AODK 100*50*75.7cm

AODK Gaming Desk User Manual

Model: 100*50*75.7cm | Brand: AODK

INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your AODK Gaming Desk. Please read these instructions carefully before assembly and retain for future reference.

SAFETY INFORMATION

- Ensure all components are present and undamaged before assembly.
- Assemble the desk on a soft, clean surface to prevent scratches.
- Do not overtighten screws during assembly to avoid damaging components.
- Keep small parts away from children to prevent choking hazards.
- Do not exceed the maximum weight capacity of the desk.
- Ensure the power cord for the integrated outlets is properly connected to a suitable power source.

PACKAGE CONTENTS

Verify that all the following parts are included in your package:

- Desk tabletop (Carbon Black finish)
- Desk frame components (steel)
- Monitor stand components
- Storage rack shelves (2 tiers)
- Integrated power strip with 2 AC outlets and 2 USB ports
- RGB LED bar light
- Assembly hardware (screws, bolts, wrench)
- Instruction manual (Japanese and English)

SETUP INSTRUCTIONS

Assembly is required. A wrench is included; no additional tools are necessary.

Step 1: Assemble the Desk Frame

Begin by connecting the main steel frame components. Ensure all connections are secure but do not fully tighten screws until the entire frame is assembled.

Step 2: Attach the Tabletop

Carefully place the carbon-tone tabletop onto the assembled frame. Align the screw holes and secure the tabletop using the provided hardware. Fully tighten all screws once the tabletop is in place.

Step 3: Install the Storage Rack

The storage rack can be installed on either the left or right side of the desk. Attach the rack frame to the main desk frame. Insert the two shelves into the rack. The upper shelf's position is adjustable to accommodate different item heights. The lower shelf is recommended for a PC tower or similar equipment.

Image: Detail of the two-tier storage rack, illustrating the adjustable height of the upper shelf (20.8cm clearance).

Step 4: Mount the Monitor Stand

Attach the monitor stand to the back of the desk. The monitor stand offers three height adjustment options: 10cm, 13cm, and 16cm. Select the height that provides the most ergonomic viewing angle for your setup.

Step 5: Connect the Power Strip and LED Light

Secure the integrated power strip to its designated location on the desk. Plug the power strip's cord into a wall outlet. Connect the RGB LED bar light to the power strip or its dedicated power source as indicated in the LED light's specific instructions.

ゲーム中の電源確保

同時に最大4台のデバイスをサポートし、合計1500Wまで使える

Image: The integrated power strip, featuring two 125V/15A outlets and two 5V/2A USB ports, with a 1.8m cord length.

OPERATING INSTRUCTIONS

RGB LED Bar Light

The LED bar light features 10 color adjustment levels and 9 brightness adjustment levels. Use the control buttons on the LED bar to cycle through colors and adjust brightness to create your desired ambiance.

3段階高さ調整可能なモニター台

身長や使い方によって、使い心地いい高さを選びましょう

Integrated Power Outlets and USB Ports

The desk is equipped with 2 standard AC power outlets (125V/15A) and 2 USB charging ports (5V/2A). These allow you to power and charge up to 4 devices simultaneously, with a total maximum capacity of 1500W. This feature provides convenient power access for your gaming equipment, peripherals, and mobile devices.

MAINTENANCE

- **Cleaning:** The carbon fiber tabletop is resistant to scratches, heat, and water. For general cleaning, wipe with a soft, damp cloth. Avoid abrasive cleaners.
- **Tightening:** Periodically check all screws and connections to ensure they remain tight and secure. Retighten if necessary.
- **Cable Management:** Utilize cable ties or clips (not included) to manage cables and prevent them from snagging or becoming a hazard.

TROUBLESHOOTING

Desk Wobbles After Assembly

- Ensure all screws are fully tightened.
- Check that the desk is placed on a level surface.

- Verify that the adjustable feet (if present) are properly adjusted to compensate for uneven floors.

LED Light Not Functioning

- Check if the LED bar is securely connected to its power source.
- Ensure the power strip is plugged into a live wall outlet.
- Press the power button on the LED control panel.

Power Outlets/USB Ports Not Working

- Verify the power strip's main plug is firmly inserted into a functional wall outlet.
- Check if the total power draw of connected devices exceeds 1500W. Disconnect some devices if overloaded.
- Test the wall outlet with another device to confirm it is supplying power.

SPECIFICATIONS

Feature	Detail
Brand	AODK
Model	100*50*75.7cm
Color	Carbon Black
Product Dimensions (L x W x H)	100 cm x 50 cm x 75.7 cm (tabletop height)
