## CAGIWIRU W15

# CAGIWIRU Compressed Air Duster (Model W15) User Manual

Important safety and operating instructions.

## INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation of your CAGIWIRU W15 Compressed Air Duster. This device features an upgraded brushless motor, adjustable wind speeds, and a compact design, making it suitable for various cleaning tasks for electronics, vehicles, and household items. Please read this manual thoroughly before using the product and retain it for future reference.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- Electric Air Duster x 1
- Replacement Nozzles x 5
- Type-C Charging Cable x 1
- User Manual x 1

# Compact & Portable

Carry it Anywhere

## Initial Charging

Before first use, fully charge the air duster. Connect the provided Type-C charging cable to the charging port on the device and plug the other end into a compatible USB power source (e.g., adapter, car charger, power bank, computer). The charging indicator lights will show the charging status. A full charge takes approximately 2.5 hours.

## OPERATING INSTRUCTIONS

### Power On/Off

To power on the device, press and hold the power button for a few seconds. To power off, press and hold the power button again.

### Adjusting Wind Speed

Once powered on, briefly press the power button to cycle through the three wind speed gears:

- **Gear 1:** 30,000 RPM (for delicate cleaning)
- **Gear 2:** 60,000 RPM (for general cleaning)
- **Gear 3:** 110,000 RPM (for heavy-duty cleaning)

### Using the LED Light

The LED light can be activated by a dedicated button, typically located near the power button. Press it once to turn on, and again to turn off.

## APPLICATIONS

The CAGIWIRU W15 Compressed Air Duster is designed for a wide range of cleaning tasks.

### Computer and Electronics Cleaning

Use the duster to remove dust from keyboards, computer cases, game consoles, and other electronic devices.

### Household Cleaning

Effectively clean hard-to-reach areas in your home, such as window sills, sofas, and air conditioner filters.

### Car Cleaning

Ideal for cleaning car interiors, vents, and removing debris from exterior surfaces.

### Outdoor and Other Uses

Can be used for inflating small items like air mattresses or yoga balls, starting fires for barbecues, and drying pet hair.

## MAINTENANCE

---

### Cleaning the Device

Wipe the exterior of the air duster with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the device is powered off before cleaning.

### Nozzle Care

The nozzles can be cleaned with a damp cloth. Ensure they are completely dry before reattaching them to the device.

### Storage

Store the air duster in a cool, dry place away from direct sunlight and extreme temperatures. Keep it out of reach of children.

## TROUBLESHOOTING

---

### Device Not Turning On

- Check if the battery is charged. Connect the device to the charger and allow it to charge for at least 30 minutes before attempting to power on again.
- Ensure the power button is pressed and held for the required duration (a few seconds) to activate.

### Weak Airflow

- Verify the battery level. A low battery can result in reduced performance.
- Ensure the correct nozzle is attached securely.
- Check for any obstructions in the air intake or outlet.

### Charging Issues

- Confirm the Type-C cable is properly connected to both the duster and the power source.
- Try a different Type-C cable or power adapter to rule out faulty accessories.
- Ensure the power source is active and providing sufficient power.

## SPECIFICATIONS

---
