MAINTENANCE

- **Cleaning:** Wipe the vanity and stool surfaces with a dry, soft cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.

- **Electrical Components:** Ensure the charging station is unplugged before cleaning. Do not attempt to clean the electrical ports with liquids.
- **Hardware:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.

TROUBLESHOOTING

- **LED Mirror Not Lighting Up:** Ensure the vanity's power cord is securely plugged into a functional wall outlet. Check if the touch control is responsive. If issues persist, verify all internal wiring connections made during assembly.
- **Charging Station Not Working:** Confirm the vanity is plugged into a live power source. Test the outlets and ports with different devices. If only one port is affected, it may indicate a specific component issue.
- **Drawers Sticking or Not Closing Smoothly:** Check for any obstructions within the drawer slides. Ensure the drawer slides are properly aligned and lubricated if necessary. Verify that the assembly of the drawer and its runners is correct.
- **Stool Wheels Not Rolling:** Check for debris or hair caught in the wheel mechanisms. Ensure the brake buckles are disengaged.
