MAXYOYO Tri-Fold Mattress (Model MMT1BUUS135) - Instruction Manual

Your guide to setting up, using, and maintaining your versatile folding mattress.

1. SETUP AND INITIAL EXPANSION

Your MAXYOYO Tri-Fold Mattress is shipped in vacuum-compressed packaging to reduce its size for transport. Upon arrival, follow these steps for proper setup and full expansion:

- 1. Move to Desired Location:** Carefully move the packaged mattress to the room where it will be used.
- 2. Open Outer Packaging:** Remove the mattress from its shipping box.
- 3. Remove Compressed Packaging:** Carefully cut and remove the vacuum-sealed plastic wrapping. Avoid using sharp objects directly on the mattress fabric.
- 4. Allow for Expansion:** Unfold the mattress completely and lay it flat in a well-ventilated area. The high-density foam requires approximately **48 hours** to fully expand and regain its intended 6-inch thickness and firmness. Gently tapping and shaking the mattress can aid in the rebound process.

3.2 Non-Slip Bottom

The mattress is equipped with an anti-slip bottom to prevent it from sliding on various floor surfaces. This feature ensures stability during use, whether as a bed or a sofa.

3.3 Storage

When not in use, fold the mattress into its compact form. It can be easily stored in a closet, under a bed, or in any small space. The integrated handles facilitate easy transport and storage.

4. TROUBLESHOOTING

Most common concerns can be resolved with simple steps:

- **Incomplete Expansion:** If the mattress has not fully expanded after 48 hours, ensure it is laid flat in a warm, well-ventilated room. Gently massage or walk on the foam to help break up any compressed areas. Allow additional time for full recovery.
- **Odor:** A new foam mattress may have a slight odor upon unpacking. This is normal and harmless. Allow the mattress to air out in a well-ventilated space for a few days, and the odor will dissipate.
- **Cover Difficult to Re-attach:** Ensure the foam inserts are correctly aligned within the cover. Zipping slowly and carefully will prevent snags.
