Weight	65g
Special Features	Flashlight, Currency Detector Light, Compass, Purple Anti-Counterfeiting Identification Light, SOS Mode, Flash Mode

Setup Guide

1. **Charge the Smartwatch:**
- Before first use, fully charge your HT30 smartwatch. Connect the USB magnetic charging cable to the charging points on the back of the watch and plug the USB end into a standard USB power adapter (not included). The watch will display a charging indicator. A full charge typically takes up to 3 hours.

Equipped with a large capacity battery, it ensures that every moment is exciting and uninterrupted, accompanying you in every important moment for a long time.

600 mAh

The HT30 smartwatch is equipped with a 600mAh polymer battery, ensuring extended usage. Use the provided USB magnetic charging cable to power up the device.

2. Install the FitCloudPro App:

Download and install the 'FitCloudPro' application on your smartphone. The app is compatible with Android 5.1 or higher and iOS 8.2 or higher systems that support Bluetooth 5.0 BLE. You can find the app on your smartphone's respective app store (Google Play Store for Android, Apple App Store for iOS).

3. Pair with Your Smartphone:

Open the FitCloudPro app on your smartphone. Ensure Bluetooth is enabled on both your watch and phone. Follow the in-app instructions to search for and connect to your HT30 smartwatch. Once connected, the watch's time and date will synchronize with your phone, and you can begin customizing settings and receiving notifications.

Operating Instructions

Basic Navigation and Functions

The HT30 smartwatch features a full-screen touch display and two physical buttons for navigation. Swipe across the screen to access different menus and functions. Press the physical buttons for specific actions like returning to the home screen or accessing quick settings.

- **Built-in Dials:** The watch comes with 6 built-in dials. You can also customize dials or download new ones via the FitCloudPro app.
- **Basic Functions:** Access features such as data, exercise tracking, exercise records, weather, information, music control, stopwatch, timer, alarm, payment code, business card, calendar, calculator, find phone, and camera remote control.

Communication Features

- **Bluetooth Call:** Make and receive calls directly from your watch after connecting it to your phone via Bluetooth. Access frequently used contacts and call logs.
- **Voice Assistant:** Utilize the integrated voice assistant for hands-free commands.
- **Message and Call Reminders:** Receive notifications for incoming calls, SMS, WeChat, QQ, WhatsApp, Line, Facebook, Facebook Messenger, Kaokao, Twitter, and Skype directly on your watch.

Health Management

The HT30 includes a professional health monitoring chip to help you track your well-being.

- **Exercise Monitoring:** Track your daily activity, including steps.
- **Sleep Monitoring:** Analyze your sleep patterns.
- **Heart Rate Detection:** Monitor your heart rate throughout the day.
- **Blood Pressure Detection:** Measure your blood pressure.
- **Breathing Exercise:** Guided breathing exercises for relaxation.

Smart watch with built-in professional health monitoring chip

The HT30 smartwatch features a built-in professional health monitoring chip, providing accurate readings for heart rate and blood pressure, aiding in comprehensive health management.

Exercise Modes

The watch supports 9 built-in exercise modes. The FitCloudPro app offers a wider range of sports modes for more detailed tracking.

Special Features

- **Purple Light Anti-Counterfeiting Identification Light:**

Located on the side of the watch, this unique feature can be used for various identification purposes, including antique appraisal, honey wax jade verification, currency anti-counterfeiting recognition, and fungal detection.

The HT30's purple light anti-counterfeiting identification feature offers versatile utility for various verification needs.

