Aheaplus YHCC-10B

Aheaplus YHCC-10B 4-9Ft Closet System Instruction Manual

Model: YHCC-10B

INTRODUCTION

Thank you for choosing the Aheaplus YHCC-10B 4-9Ft Closet System. This manual provides detailed instructions for the safe assembly, proper operation, and effective maintenance of your new closet organizer. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

An overview of the Aheaplus 4-9Ft Closet System, showcasing its modular design with a central storage tower, four integrated wooden drawers, and four adjustable hanging rods for clothing.

SAFETY INFORMATION

- Always assemble the unit on a soft, clean surface to prevent scratches.
- Ensure all components are securely fastened before use.
- Do not overload shelves or hanging rods beyond their specified weight capacity.
- Use the provided anti-tip kits to anchor the unit to a wall, especially in households with children or pets, to prevent accidental tipping.
- Keep small parts away from children during assembly.

PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact Aheaplus customer support.

- Central Storage Tower (Engineered Wood)
- 4 Wooden Drawers
- 4 Expandable Hanging Rods (Metal)

- Adjustable Shelves
- Assembly Hardware (screws, dowels, cam locks, etc.)
- Anti-Tip Kit
- Instruction Manual

SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

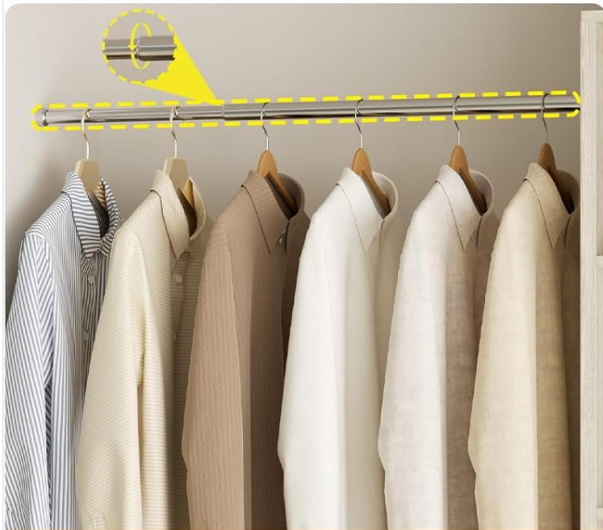

1. **Prepare the Area:** Clear a spacious area and lay down a blanket or cardboard to protect the components and your floor.
2. **Assemble the Central Tower:** Begin by assembling the main frame of the central storage tower according to the included diagrams. Ensure all cam locks and screws are tightened.
3. **Install Shelves:** Insert the adjustable shelf pins into the desired holes within the tower. Place the shelves onto the pins.
4. **Assemble Drawers:** Construct the four wooden drawers. Ensure the drawer slides are correctly oriented and attached to both the drawers and the tower.
5. **Attach Hanging Rods:** Secure the four expandable hanging rods to the sides of the central tower using the provided brackets. Adjust the length of the rods to fit your closet space (74"-115.7" for upper rods, 26.4"-47" for lower rods).
6. **Wall Mounting:** Position the assembled closet system in its final location. Use the anti-tip kit to securely anchor the top of the central tower to a wall stud. This is crucial for stability.

4 Large Wooden Drawers

Adjustable Height Shelves

4 Expandable Depth Rod

Anti-tip Kits to Ensure Safety

This image highlights key features of the closet system: four large wooden drawers for organized storage, adjustable height shelves for flexible configuration, four expandable depth rods for varying clothing lengths, and anti-tip kits designed to ensure stability and safety.

Multiple Installation Ways Ideal for 4-9Ft. Wide Spaces

with rods installed on one side of the unit, left or right, the organizer can fit smaller spaces 4 ft. to 5 ft.

A visual guide demonstrating various installation possibilities for the Aheaplus closet system, showing how it can be adapted to fit closet widths ranging from 4 feet to 9 feet, with options for rod placement on one or both sides of the central unit.

OPERATING INSTRUCTIONS

- **Using Drawers:** The four wooden drawers operate on smooth glides. Pull gently to open and push firmly to close. Avoid forcing drawers if they feel stuck.
- **Adjusting Shelves:** To adjust the height of the shelves, remove items from the shelf, lift the shelf, remove the pins, reposition the pins to the desired height, and then replace the shelf. Ensure pins are fully seated.
- **Utilizing Hanging Rods:** The four hanging rods are expandable. To adjust their length, loosen the locking mechanism (if applicable), extend or retract the rod to the desired width, and then secure the locking mechanism.

MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the painted engineered wood finish.
- **Dusting:** Regularly dust all surfaces to prevent buildup.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten as

necessary.

- **Weight Distribution:** Distribute weight evenly across shelves and hanging rods to prevent stress on the structure.

