Sanag B22S

Sanag B22s Bone Conduction Earphones User Manual

Model: B22S

INTRODUCTION

Thank you for choosing the Sanag B22s Bone Conduction Earphones. These headphones are designed to provide a unique audio experience by transmitting sound through your cheekbones, leaving your ears open to ambient sounds. Featuring IPX5 waterproof rating, Bluetooth 5.3 connectivity, and a long 16-hour playtime, the B22s are ideal for sports, outdoor activities, and daily use. Please read this manual carefully to ensure proper use and maintenance of your device.

SAFETY INFORMATION

- Do not use the earphones at excessively high volumes for extended periods to prevent hearing damage.
- Be aware of your surroundings when using the earphones, especially in traffic or dangerous environments, as they allow ambient sound.
- Keep the device away from extreme temperatures, direct sunlight, and corrosive materials.
- Do not attempt to disassemble or modify the earphones. This will void the warranty and may cause damage.
- Keep out of reach of children.

PACKAGE CONTENTS

Please check the package for the following items:

- Sanag B22s Bone Conduction Earphones
- USB Charging Cable
- User Manual

PRODUCT OVERVIEW

Familiarize yourself with the main components of your Sanag B22s earphones.

Image: Close-up view of the mechanical buttons on the Sanag B22s earphones, indicating power, volume, and charging port.

- **Transducers:** Deliver sound through bone conduction.
- **Control Buttons:** Power/Multi-function button, Volume Up/Next Track, Volume Down/Previous Track.
- **Charging Port:** USB-C port for charging.
- **Microphone:** For calls and voice assistant.

SETUP

1. Charging the Earphones

Before first use, fully charge your Sanag B22s earphones.

1. Connect the USB charging cable to the charging port on the earphones.
2. Connect the other end of the cable to a USB power adapter (5V/1A recommended) or a computer's USB port.
3. The LED indicator will show charging status (e.g., red for charging, blue for fully charged).
4. A full charge typically takes approximately 1.5-2 hours.

Special energy lock Twice the battery life

7 days
Standby time

16 hours
Single battery life

Note: The data comes from SANAG Lab, and the specific usage will vary according to the music format and preamplifier volume

2. Pairing with a Bluetooth Device

1. Ensure the earphones are turned off.
2. Press and hold the Power/Multi-function button for approximately 3-5 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for new devices.
4. Select "Sanag B22s" from the list of available devices.
5. Once connected, the LED indicator will flash blue slowly or turn off, depending on the model.
6. If prompted for a password, enter "0000".

MAINTENANCE

Cleaning

- Wipe the earphones with a soft, damp cloth.
- Do not use harsh chemicals or abrasive cleaners.
- Ensure the charging port is dry before charging.

Storage

- Store the earphones in a cool, dry place when not in use.
- Avoid storing in direct sunlight or extreme temperatures.

Water Resistance Care (IPX5)

The Sanag B22s are IPX5 water-resistant, meaning they can withstand splashes and sweat. They are not designed for submersion.

The plating is fully encapsulated Sweating and running recklessly

The upgrade adopts professional waterproof coating and hydrophobic structure, which can be rained, splashed with water, and cleaned. Brave the sweat splash and gallop on the sports field

Image: The Sanag B22s earphones demonstrating their IPX5 water resistance, suitable for workouts and light rain.

- Do not rinse under running water or submerge in water.
- Dry the earphones thoroughly after exposure to sweat or splashes before charging.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Earphones won't turn on	Low battery	Charge the earphones fully.
Cannot pair with device	Earphones not in pairing mode / Device Bluetooth off / Too far apart	Ensure earphones are in pairing mode (flashing red/blue). Turn on device Bluetooth. Keep devices within 10 meters.

Problem	Possible Cause	Solution
