denqir GCJ-06B

denqir 21V Cordless 4-in-1 Electric Weed Wacker Instruction Manual

Model: GCJ-06B

1. PRODUCT OVERVIEW

The denqir 21V Cordless 4-in-1 Electric Weed Wacker is a versatile and powerful tool designed for various lawn care tasks. It functions as a brush cutter, string trimmer, grass trimmer, and mini lawn mower, offering flexibility and efficiency for maintaining your yard.

Flexible 4-in-1 Multifunction Trimmer

adjusted from 0-90° convert to different tools

This image illustrates the versatile 4-in-1 functionality of the denqir electric weed wacker, demonstrating its use as an edger, mower, brush cutter, and string trimmer. The head can be adjusted 0-90 degrees to switch between modes.

2025 Newest Weed Wacker

- Low Noise
- Lightweight
- 3 Types of Blades
- 8500RPM Powerful
- Wheeled Convenient
- Environmentally Friendly

VS

- Heavy & Bulky
- Low Value-Expensive
- Gas Pollution
- High Noise
- Line Feed Issue

This image promotes the 2025 newest weed wacker, emphasizing its low noise, lightweight design (3.28 lbs), powerful 8500 RPM motor, and environmentally friendly operation. It contrasts these benefits with heavy, noisy, and polluting gas-powered alternatives.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- 1x denqir 21V Electric Weed Wacker
- 2x 21V 2000mAh Rechargeable Li-Ion Batteries
- 1x Battery Charger
- 1x 6" Saw Blade (Alloy)
- 1x Side Cutting Blade (Metal)
- 2x Metal Blades (Stainless Steel)
- 20x Plastic Blades
- 1x Set of Wheels

- 2x Rotating Wrenches
- 1x Pair of Non-slip Gloves
- 1x Pair of Safety Glasses
- 1x User Manual

3. SETUP & ASSEMBLY

Follow these steps to assemble your denqir Electric Weed Wacker:

1. **Attach the Main Handle:** Connect the main handle section to the motor unit. Ensure the metal prongs align and snap into place securely. Twist to tighten if adjustable.
2. **Install the Auxiliary Handle:** Loosen the screw on the auxiliary handle, slide it onto the main shaft, and position it for comfortable grip. Tighten the screw to secure.
3. **Mount the Protection Guard:** Secure the weed splash protection cover to the cutting head unit using the provided fasteners.
4. **Select and Install the Blade:** Choose the appropriate blade for your task (plastic, metal, or saw blade). Align the blade with the cutting head and secure it with the washer and nut using the included wrench.
5. **Attach the Anti-Collision Ring:** If using, expand the two bars of the anti-collision ring and pop them into the corresponding holes around the blade for added protection.
6. **Assemble the Wheels (Optional):** If using the wheeled mode, attach the wheel bracket to the main shaft. Secure the wheels onto the bracket using the provided nuts and wrenches. Ensure the wheels are tightened securely. The angle of the wheel tilt should be 45° for stability.
7. **Charge the Batteries:** Insert the 21V Li-Ion batteries into the charger. The charging time is approximately 2-3 hours. The charger will indicate when charging is complete.
8. **Insert Batteries:** Once charged, gently push a battery into the battery slot on the main handle until it clicks into place.

This video demonstrates the denqir Electric Weed Wacker, highlighting its battery-powered operation and the inclusion of two batteries for extended use. It shows the product in action and its key features.

4. OPERATION

4.1 General Use

- To start the tool, press the double safety start switch and then pull the trigger.
- The 650W high-power motor provides a speed of up to 8500 RPM for efficient cutting.
- The tool is designed for low noise operation, making it suitable for residential areas.
- The lightweight design (3.28 lbs) and ergonomic soft handle improve comfort and control during use.

4.2 Adjustable Features

- The telescopic pole allows for height adjustment from 34.7 to 49.2 inches, accommodating users of different heights without excessive bending.

- The cutting head angle is adjustable from 0-90°, enabling you to trim in sloped areas or narrow spaces.

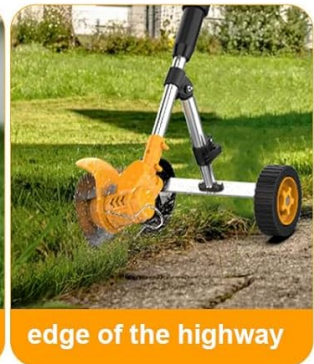

90° Angle Adjustable Head

This image demonstrates the adjustable telescopic pole, allowing length adjustments from 34.7 to 49.2 inches for comfortable use without bending. It also highlights the 0-90 degree adjustable head angle for reaching difficult areas.

4.3 Blade Usage

The denqir weed wacker comes with three types of cutting blades for various applications:

- **Plastic Blades:** Ideal for soft lawn mowing and light trimming.
- **Stainless Steel Blades:** Suitable for cutting older weeds, reeds, and general pruning.
- **Alloy Saw Blades:** Best for heavy-duty tasks such as cutting branches and thicker brush.

3 Type Weeding Trimming Blades

6-Inch Blades Multiple Cutting Scenarios

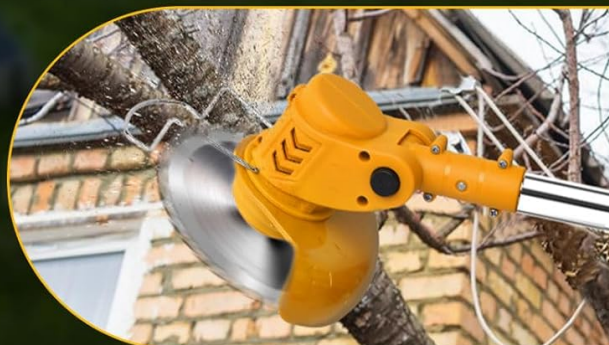

Plastic Blade

Suitable for lawn mowing

Metal Blade

Brush cutter and pruning

Saw Disc

Thick brush cutter and pruning

An illustration of the three types of 6-inch cutting blades included: plastic blades for soft lawn mowing, stainless steel blades for tougher weeds and pruning, and alloy saw blades for cutting branches and thicker brush.

4.4 Wheeled Operation

The removable wheels allow the tool to be used as an electric weed wacker with wheels or an edger trimmer, reducing strain during prolonged use. This makes weeding as easy as walking, improving efficiency.

2025 Upgraded Wheels

2 Stable Buckles

Stable Metal Material

Adjustable Height

This image focuses on the upgraded wheels, featuring stable buckles, durable metal material, and adjustable height for improved stability and smoother operation. It contrasts with older, less sturdy wheel designs.

5. MAINTENANCE

- Regularly inspect blades for wear and tear. Replace dull or damaged blades promptly to ensure optimal cutting performance and safety.

- Keep the tool clean from grass clippings and debris after each use. Use a dry cloth to wipe down surfaces.
- Store the weed wacker in a dry, safe place away from direct sunlight and extreme temperatures.
- Ensure batteries are fully charged before storage if not used for extended periods.

6. TROUBLESHOOTING

- **Wheels not stable:** Ensure the wheel angle is set to 45° during installation for maximum stability. If buckles are worn, contact customer support for replacement.
- **Battery not charging/malfunction:** Charge the battery for the first use. If issues persist, contact customer support through your order for replacement.
- **Reduced cutting performance:** Check if the blades are dull or damaged and replace them as needed. Ensure the correct blade type is used for the task.

7. SPECIFICATIONS
