iHave Toothbrush Sanitizer and Holder

iHave Toothbrush Sanitizer Instruction Manual

Model: Toothbrush Sanitizer and Holder (Upgraded Black)

1. INTRODUCTION

The iHave Toothbrush Sanitizer is a wall-mounted UV toothbrush holder designed to provide efficient disinfection for your toothbrushes. Utilizing advanced UVC+UVA technology, it aims to ensure a hygienic brushing experience. This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your device.

2. KEY FEATURES

- **High-Efficiency UV Disinfection:** Employs UVC+UVA technology for up to 99.9% disinfection, ensuring comprehensive protection for your toothbrush.

High-Efficiency UV Disinfection

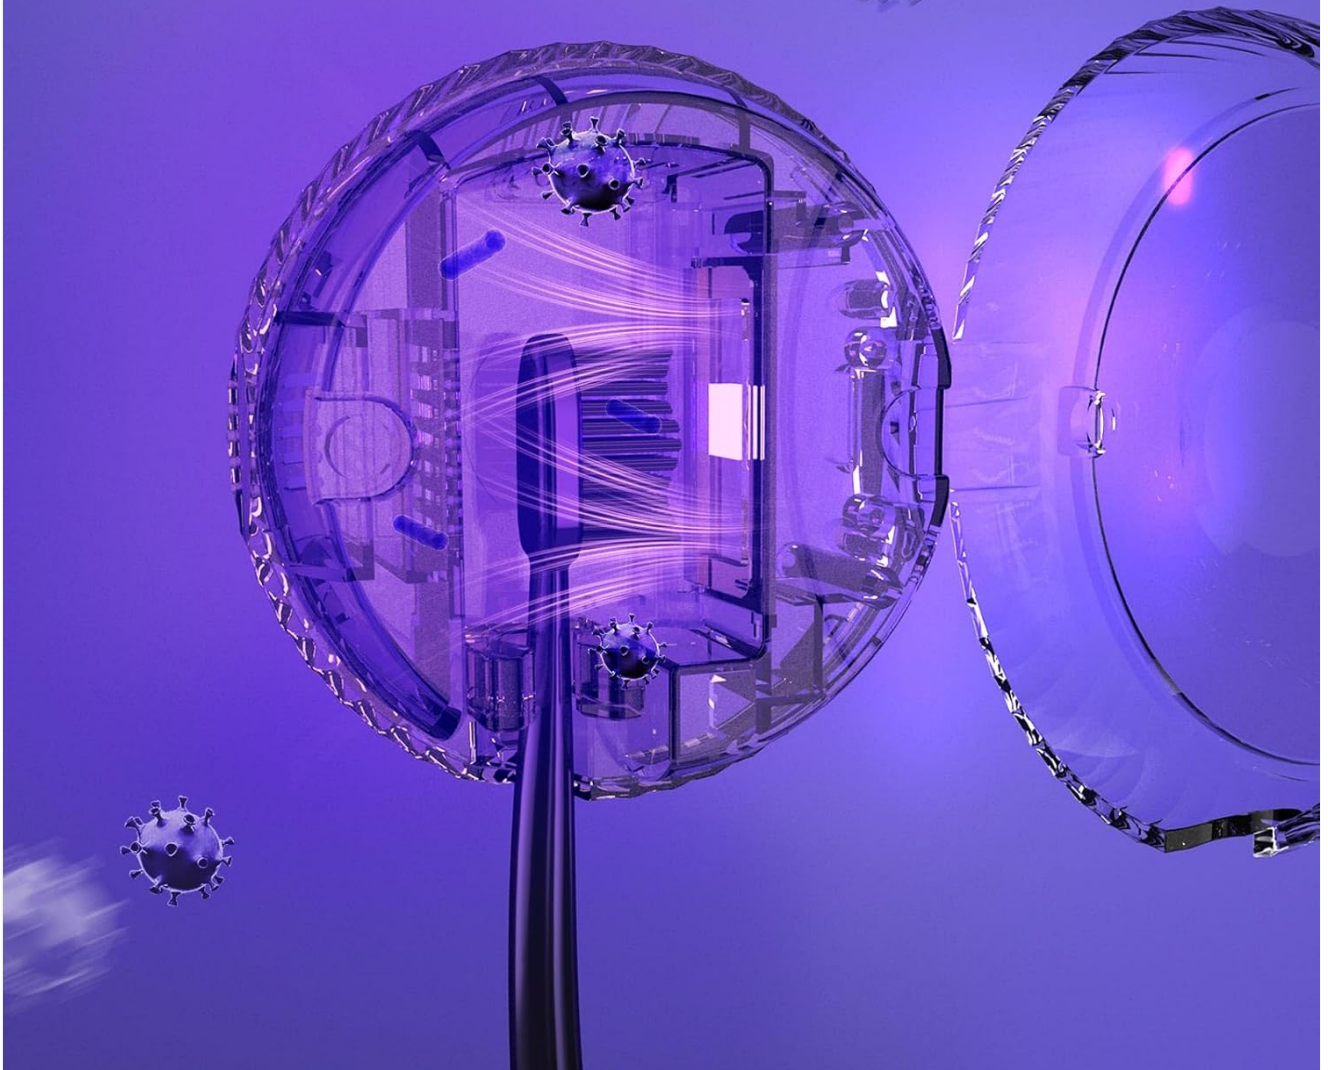

Image: Visual representation of the high-efficiency UV disinfection process within the device.

