Figure 2: The shed walls and frame during assembly.

3.4. Roof Assembly

Install the roof support beams and then attach the roof panels. The pitched roof design facilitates water drainage. Secure all roof components with the provided fasteners. Finally, install the ridge cap to cover the roof peak.

Figure 3: Detail of the pitched roof with dual air vents for ventilation.

3.5. Door Assembly and Installation

Assemble the sliding door panels according to the instructions. Attach the door rollers and handles. Once assembled, carefully install the door onto the shed's track system, ensuring smooth operation.

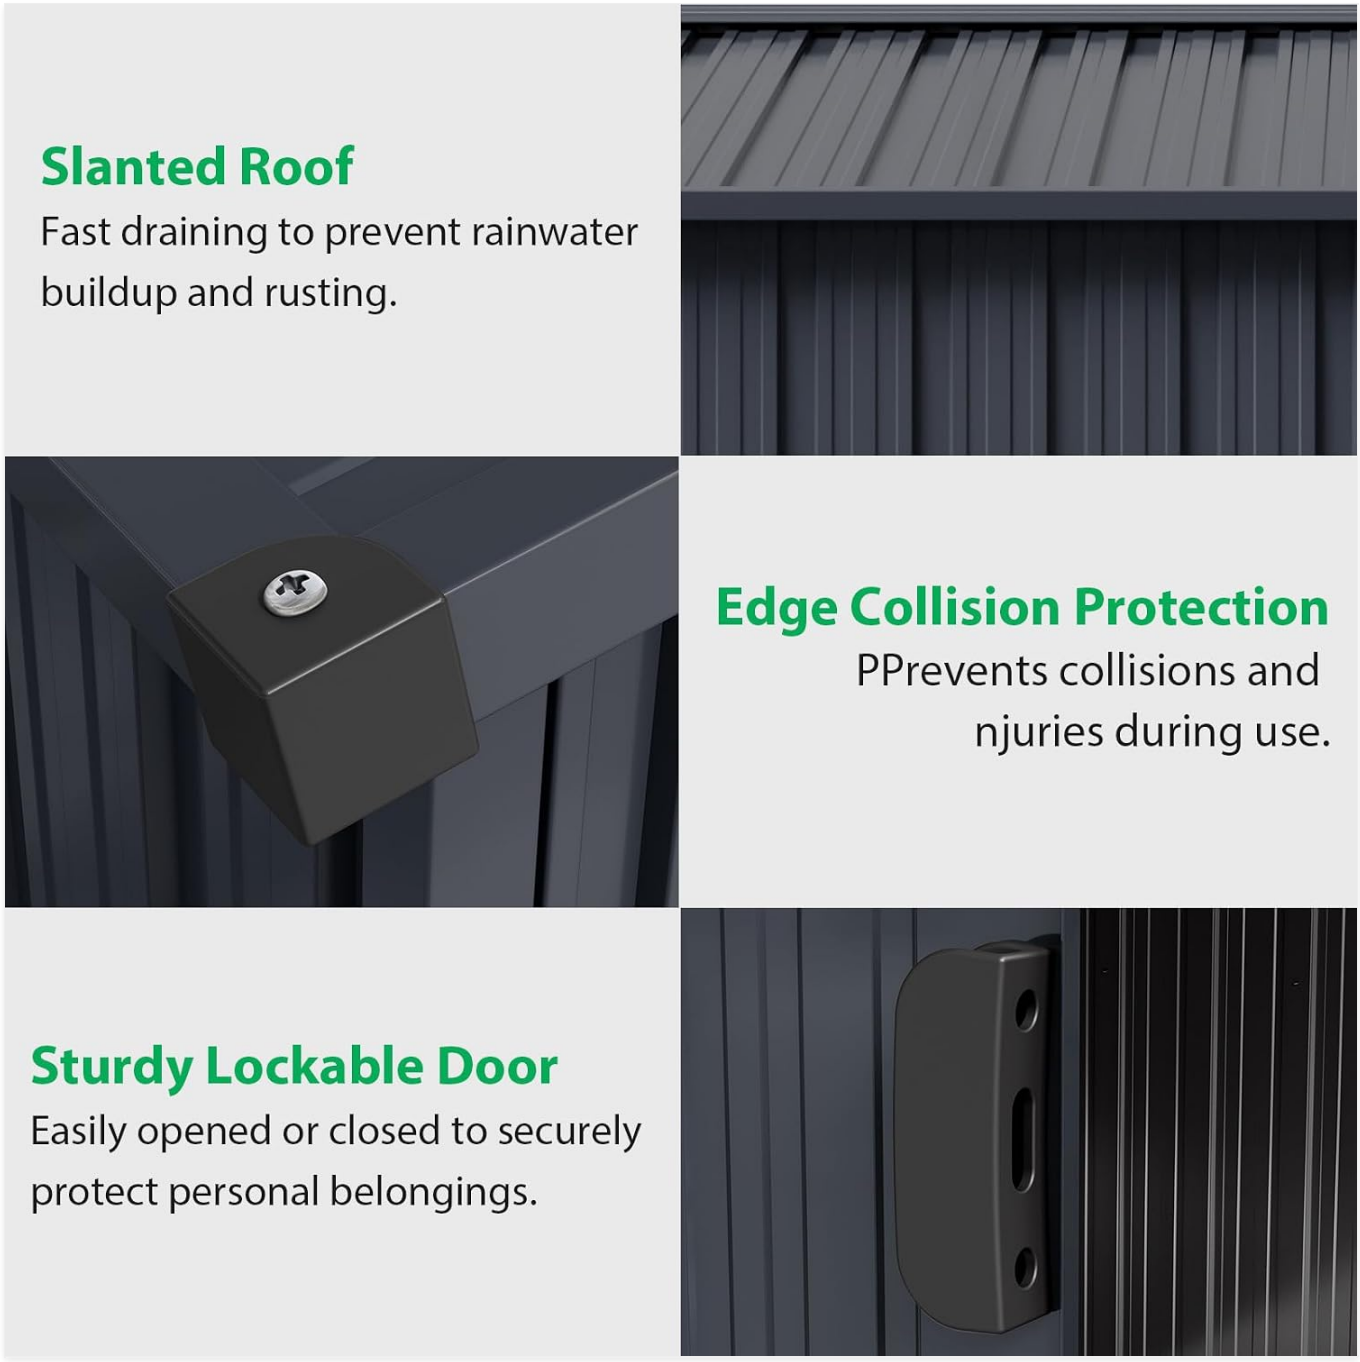

Figure 4: The sliding door with handles and the slanted roof design.

3.6. Overall Installation and Securing

After completing the main structure, perform a final check of all fasteners to ensure they are tight. Secure the shed to your chosen foundation using appropriate anchoring methods (anchors not always included). This step is crucial for stability and wind resistance.

4. Operating Instructions

4.1. Sliding Door Operation

The shed features a smooth-gliding sliding door. To open, gently push the door along its track. To close, pull the door until it meets the frame. For security, a lock can be added to the door handles (lock not included).

4.2. Ventilation

The integrated air vents promote air circulation within the shed, helping to prevent moisture buildup and maintain a suitable environment for stored items.

Figure 5: Interior view demonstrating ample storage space and ventilation.

5. Maintenance

Regular maintenance will extend the life and appearance of your Garvee Metal Storage Shed.

- **Cleaning:** Clean the shed exterior periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish.
- **Rust Prevention:** Inspect the shed annually for any signs of rust, especially in areas where the coating might be scratched. Touch up any affected areas with rust-inhibiting paint.
- **Fastener Check:** Periodically check all screws and bolts to ensure they remain tight. Tighten any loose fasteners to maintain structural integrity.
