OPERATING INSTRUCTIONS

The Murphy bed is designed for easy conversion between bed and sofa modes. Always ensure the area around the bed is clear before operating the mechanism.

Converting from Sofa to Bed

1. Ensure no items are on the sofa cushions or shelves that could obstruct the bed's movement.
2. Gently pull the handles located on the front panel of the bed.
3. As the bed begins to lower, guide it smoothly downwards until the support legs fully extend and rest on the floor.
4. Ensure the bed frame is fully horizontal and stable before use.

Converting from Bed to Sofa

1. Remove all bedding and pillows from the mattress.
2. Lift the bed frame from the foot end, guiding it upwards. The dual-piston mechanism will assist in the lifting.
3. Continue lifting until the bed is fully upright and securely latched into the cabinet, revealing the sofa.
4. Ensure the bed is fully secured in the upright position before sitting on the sofa.

MAINTENANCE AND CARE

- **Cleaning:** Wipe wood and MDF surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For fabric sofa parts, spot clean with a mild detergent and water, or follow specific fabric care instructions if provided.
- **Mechanism Check:** Periodically inspect the dual-piston mechanism and all hardware connections. Ensure all screws and bolts are tight. Do not lubricate the mechanism unless specifically instructed by the manufacturer.
- **Structural Integrity:** Check the wall anchors regularly to ensure the unit remains securely fastened to the wall.
- **Slat System:** Ensure all bed slats are properly seated and undamaged. Replace any broken slats immediately.