- **Long-Lasting Power:** Offers approximately 2 months of standby time on a single 1.5-hour USB charge, making it suitable for travel.
- **Easy to Use:** Features fully automated disinfection that activates upon closing the lid.
- **Universal Compatibility:** Designed to be compatible with manual, sonic, and rotating toothbrushes.

**Suitable for all kinds
of toothbrushes.**

3. SETUP GUIDE

3.1 Charging the Device

Before first use, fully charge the iHave Toothbrush Sanitizer. Connect the provided USB cable to the charging port on the device and to a standard USB power source. A full charge takes approximately 1.5 hours.

3.2 Installation Options

The sanitizer offers two primary installation methods:

1. Wall-Mounted:

- Choose a smooth, clean, and dry wall surface (e.g., tile, mirror).
- Peel off the protective film from the adhesive backing of the magnetic bracket.
- Press the bracket firmly onto the desired wall location for 30 seconds.
- Wait for at least 24 hours before attaching the sanitizer to the bracket to ensure strong adhesion.

- Align the sanitizer with the magnetic bracket until it securely snaps into place.

2. Upright Placement:

- Simply place the sanitizer upright on any flat bathroom countertop surface.

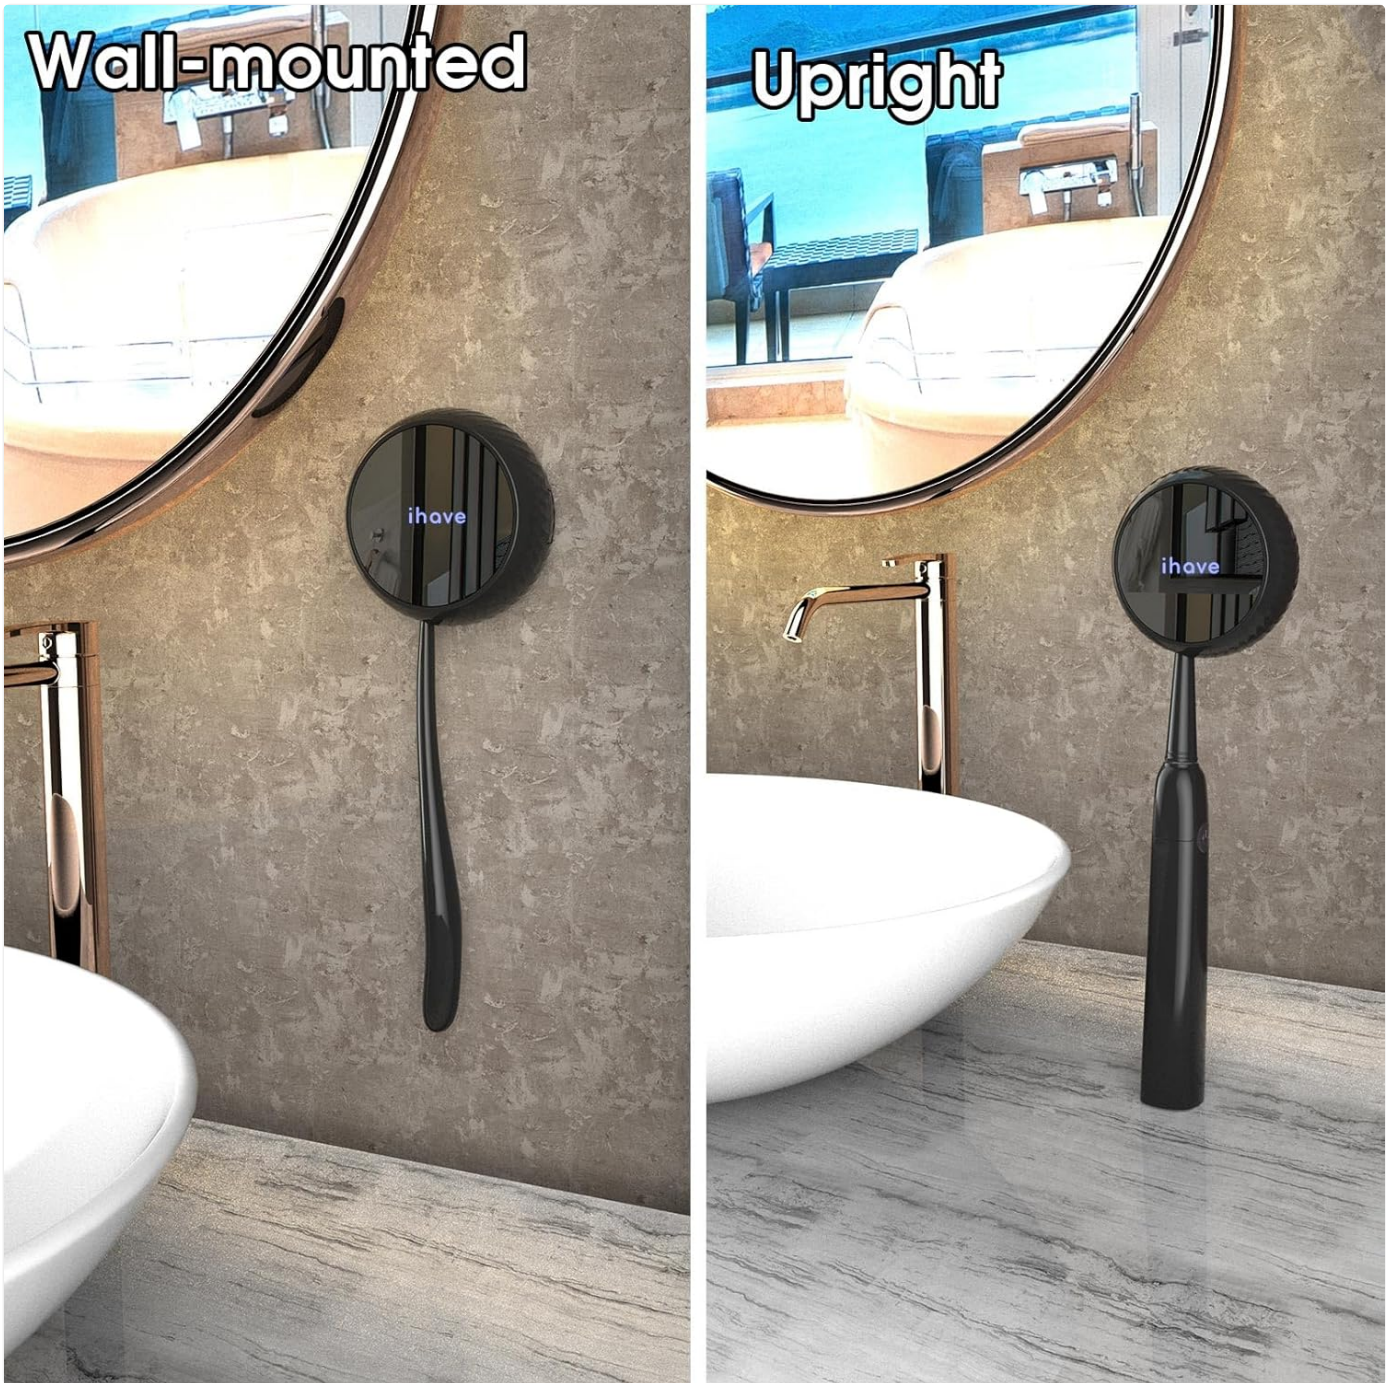

Image: Demonstrating the flexibility of wall-mounted versus upright placement options.

4. OPERATING INSTRUCTIONS

Using the iHave Toothbrush Sanitizer is straightforward:

1. Insert your toothbrush head into the designated slot within the sanitizer.
2. Close the lid of the sanitizer. The dual-spectrum UVC+UVA system will automatically activate to begin the disinfection cycle.
3. Once the disinfection cycle is complete, the device will automatically turn off.
4. Open the lid to retrieve your sanitized toothbrush.

5. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your iHave Toothbrush Sanitizer, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the exterior of the device with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure the device is powered off and disconnected from any charging cable before cleaning.
- **UV Lamp Care:** Avoid touching the UV lamp directly. If necessary, gently wipe it with a clean, dry cloth.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

If you encounter issues with your iHave Toothbrush Sanitizer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not turn on/UV light does not activate.	Low battery; Lid not fully closed; Device malfunction.	Charge the device fully. Ensure the lid is securely closed. If the issue persists after charging and ensuring the lid is closed, contact customer support.
Toothbrush remains wet after disinfection.	This model does not include a drying function.	The iHave Toothbrush Sanitizer focuses on UV disinfection. For drying, ensure toothbrushes are shaken dry before insertion or allow them to air dry after the cycle.
Magnetic bracket does not hold securely.	Surface not clean/smooth; Insufficient waiting time after adhesion.	Ensure the wall surface is clean, dry, and smooth before applying the adhesive. Allow the adhesive to cure for at least 24 hours before attaching the sanitizer.

7. TECHNICAL SPECIFICATIONS

Specification	Detail
Brand	iHave
Model Name	Toothbrush Sanitizer and Holder
Color	Upgraded Black
Material	Acrylonitrile Butadiene Styrene (ABS)
Mounting Type	Wall Mount
Special Feature	Lightweight
Number of Items	1
Number of Compartments	1
Item Weight	3.52 ounces (0.1 Kilograms)
Package Dimensions	3.15 x 3.15 x 1.54 inches

Specification	Detail
Batteries	1 Lithium Polymer battery (included)

8. WARRANTY AND CUSTOMER SUPPORT

The iHave Toothbrush Sanitizer comes with a standard manufacturer's warranty. For specific warranty details, including coverage and duration, please refer to the product packaging or contact iHave customer support directly.
