Spampur 4 Pack Metal Pegboard Panels with 50 Hooks

Instruction Manual

1. INTRODUCTION

Thank you for choosing the Spampur Metal Pegboard Panels. This product is designed to provide a durable and versatile wall organization system for various environments, including homes, garages, workshops, craft rooms, and kitchens. Made from high-quality steel with a powder-coated finish, these panels offer robust storage solutions. This manual provides essential information for proper installation, usage, and maintenance to ensure optimal performance and longevity of your pegboard system.

2. PRODUCT FEATURES

- **Durable Metal Construction:** Panels are constructed from high-quality steel with a powder-coated finish, ensuring strength, scratch resistance, and ease of cleaning. Each panel supports up to 50 lbs.
- **Modular Design:** Each pegboard measures 16 x 12 inches with 1/4 inch holes. Multiple panels can be combined to create larger configurations, such as a 64 x 12 inch or 32 x 24 inch pegboard wall, allowing for flexible customization of wall space.
- **Versatile Application:** Suitable for organizing tools in garages and workshops, cookware in kitchens, craft supplies in craft rooms, and general organization in offices.
- **Standard Compatibility:** Designed to fit all standard 1/8-inch and 1/4-inch pegboard hooks and fittings with 1-inch spacing.
- **Easy Installation:** Includes all necessary screw and expansion pipe installation kits for straightforward mounting.

3. PACKAGE CONTENTS

The Spampur 4 Pack Metal Pegboard Panels package includes the following items:

- 4 x Metal Pegboard Panels (16 x 12 inches each)
- 50 x Assorted Pegboard Hooks

- Mounting Accessories (screws, expansion pipes)

4. INSTALLATION

The Spampur Metal Pegboard Panels are designed for easy installation. Follow these steps to mount your pegboard system securely.

4.1 Tools Required

- Drill
- Hammer
- Level (recommended)
- Pencil

4.2 Mounting Instructions

1. **Plan Your Layout:** Determine the desired arrangement for your pegboard panels. You can align them horizontally to form a 64 x 12 inch strip or combine them into a 32 x 24 inch board, or any custom shape to optimize your wall space.
2. **Mark Mounting Points:** Hold the first pegboard panel against the wall at your desired height and position. Use a pencil to mark the locations for the mounting screws through the pre-drilled holes on the panel's frame. Ensure the panel is level before marking.
3. **Drill Pilot Holes:** Use a drill to create pilot holes at the marked locations. If mounting into drywall, insert the provided expansion pipes (anchors) into the pilot holes before inserting screws. If mounting into wood studs, drill directly.
4. **Secure the First Panel:** Align the first panel with the pilot holes and secure it using the provided screws. Do not overtighten.
5. **Connect Additional Panels:** For multi-panel setups, align subsequent panels with the installed panel. Use the small screws and nuts provided to connect the panels together through the side holes, creating a seamless and stable surface.
6. **Install Remaining Panels:** Repeat steps 2-4 for any remaining panels, ensuring they are properly aligned and securely fastened.

5. OPERATING AND USAGE

Once your Spampur Metal Pegboard Panels are securely installed, you can begin organizing your items. The system is highly adaptable to various tools and accessories.

5.1 Attaching Hooks and Accessories

- Insert the pegboard hooks into the desired holes on the panel. The 1/4-inch holes are compatible with standard pegboard hooks.
- Ensure hooks are firmly seated to prevent items from falling. Some hooks may include locking mechanisms or rubber grommets for added stability.
- Arrange items strategically to maximize space and accessibility.

Video: Official Spampur video demonstrating the anti-drop features of the pegboard hooks, showing how they securely attach to the panels.

5.2 Recommended Uses

- **Garage/Workshop:** Ideal for hanging hand tools, power tools, extension cords, and other equipment.
- **Kitchen:** Organize pots, pans, utensils, and small appliances.
- **Craft Room:** Store craft supplies, fabrics, and small tools.
- **Office:** Keep office supplies, cables, and small electronics tidy.

6. MAINTENANCE

To maintain the appearance and functionality of your Spampur Metal Pegboard Panels, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the panels with a soft, damp cloth to remove dust and dirt. For stubborn marks, a mild soap solution can be used, followed by drying with a clean cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Inspection:** Periodically check all mounting screws and connections to ensure they remain tight and secure. Retighten if necessary.
- **Weight Capacity:** Adhere to the maximum weight capacity of 50 lbs per panel to prevent damage or detachment from the wall.

7. TROUBLESHOOTING

If you encounter any issues with your Spampur Metal Pegboard Panels, refer to the following common troubleshooting tips:

- **Hooks are Loose:** Ensure that the hooks are fully inserted into the pegboard holes. If using standard hooks, consider adding peg locks (not included) for increased stability, especially for frequently accessed or heavier items.
- **Panel Feels Unstable:** Check all mounting screws and ensure they are securely fastened into the wall anchors or studs. Verify that the connecting screws between panels are also tight.
- **Difficulty Aligning Panels:** When installing multiple panels, use a level to ensure the first panel is perfectly horizontal. This will simplify the alignment of subsequent panels.

If you continue to experience problems, please contact customer support for assistance.

8. SPECIFICATIONS

Feature	Detail
Brand	Spampur
Model	B0DNZJ7GC4 (Black 16x12"- 4 Pcs)
Material	Iron
Finish Type	Powder Coated
Color	Black
Item Dimensions (per panel)	16 x 12 inches
Hole Size	1/4 inch
Hole Spacing	1 inch
Maximum Weight Capacity (per panel)	50 Pounds
Mounting Type	Wall Mount
Number of Hooks Included	50

9. WARRANTY AND SUPPORT

Spampur is committed to providing high-quality products and customer satisfaction. If you have any questions, concerns, or require assistance with your pegboard panels, please do not hesitate to contact our customer service team. We are available to help with free replacements for any issues encountered.
