UGREEN Zapix 65W 5-Port USB C GaN Desktop Charger Instruction Manual

Model: 65195 | Brand: UGREEN

INTRODUCTION

Thank you for choosing the UGREEN Zapix 65W 5-Port USB C GaN Desktop Charger. This manual provides essential information for the safe and efficient use of your device. Please read it thoroughly before operation and retain it for future reference.

PRODUCT OVERVIEW

The UGREEN Zapix 65W 5-Port USB C GaN Desktop Charger is designed for efficient multi-device charging. It incorporates advanced GaN technology for compact size and superior performance.

Key Features:

- **65W Total Output:** Provides up to 65W total power output across 5 ports (4 USB-C, 1 USB-A).
- **High-Speed Single Port Charging:** USB-C1 port delivers up to 45W, capable of charging a MacBook Air from 0% to 38% in approximately 30 minutes.
- **GaN Technology:** Utilizes Gallium Nitride (GaN) for enhanced efficiency, smaller footprint, higher power density, and improved thermal management.
- **Comprehensive Safety:** Equipped with real-time temperature detection and protection against short circuits, overvoltage, overheating, and overcurrent.
- **Universal Compatibility:** Supports a wide range of devices including iPhone 17/16/15/14/13/12/11 series, Galaxy S25/S24/S23/S22/S21, MacBook Air/Pro M4/M3/M2/M1, iPad Pro/Air/mini, Galaxy Tab S10/S9/S8/S7, Thinkpad, and Steam Deck.
- **Desktop Design:** Includes a 2-meter power cable for convenient desktop placement.

Package Contents:

- UGREEN Zapix 65W 5-Port USB C GaN Desktop Charger (Model: 65195)

- 2-meter AC Power Cable

SETUP INSTRUCTIONS

1. **Unpack:** Carefully remove the charger and all accessories from the packaging.
2. **Connect Power Cable:** Insert the 2-meter AC power cable into the power input port on the back of the charger.
3. **Plug into Outlet:** Connect the other end of the AC power cable to a standard wall outlet (230V).
4. **Indicator Light:** The charger may have an indicator light that illuminates when powered on, confirming it is ready for use.

OPERATING INSTRUCTIONS

1. **Connect Devices:** Use appropriate USB-C to USB-C or USB-A to USB-C/Lightning cables (not included) to

connect your devices to the charger's available ports.

2. Optimal Charging:

- For maximum 45W output to a single device, use the USB-C1 port.
- When charging multiple devices, the charger intelligently distributes power. Refer to the power distribution table in the Specifications section for details.

3. Charging Status: Your device's screen or indicator light will show its charging status.

4. Disconnecting: Once charging is complete, disconnect your devices and then unplug the charger from the wall outlet.

SAFETY INFORMATION

- Do not expose the charger to liquids, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not attempt to disassemble, repair, or modify the charger.
- Use only certified and compatible charging cables.
- Keep out of reach of children.
- Unplug the charger during lightning storms or when unused for extended periods.

- **Cleaning:** Disconnect the charger from the power outlet and all devices before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid bending or twisting the power cable excessively. Do not place heavy objects on the cable.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging.	Charger not powered on. Faulty cable. Incompatible device. Device fully charged.	Ensure the charger is properly plugged into a live outlet. Try a different charging cable. Verify device compatibility. Check device battery status.
Slow charging speed.	Using a non-fast charging port. Too many devices connected. Cable quality.	Use the USB-C1 port for higher power devices. Disconnect some devices to increase power to others. Ensure you are using a high-quality, fast-charging compatible cable.
Charger feels warm.	Normal operation during high load. Poor ventilation.	This is normal. The GaN technology helps manage heat efficiently. Ensure the charger is in a well-ventilated area. If it becomes excessively hot, disconnect immediately and contact support.

SPECIFICATIONS

Brand	UGREEN
Model Number	65195
Manufacturer	Ugreen Group Limited
Country of Origin	China
Connector Type	USB Type A, USB Type C
Total USB Ports	5 (4x USB-C, 1x USB-A)
Power Output	65 Watts (Max)
Input Voltage	230 Volts AC
Output Voltage	15 Volts (Max)
Output Current	3 Amperes (Max)
Compatible Devices	Mobile phones, tablets, laptops (e.g., iPhone 16-8 series, Galaxy S25, S24, A15, Pixel 9, iPad, MacBook Air/Pro, Thinkpad, Steam Deck)

Special Feature	Portable, GaN Technology
Electrical Plug Type	European plug CEE 7/16, Type C/EF – 2 pins
Included Components	1 adapter, 1 x 2-meter extension cable