- **Door Tracks:** Keep the sliding door tracks clean and free of debris to ensure smooth operation. Lubricate if necessary.
- **Snow Removal:** In areas with heavy snowfall, regularly remove snow from the roof to prevent excessive weight accumulation.

6. Troubleshooting

Here are solutions to common issues you might encounter:

- **Problem:** Parts do not align during assembly.
  Solution: Double-check part numbers and orientation against the manual. Ensure the base frame is perfectly level and square before proceeding with wall and roof assembly. Sometimes, slight adjustments to the frame can resolve alignment issues.
- **Problem:** Door is difficult to slide.
  Solution: Inspect the door tracks for any debris or obstructions. Clean the tracks thoroughly. Check if the door rollers are properly seated and lubricate the tracks with a silicone-based spray if needed.
- **Problem:** Water leakage.
  Solution: Verify that all roof panels are correctly overlapped and all fasteners are tight. Check for any gaps or damaged seals. Apply a suitable outdoor sealant to any problematic areas. Ensure the shed is properly anchored and level to prevent water pooling around the base.
- **Problem:** Shed feels unstable.
  Solution: Ensure all screws and bolts are fully tightened. Confirm that the shed is securely anchored to a firm, level foundation.

7. Specifications

Feature	Detail
Brand	Garvee
Model Number	OUTBUILDING
Color	Gray
Material	Galvanized Steel
Product Dimensions	70.87"D x 24.81"W x 5.52"H (Packaging dimensions, actual shed dimensions are 10x10 ft)
Item Weight	121.3 Pounds
Style	Compact
Base Material	Alloy Steel
Top Material Type	Metal
Water Resistance Level	Waterproof
Frame Material	Alloy Steel
Door Style	Sliding Doors
Assembly Required	Yes
Door Width	24.81 Inches
UPC	198723545813

Note: Product dimensions provided in specifications may refer to packaging. Actual assembled shed dimensions are approximately

10x10 ft.

8. Warranty and Support

For warranty information, product support, or to order replacement parts, please refer to the contact details provided with your purchase documentation or visit the official Garvee website. Keep your proof of purchase for warranty claims.
