Harper & Bright Designs Twin Bunk Bed Pink + Slide

Harper & Bright Designs Twin Over Twin Bunk Bed Instruction Manual

Model: Twin Bunk Bed Pink + Slide

PRODUCT OVERVIEW

This Harper & Bright Designs Twin Over Twin Bunk Bed features a unique castle-style design with integrated stairs, a slide, storage drawers, and shelves. It is constructed from pinewood, plywood, and MDF, providing a sturdy and functional sleeping and play area for children and teens.

SAFETY INFORMATION

For the safety of all users, please adhere to the following guidelines:

- Always follow the assembly instructions carefully.
- Avoid using power tools during assembly to prevent damage to components or injury.
- Do not exceed the maximum weight capacity of 250 LBS for both the upper and bottom beds.
- Keep small children away from sharp edges and small parts during assembly and use.
- Always supervise children and teens while using this product, especially on the slide and stairs.
- Ensure mattresses are within the recommended thickness of 4-6 inches for proper guardrail height.

SETUP AND ASSEMBLY

Estimated assembly time is approximately 60 minutes. All necessary tools and hardware are included. It is recommended to assemble the bed with at least two adults.

Before You Begin:

- Unpack all components and verify against the parts list in the included manual.
- Clear a spacious area for assembly.
- Keep children and pets away from the assembly area.

Assembly Steps:

1. Begin by assembling the main bed frames (upper and lower).
2. Attach the bed slats securely to both frames.
3. Connect the upper and lower frames using the provided hardware.
4. Assemble and attach the stairs unit, ensuring all storage cubbies are correctly aligned.
5. Install the slide securely to the designated side of the upper bunk.
6. Attach the castle-style playhouse structure and any additional shelves.
7. Insert the storage drawers under the bottom bed.
8. Double-check all connections and tighten all bolts.

SIZE: INCH

OPERATING INSTRUCTIONS

This bunk bed is designed for both comfortable sleeping and engaging play.

Sleeping Areas:

- The upper and lower bunks are designed for twin-sized mattresses.
- Ensure mattresses are between 4-6 inches thick to maintain adequate guardrail height for safety.

Integrated Storage:

- The two large drawers located under the bottom bed provide ample space for toys, bedding, or clothing. These drawers are not on tracks and can be easily pulled out and pushed in.
- The stairs unit features three integrated cubbies with front panels that open, offering additional hidden storage for smaller items or books.
- The shelves integrated into the bunk bed structure provide open storage for books, decorative items, or frequently

used toys.

Figure 3: View of the two large storage drawers located beneath the lower bunk, ideal for larger items.

Figure 4: Close-up of the stairs unit, showing the integrated storage cubbies with hinged fronts.

Slide and Playhouse:

- The slide provides an exciting exit from the upper bunk. Always ensure the area around the slide is clear before use.
- The castle-style structure with its window and awning can be used as a playhouse or a cozy reading nook.

MAINTENANCE

Regular maintenance will ensure the longevity and safety of your bunk bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the painted finish.
- **Hardware Check:** Periodically check all bolts and screws to ensure they are tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Structural Integrity:** Inspect the bed frame, slats, stairs, and slide regularly for any signs of wear, damage, or loose

connections. Address any issues promptly.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed squeaks or wobbles.	Loose hardware connections.	Check and tighten all bolts and screws. Ensure all components are properly aligned.
Slide seems too steep.	This is a design characteristic.	Always supervise children when using the slide. Ensure the landing area is clear and safe.
Drawers do not slide smoothly.	Obstruction or uneven floor.	Check for any items blocking the drawer path. Ensure the bed is on a level surface.
