DAMONDY DAM-20224901 (Vortex CB68 Screen Protector)

Vortex CB68 Screen Protector Instruction Manual

Model: DAM-20224901

INTRODUCTION

This manual provides detailed instructions for the installation, use, and maintenance of your DAMONDY 3-Pack Tempered Glass Screen Protector for the Vortex CB68. Designed to offer maximum protection, this screen protector features high transparency, scratch resistance, and an oleophobic coating to ensure a clear and responsive display. Please read these instructions carefully before installation to ensure optimal performance and longevity of your screen protector.

PRODUCT FEATURES

- **Professional Design:** Specifically designed for the Vortex CB68, ensuring precise fit and full coverage for maximum protection.
- **Anti-Fingerprint & High-Definition:** Features a plasma oleophobic coating for a smooth feel, effective anti-fingerprint properties, and high light transmittance (99.9%) for enhanced screen visibility and original image quality.
- **Ultra-Thin & Responsive:** At 0.33 mm, it maintains original touch sensitivity and response, providing a seamless user experience.
- **Professional Curved Design:** 2.5D arc edge design ensures comfortable handling and prevents scratching.
- **Full-Coverage & Impact Protection:** Provides full screen coverage with high-strength nano-elastic impact and explosion-proof capabilities.
- **Case Friendly:** Designed to be slightly smaller than the phone's actual screen size to ensure compatibility with most phone cases.

Premium Quality

Oleo-phobic Coating

Oleo-phobic coating: protect against sweat and reduce fingerprints

Image: Close-up demonstrating the oleophobic coating's ability to repel liquids and reduce fingerprints.

Case Friendly

Protector is smaller than the actual size of the phone to ensure it is compatible with **MOST** cases.

Image: Diagram illustrating the case-friendly design, showing the screen protector is slightly smaller than the phone's display to accommodate cases.

SETUP AND INSTALLATION

Proper installation is crucial for the performance and longevity of your screen protector. Follow these steps carefully:

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
2. **Clean the Phone Screen:**
 - Use an alcohol wipe (if provided) to thoroughly clean the phone's screen, removing all smudges, oils, and fingerprints.
 - Immediately follow with a microfiber cloth to dry the screen completely and remove any streaks.

- Use a dust absorber sticker (if provided) to dab the screen and remove any remaining dust particles. Ensure the screen is absolutely spotless before proceeding.

3. **Align the Screen Protector:**

- Carefully peel off the protective film from the adhesive side of the screen protector (usually marked "1" or "Back"). Avoid touching the adhesive surface.
- Hold the screen protector by its edges and align it precisely with your phone's screen. Pay attention to the cutouts for the speaker, camera, and home button (if applicable).
- Once aligned, gently lower the screen protector onto the phone screen.

4. **Apply and Remove Bubbles:**

- As the protector makes contact, it should begin to adhere automatically. If not, gently press down on the center of the protector.
- Use a squeegee card (if provided) or a clean, soft cloth to gently push any air bubbles towards the edges of the screen. Start from the center and work your way outwards.
- For stubborn bubbles, gently lift the nearest edge of the protector slightly to release the air, then re-apply pressure.

5. **Final Touches:** Once all bubbles are removed and the protector is fully adhered, gently wipe the surface with a clean microfiber cloth.

OPERATING (DAILY USE)

Once installed, your DAMONDY screen protector requires no special operation. It is designed to seamlessly integrate with your Vortex CB68, providing enhanced protection without compromising touch sensitivity or display clarity.

- The screen protector maintains the original responsiveness of your phone's touchscreen.
- The oleophobic coating helps resist fingerprints and smudges from daily use.
- The high transparency ensures your screen's colors and brightness remain vibrant and clear.

SUPERIOR SENSITIVE

TOUCHSCREEN

HD Restore the original scene and give you the ultimate excitement

MAINTENANCE

To keep your screen protector in optimal condition and maintain its clarity:

- **Cleaning:** Gently wipe the screen protector with a clean, soft microfiber cloth to remove dust, fingerprints, and smudges. For more stubborn marks, slightly dampen the cloth with water or a screen cleaner designed for electronics. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector is scratch-resistant (9H hardness), extreme pressure or sharp objects can still cause damage. Avoid placing your phone in direct contact with keys, coins, or other sharp items.
- **Replacement:** If the screen protector becomes severely scratched, cracked, or damaged, it has absorbed impact to protect your phone's original screen. It is recommended to replace it with a new one from the 3-pack to maintain optimal protection.

TROUBLESHOOTING

Here are solutions to common issues you might encounter during or after installation:

- **Bubbles After Installation:**

- **Small Bubbles:** Many small bubbles will naturally disappear within 24-48 hours as the adhesive fully settles.
- **Large Bubbles:** Use a squeegee card or a credit card wrapped in a microfiber cloth to gently push the bubbles towards the nearest edge. If a bubble persists, gently lift the nearest edge of the protector slightly to release the air, then re-apply pressure.

- **Dust Particles Under the Protector:**

- This usually occurs if the screen was not perfectly clean before installation.
- Carefully lift the nearest corner of the screen protector. Use a dust absorber sticker or a piece of scotch tape to gently dab the dust particle off both the phone screen and the adhesive side of the protector.
- Re-apply the protector, ensuring no new dust settles.

- **Misalignment:**

- If the protector is significantly misaligned, gently lift it from one corner and slowly peel it off.
- Clean the phone screen again to remove any dust that may have settled during removal.
- Re-align and re-apply the screen protector following the installation steps.

- **Edges Not Sticking:**

- Ensure the phone screen edges are clean and free of dust or oil.
- Apply firm pressure along the edges with a microfiber cloth for a few seconds.
- If the issue persists, it might be due to a phone case pushing against the protector. The "Case Friendly" design minimizes this, but some cases might still interfere. Try removing the case temporarily to see if the edges adhere.

SPECIFICATIONS

Feature	Detail
Brand	DAMONDY
Compatible Device	Vortex CB68 Cellphone
Model Name	DAM-20224901
Material	Tempered Glass
Item Hardness	9H
Clarity	99.9% Light Transmission
