MAINTENANCE AND CARE

Proper care will help maintain the appearance and extend the lifespan of your accent chair.

- **Regular Cleaning:** Vacuum the chenille fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for chenille, testing on an inconspicuous area first. Avoid harsh chemicals.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading of the fabric. Position the chair away from direct sunlight or use curtains/blinds.
- **Check Fasteners:** Periodically check and retighten all screws and bolts to ensure the chair remains stable.

TROUBLESHOOTING

If you encounter any issues with your VINGLI Accent Chair, refer to the following common solutions:

Problem	Possible Cause	Solution
Chair feels unstable or wobbly.	Loose fasteners or uneven floor.	Ensure all screws and bolts are securely tightened. Check if the chair is on a level surface.
Squeaking noises during use.	Loose connections or friction between components.	Retighten all assembly hardware. If the issue persists, disassemble and reassemble carefully, ensuring all parts are correctly aligned.
Cushion feels less supportive over time.	Normal wear and compression of foam.	Rotate and fluff cushions regularly if removable. While high-density foam is used, some compression is natural over extended use.
