Bearhug SQB-K

Bearhug Electric Blanket King Size 100" x 90" Instruction Manual

Model: SQB-K | Brand: Bearhug

1. Introduction

Thank you for choosing the Bearhug Electric Blanket. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new electric blanket. Please read all instructions carefully before use and retain this manual for future reference.

Image 1: Bearhug Electric Blanket King Size 100" x 90" in Beige, showcasing its generous dimensions and soft texture.

2. Product Features

- **Dual Controller & Even Warmth:** The blanket features two independent zones, each with its own controller for customized heating and timing. Select from 10 heat levels (90°F to 108°F). Heating wires are strategically placed for uniform heat distribution.
- **Premium Dual-Sided Material:** Constructed from velvet and sherpa, this 100"x 90" blanket is skin-friendly and suitable for full-body use. It is tested to be free from deformation, shedding, pilling, and fading.
- **User-Friendly Design:** Available in various sizes and colors. It is machine washable and tumble dry safe. An extra-long cord provides maximum flexibility for placement.
- **Safety & Reliability:** Designed with low radiation, over-heat protection, and a 1-12 hour auto-off function for safety and energy efficiency. ETL certified.

3. Setup Instructions

1. **Unpack:** Carefully remove the electric blanket and controllers from the packaging. Retain packaging for storage or future transport.
2. **Placement:** Lay the electric blanket flat on your bed, ensuring it is evenly spread without any folds or creases. The connectors for the controllers should be positioned near the head of the bed for easy access.
3. **Connect Controllers:** Locate the connection ports on the blanket. Firmly plug each controller's cord into its respective port until it clicks securely into place. Ensure the connection is snug to prevent accidental disconnection.
4. **Power Connection:** Plug the power cords from each controller into a standard 120V/60Hz electrical outlet. Avoid using extension cords if possible.
5. **Initial Check:** Before first use, visually inspect the blanket and cords for any signs of damage. Do not use if any damage is observed.

Image 4: A close-up view of the two controllers, showing their buttons and digital displays for temperature and timer settings.

4. Operating Instructions

1. **Power On:** Press the power button on each controller to turn on the blanket. The display will illuminate, showing the current heat level.
2. **Adjust Heat Level:** Use the '+' and '-' buttons next to 'TEMP' to select your desired heat level from 1 to 10. The temperature range is 90°F to 108°F.
3. **Set Timer:** Use the '+' and '-' buttons next to 'TIMER' to set the auto-off timer. You can choose a duration from 1 to 12 hours. The blanket will automatically turn off after the selected time.
4. **Dual Control:** Each side of the King size blanket operates independently. Adjust each controller to suit individual preferences without affecting the other side.
5. **Power Off:** Press the power button again to turn off the blanket. It is recommended to unplug the blanket from the wall outlet when not in use for extended periods.

5. Maintenance and Care

- **Disconnect Before Cleaning:** Always disconnect the power cord from the wall outlet and detach the controllers from the blanket before washing.
- **Machine Washable:** The blanket is machine washable. Use a gentle cycle with cold water.
- **Drying:** Tumble dry on a low heat setting or hang dry. Do not dry clean.
- **Avoid Bleach:** Do not bleach the blanket.
- **Storage:** When not in use, store the blanket in a cool, dry place. Ensure it is completely dry before folding and storing.

6. Safety Information and Precautions

Adhere to the following safety guidelines to ensure safe operation and prevent hazards:

- Use only with the correct voltage: 120V/60Hz.
- Turn off and unplug the blanket when not in use.
- Avoid prolonged use on one body area to prevent skin irritation.
- Do not use sharp objects on the product.
- Prevent wire entanglement during use and storage.
- Avoid overlapping with other heating products.
- Not suitable for individuals with limited self-care ability without supervision.
- Do not wrap the controller in the product when in use.

- Over-heat protection is built-in for your safety.
