3. SETUP

Before beginning your project, ensure your workspace is clean and well-ventilated. Protect surfaces with newspaper or a drop cloth. Shake each paint bottle well before opening to ensure the pigment is evenly mixed and the paint has a consistent consistency.

4. OPERATING INSTRUCTIONS

Application Methods:

DecoArt Crafter's Acrylics are highly versatile and can be applied using various techniques:

- **Brushing:** Apply with a brush for smooth, even coverage.
- **Stamping:** Use with stamps for decorative patterns.
- **Sponging:** Create textured effects with a sponge.
- **Stenciling:** Apply through stencils for precise designs.

Surface Preparation:

Ensure your chosen surface (wood, canvas, terra cotta, etc.) is clean, dry, and free of dust or oils for optimal adhesion and finish.

Painting Tips:

- For full opacity, apply multiple thin coats rather than one thick coat. Allow each layer to dry before applying the next.
- Paints dry quickly, so work efficiently.
- Colors can be easily blended and intermixed to create custom shades.

Formulated To Brush Out Smoothly

• Versatile usage in general arts and crafts, stenciling, ceramics, school projects, home decorating, and decorative painting.

• Suitable for almost any creative project Easily blended and intermixable for creating endless color options.

• Dries to a smooth matte finish, adding a professional touch to your creations.

5. MAINTENANCE

Cleaning:

Clean brushes, palettes, and other tools immediately after use with soap and water while the paint is still wet. Dried acrylic paint can be difficult to remove.

Storage:

Store paint bottles upright in a cool, dry place away from direct sunlight and extreme temperatures. Ensure caps are tightly sealed to prevent paint from drying out.

6. TROUBLESHOOTING

- **Paint is too thick:** If the paint appears too thick, add a few drops of water and mix thoroughly. Do not over-dilute, as this can affect coverage.

- **Uneven coverage:** Ensure the surface is clean and properly prepared. Apply paint in thin, even coats, allowing each layer to dry completely before applying the next.
- **Paint drying too fast on palette:** Work in smaller batches or consider using a wet palette to keep paints workable for longer periods.