- **Flashlight:**

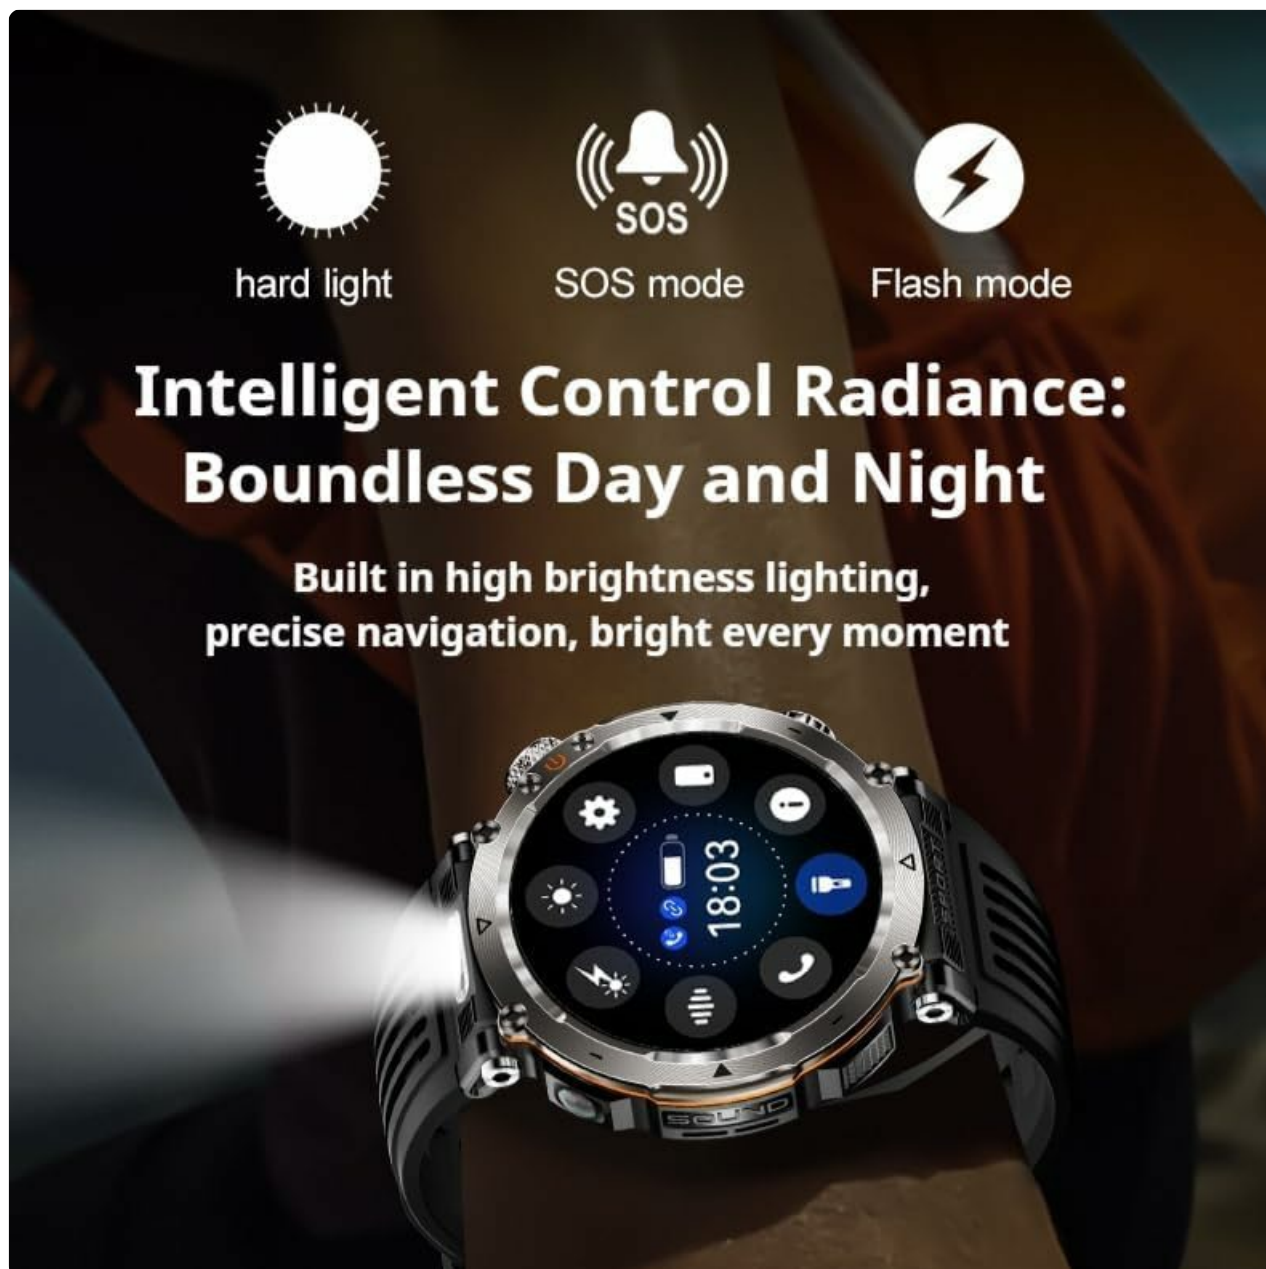

The watch includes a built-in flashlight function for illumination in low-light conditions.

- **Compass:**

A digital compass is integrated for navigation and orientation.

- **SOS Mode and Flash Mode:**

The watch supports an SOS emergency mode and a flashing mode for signaling.

The HT30 offers intelligent control over its radiance, including hard light, SOS mode, and flash mode, ensuring visibility and utility day and night.

Maintenance and Care

- **Water Resistance (IP68):**

The HT30 smartwatch is IP68 waterproof, meaning it is resistant to dust and can withstand immersion in water up to 1.5 meters for 30 minutes. It is suitable for swimming in pools and handling unexpected splashes. However, it is not recommended for hot water baths, saunas, or diving, as steam and high pressure can compromise the seal.

Waterproof new height IP68 smart watch

Whether it's swimming in the pool or unexpected
splashes, you can easily handle them and guard.
every exciting moment..

The HT30's IP68 waterproof rating ensures durability against water exposure, making it suitable for various activities including swimming.

- **Cleaning:**

Wipe the watch and strap regularly with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the finish.

- **Storage:**

When not in use for extended periods, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause / Solution
Watch does not turn on	Battery may be depleted. Connect to charger and allow it to charge for at least 10-15 minutes before attempting to power on.

Problem	Possible Cause / Solution
Unable to pair with phone	◦ Ensure Bluetooth is enabled on both watch and phone. ◦ Make sure the watch is within the phone's Bluetooth range. ◦ Restart both the watch and the phone. ◦ Check if the FitCloudPro app has necessary permissions on your phone. ◦ If previously paired, try unpairing and re-pairing the device.
Inaccurate health data	◦ Ensure the watch is worn snugly on your wrist, not too loose or too tight. ◦ Clean the sensor on the back of the watch. ◦ Note that these measurements are for reference and not for medical diagnosis.
Notifications not received	◦ Ensure the watch is connected to the FitCloudPro app. ◦ Check notification settings within the FitCloudPro app and your phone's system settings. ◦ Ensure the app is running in the background and not being closed by battery optimization settings.

Warranty and Support

For warranty information and technical support, please refer to the documentation provided at the point of purchase or contact AiBaoQi customer service through their official website or the FitCloudPro app's support section. Keep your purchase receipt as proof of purchase.
