Super Sparrow ZM-2.0WMF

Super Sparrow Insulated Water Bottle ZM-2.0WMF User Manual

Model: ZM-2.0WMF | Capacity: 25 OZ (750 ml)

1. INTRODUCTION

Thank you for choosing the Super Sparrow Insulated Water Bottle. This manual provides essential information for the proper use, care, and maintenance of your new bottle. Designed for durability and convenience, this bottle features double-wall insulation to keep your beverages at their desired temperature for extended periods.

2. INITIAL SETUP

2.1 Unpacking and Initial Cleaning

1. Remove all packaging materials and labels from the water bottle.
2. Wash the bottle and all its components (lid, straw) thoroughly with warm, soapy water before first use. Rinse completely.
3. Allow all parts to air dry or dry with a clean cloth.

2.2 Assembling the SwivelSip Lid

- Ensure the silicone gasket is properly seated within the lid to prevent leaks.
- Insert the straw firmly into the designated opening on the underside of the lid.
- Screw the lid onto the bottle, ensuring it is securely tightened to prevent leakage.

Image 2.1: Close-up view of the SwivelSip lid, showing the straw attachment point and handle.

3. OPERATING INSTRUCTIONS

3.1 Filling the Bottle

- Unscrew the SwivelSip lid.
- Fill the bottle with your desired beverage. The wide-mouth design allows for easy addition of ice cubes or fruit slices.
- Do not overfill. Leave some space below the rim to prevent spills when attaching the lid.
- Securely screw the lid back onto the bottle.

3.2 Using the SwivelSip Straw

- To drink, simply swivel the straw spout upwards until it locks into place.
- Sip directly from the straw.
- To close, push the straw spout back down until it clicks securely into the lid, ensuring a leak-proof seal.

Image 3.1: Demonstrating the use of the SwivelSip straw for convenient hydration.

3.3 Temperature Retention

The double-wall insulation maintains beverage temperature. For best results with cold drinks, pre-chill the bottle. For hot drinks, pre-warm the bottle with hot water (do not use the straw with hot liquids to prevent burns).

Safety Note: Avoid using the straw with hot liquids to prevent burns. Always exercise caution when consuming hot beverages directly from the bottle opening.

4. CARE AND MAINTENANCE

4.1 Cleaning

- The Super Sparrow water bottle is dishwasher safe for effortless cleaning.
- For hand washing, use warm water and mild dish soap. A bottle brush may be helpful for thorough cleaning of the interior.
- Disassemble the lid and straw for separate cleaning to ensure all parts are free from residue.

- After consuming carbonated or fruit drinks, ensure thorough cleaning of the water bottle and all components to maintain freshness and prevent odor buildup.
- Rinse all components thoroughly and allow them to air dry completely before reassembling or storing.

Image 4.1: Visual summary of key features including Dishwasher Safe and BPA-Free properties.

4.2 Storage

Store the bottle with the lid off or slightly ajar to allow for air circulation and prevent odors.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bottle is leaking	Lid not tightened properly; Gasket misplaced or damaged; Straw not fully closed.	Ensure lid is securely tightened. Check that the silicone gasket is correctly seated. Push the straw spout down firmly until it clicks.
Difficulty sipping through straw	Straw clogged or improperly inserted; Air vent blocked.	Remove and reinsert the straw, ensuring it is fully seated. Clean the straw and lid thoroughly to remove any blockages.
Beverage not staying hot/cold	Lid not sealed properly; Extreme external temperatures.	Ensure the lid is tightly closed and the straw spout is fully down. Pre-chill or pre-warm the bottle before filling.

Problem	Possible Cause	Solution
Unpleasant odor inside bottle	Incomplete cleaning, especially after sugary or acidic drinks.	Clean the bottle and all components thoroughly with warm, soapy water. For stubborn odors, a mixture of baking soda and water can be used for soaking. Rinse well.