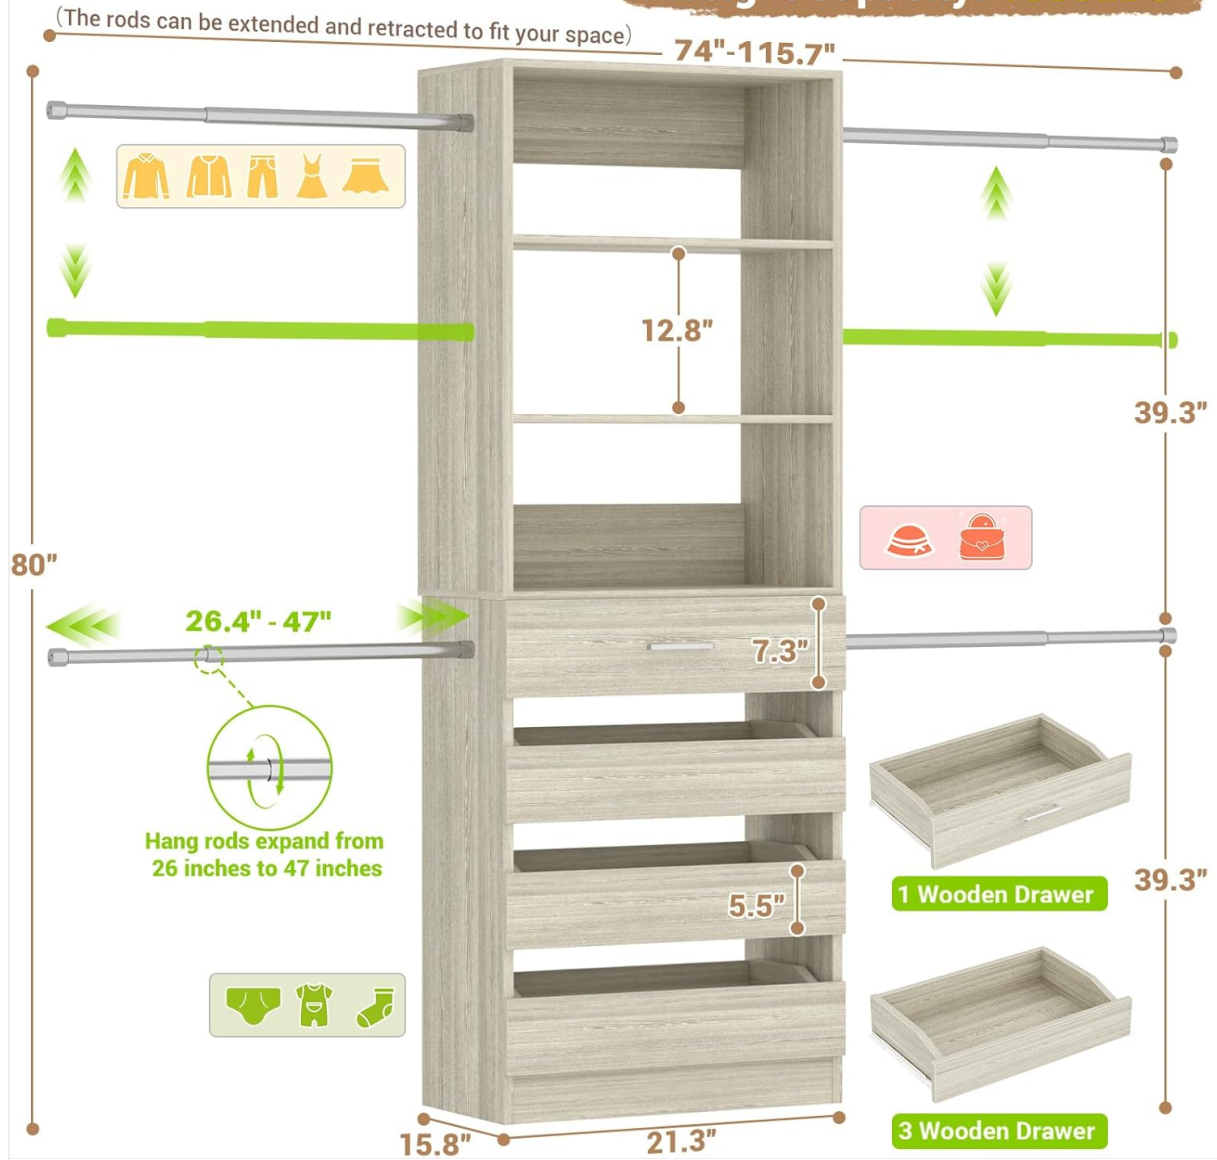

TROUBLESHOOTING

- **Unit Feels Unstable:** Ensure the anti-tip kit is properly installed and anchored to a wall stud. Verify all assembly hardware is tightened. Uneven flooring can also contribute to instability; consider using shims if needed.
- **Drawers Stick or Don't Close Smoothly:** Check that the drawer slides are correctly aligned and free of obstructions. Ensure the drawer is not overloaded.
- **Hanging Rods Sag:** Ensure the rods are not overloaded. Verify that the locking mechanisms on the expandable rods are fully secured.

SPECIFICATIONS

Brand	Aheaplus
Model Number	YHCC-10B
Material	Engineered Wood
Color	White Oak
Finish Type	Painted
Mounting Type	Wall Mount
Included Components	Closet System (Tower, 4 Drawers, 4 Hanging Rods)
