## 6. Troubleshooting

---

If you encounter any issues with your Adjustable Sling Handle, please refer to the following common solutions:

- **Joystick Malfunction:** Perform the joystick calibration as described in Section 3.1.
- **Unstable Connection:** Ensure all M4 screws are securely tightened. Re-check the mounting points for any loose connections.
- **Power-on Issues:** The device requires a long-press of the power button to activate. Ensure the gimbal it is connected to is also powered correctly.

## 7. Maintenance

---

To ensure the longevity and optimal performance of your SmallRig Adjustable Sling Handle, follow these maintenance guidelines:

- **Cleaning:** Wipe the handle with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the handle in a cool, dry place away from direct sunlight and extreme temperatures. Utilize its compact folding design for convenient and safe storage.
- **Inspection:** Periodically check all screws and connections for tightness. Ensure the silicone grip is free from damage.
