VGR V-401

VGR 401 Negative Ionic Hair Dryer User Manual

Model: V-401 | Brand: VGR

INTRODUCTION

This manual provides essential information for the safe and effective operation of your VGR 401 Negative Ionic Hair Dryer. Please read it thoroughly before first use and retain it for future reference.

SAFETY INFORMATION

- Keep out of reach of children.
- Do not rinse or submerge the appliance in water.
- Keep the power plug and cord away from heated surfaces.
- Do not use the hair dryer while bathing or near water.
- Always unplug the appliance after use.

PACKAGE CONTENTS

Verify that all items are present in the package:

- VGR 401 Negative Ionic Hair Dryer
- 1 Diffuser Attachment
- 2 Nozzle Attachments (Concentrator and Styling Concentrator)
- User Manual

3 Magnetic

OPERATING INSTRUCTIONS

Power On/Off:

Locate the ON/OFF switch on the handle. Slide it to the 'ON' position to power on the dryer and to the 'OFF' position to power it off.

Adjusting Speed and Temperature:

The VGR 401 features an LED display showing current RPM and temperature settings. Use the two rotary knobs on the handle to adjust the airflow speed (7000-110000 RPM) and temperature (60-100°C). There are 40 levels for each setting, allowing for precise control.

NEGATIVE IONS

Hair dryer for better hair care

Smooth $\uparrow 45\%$ Soft $\uparrow 35\%$ Frizz $\downarrow 70\%$

Cool Air Button:

Press the dedicated cool air button to instantly switch to a cool airflow, ideal for setting your hairstyle.

Negative Ionic Technology:

The integrated negative ion system helps to neutralize static electricity, reduce frizz, and enhance hair's natural shine by locking in moisture during drying.

MAINTENANCE

Cleaning the Dust Filter:

To maintain optimal performance, regularly clean the detachable dust filter located at the rear of the hair dryer. Twist or pull off the rear cover as indicated in the diagram, remove the filter screen, and gently clean any accumulated dust or debris. Ensure the filter is completely dry before reattaching.

PRODUCT PARAMETERS

BLDC MOTOR:
70000-110000RPM
VOLTAGE/FREQUENCY:
110V~/60HZ
POWER:
1200W
TEMPERATURE SETTINGS:
60-100°C
WEIGHT:
600g
COLOR:
Black/Red

General Care:

Wipe the exterior of the hair dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents. Store the appliance in a dry place when not in use.

TROUBLESHOOTING

- No Power:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the ON/OFF switch is in the 'ON' position.
- Weak Airflow:** Check the dust filter for blockages and clean if necessary. Ensure the speed setting is adjusted appropriately.
- No Heat:** Verify the temperature setting is not set to the lowest (cool air) option.
- Overheating:** If the dryer stops unexpectedly, it may have overheated. Unplug it and allow it to cool down for several minutes before restarting. Clean the air inlet and outlet to ensure proper ventilation.
