SAFETY INFORMATION

- **Read all instructions:** Ensure you understand all assembly steps and safety warnings before proceeding.
- **Adult assembly required:** This product should be assembled by adults.
- **Use appropriate tools:** Ensure you have the correct tools for assembly to prevent damage to the product or injury.
- **Secure to wall:** Always use the provided anti-tip kits to secure the closet system to a wall. Failure to do so can result in serious injury or death from tipping furniture.
- **Weight limits:** Do not exceed the maximum weight capacity of 1000+ lbs for the entire system. Distribute weight evenly across shelves and hanging rods.
- **Keep children away:** During assembly, keep small parts and packaging materials away from children to prevent choking hazards.
- **Inspect regularly:** Periodically check all connections and fasteners to ensure they remain tight and secure.

4 Large Wooden Drawers

Adjustable Height Shelves

4 Expandable Depth Rod

Anti-tip Kits to Ensure Safety

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact Aheaplus customer support.

- Wood Closet Organizer System Tower (with shelves)
- 4 Wooden Drawers
- 4 Hanging Rods (expandable)
- Assembly Hardware (screws, dowels, connectors)
- Anti-tip Kits
- Instruction Manual

SETUP AND ASSEMBLY

Assembly is required for this product. Follow these steps carefully. It is recommended to have at least two adults for assembly.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided parts list (not included in this text, refer to physical manual).

2. **Assemble the Main Tower:**

- Connect the side panels to the base and top panels using the designated hardware.
- Insert the fixed shelves into their slots.
- Install the drawer slides onto the side panels of the tower. Ensure they are level and securely fastened.

3. **Assemble the Drawers:**

- Assemble the four wooden drawers according to the instructions, ensuring all panels are tightly connected.
- Attach the drawer handles.
- Carefully insert the assembled drawers into the installed slides on the main tower. Ensure smooth operation.

4. **Install Hanging Rods:**

- Determine the desired height and configuration for the four expandable hanging rods. The system supports various layouts for spaces from 4 to 9 feet wide.
- Secure the rod supports to the side panels of the tower and/or adjacent walls using appropriate hardware.
- Insert the expandable rods into the supports and adjust their length to fit your closet space.

5. **Secure to Wall (Crucial Safety Step):**

- Position the assembled closet system in its final location.
- Using the provided anti-tip kits, secure the top of the closet tower to a wall stud. Follow the specific instructions included with the anti-tip kit.

Weight Capacity: 1000LBS

Figure 4: Example of a fully installed closet system.

OPERATING INSTRUCTIONS

The Aheaplus Closet System is designed for versatile storage. Utilize the various components to organize your wardrobe efficiently.

- **Hanging Rods:** Use the four hanging rods for clothes that require hanging, such as shirts, dresses, and coats. The rods are expandable to fit different closet widths.
- **Shelves:** The open shelves in the tower are ideal for folded garments, bags, or decorative items. Adjustable shelves allow for customization of storage height.
- **Drawers:** The four wooden drawers provide enclosed storage for smaller items, accessories, or undergarments. Pull drawers gently to open and push firmly to close.

Multiple Installation Ways Ideal for 4-9Ft. Wide Spaces

with rods installed on one side of the unit, left or right, the organizer can fit smaller spaces 4 ft. to 5 ft.

Figure 5: Various configurations for different closet sizes.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the painted finish.
- **Hardware Check:** Periodically check all screws and connections to ensure they are tight. Re-tighten if necessary.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone lubricant to the drawer slides.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem | Possible Cause | Solution |
|--------------------------------------------------|--------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Drawers do not slide smoothly or align properly. | Drawer slides are not installed level or are misaligned. Drawer components are not fully seated. | <ul style="list-style-type: none"> Verify that all drawer slides are installed perfectly level and securely screwed into place. Ensure all drawer components are fully assembled and seated correctly. Check for any obstructions in the drawer tracks. |
| System feels unstable. | Not properly secured to the wall. Loose connections. | <ul style="list-style-type: none"> Ensure the anti-tip kits are correctly installed and anchored to a wall stud. Tighten all assembly screws and fasteners. |
| Hanging rods sag. | Overloaded or improperly installed. | <ul style="list-style-type: none"> Reduce the weight on the hanging rods. Ensure rod supports are securely fastened and rods are fully extended and locked into place. |
