pofluany 36V Electric Go Kart User Manual

Model: 14090071

1. Introduction

Thank you for choosing the pofluany 36V Electric Go Kart. This manual provides essential information for the safe operation, assembly, maintenance, and troubleshooting of your new electric go-kart. Please read this manual thoroughly before first use and retain it for future reference.

This electric go-kart is designed for both kids and adults, featuring a powerful 350W motor, adjustable length, and multiple speed modes, including a drift/sport mode for enhanced riding experience.

2. Safety Information

WARNING: To reduce the risk of injury, adult supervision is required. Always ensure the rider wears appropriate safety gear, including a helmet, knee pads, and elbow pads. Do not ride in traffic, near motor vehicles, on steep inclines, or near swimming pools.

- Always use the go-kart with adult supervision.
- Ensure the seat belt is securely fastened before operation.
- Operate only on flat, dry surfaces free of obstacles.
- Avoid sudden stops or turns at high speeds.
- Do not exceed the maximum weight capacity of 187 lbs (85 kg).
- Keep hands, feet, hair, and clothing away from moving parts.
- Charge the battery only with the provided charger.

3. What's in the Box

Upon opening the package, please verify that all components are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

- 1 x pofluany 36V Electric Go Kart
- 1 x Charger
- 1 x User Manual (this document)

4. Setup and Assembly

The pofluany Electric Go Kart requires minimal assembly. Follow these steps to prepare your go-kart for use:

1. **Unpacking:** Carefully remove all components from the packaging.
2. **Handlebar Installation:** Attach the handlebar to the steering column, ensuring it is securely fastened.
3. **Seat Adjustment:** Adjust the frame length to suit the rider's height. The go-kart features four levels of length adjustment, ranging from 32 inches to 44 inches. This allows it to comfortably fit children aged 8-12 years and even most adults.
4. **Initial Charge:** Before first use, fully charge the go-kart's 36V 4.4AH battery. Connect the charger to the charging port and a power outlet. The indicator light on the charger will change when charging is complete.

The go-kart's frame can be adjusted in length from 32 to 44 inches to accommodate various rider heights.

Visual representation of the go-kart's adjustable length, showing how the frame extends to fit different riders.

5. Operating Instructions

Familiarize yourself with the controls before operating the go-kart.

5.1 Power On/Off

- To turn on the go-kart, press the power button located near the seat.
- To turn off, press and hold the power button until the lights turn off.

5.2 Speed Modes

The go-kart features high, medium, and low speed settings. Select the appropriate speed mode based on the rider's skill level and the riding environment. The maximum speed is 16 MPH.

The go-kart offers multiple speed settings for varied riding experiences.

5.3 Driving and Drifting

- Use the steering wheel to control direction.
- The go-kart is equipped with a slow start function for smooth acceleration.
- The two EVA front tires and two larger nylon rear tires are designed to enhance drifting effects. Engage drift mode for controlled slides and spins.

The go-kart is designed for an enjoyable drifting experience, suitable for various ages.

This video demonstrates the pofluany Electric Go Kart in action, showcasing its maneuverability and drifting capabilities on a flat surface.

6. Maintenance

Regular maintenance will prolong the life of your go-kart and ensure safe operation.

- **Cleaning:** Wipe the go-kart with a damp cloth after each use. Avoid using harsh chemicals or abrasive cleaners.
- **Battery Care:** Fully charge the battery after each use. If storing for an extended period, charge the battery every 30 days to maintain its health.
- **Tire Inspection:** Regularly check the tires for wear and tear. Ensure the EVA front tires and nylon rear tires are in good condition for optimal performance and drifting.
- **Structural Check:** Periodically inspect the all-steel bracket frame for any signs of damage or loose connections. Tighten any loose bolts or screws.

- **Storage:** Store the go-kart in a dry, cool place away from direct sunlight and moisture.

7. Troubleshooting

If you encounter issues with your go-kart, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Go-kart does not power on.	Battery is low or not charged.	Charge the battery fully.
Go-kart moves slowly or lacks power.	Low battery charge; Overload; Motor issue.	Recharge battery; Ensure rider weight is within limits; Contact support if issue persists.
Go-kart stops suddenly.	Overload protection activated; Loose connection.	Reduce load; Check all electrical connections.
Unusual noises during operation.	Loose parts; Debris in wheels/motor.	Inspect for loose components and tighten; Clear any debris.

If the problem persists after attempting these solutions, please contact pofluany customer support for further assistance.
