## ieGeek Bell J9

# ieGeek Doorbell Camera Wireless Instruction Manual

Model: **Bell J9** | Brand: **ieGeek**

## INTRODUCTION

This instruction manual provides comprehensive guidance for the installation, operation, and maintenance of your ieGeek Bell J9 Wireless Doorbell Camera. Designed for enhanced home security, this device offers 1080P video quality, two-way audio, PIR motion detection, and seamless integration with 2.4Ghz WiFi networks. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

## PRODUCT OVERVIEW

### Package Contents

- Video Doorbell
- Chime
- Mounting Accessories (Screws, Wall Anchors)
- Charging Cable
- User Manual

### Key Features

- **100% Wireless & Easy Installation:** Battery-powered design eliminates the need for complex wiring.
- **1080P HD Video & 130° Wide Angle:** Provides clear, wide-angle views of your doorstep.
- **PIR Motion Detection & Real-time Alerts:** Detects human movement and sends instant notifications to your smartphone.
- **2-Way Audio & Voice Changer:** Communicate with visitors or use voice modulation for privacy/deterrence.
- **No Subscription Fee:** Supports local Micro SD card storage and offers lifetime free cloud storage for 6-second video clips (7-day loop coverage).
- **Works with Alexa:** Integrate with Amazon Alexa for voice control and live view on compatible devices.
- **Long Battery Life:** Equipped with a 5600mAh battery for extended operation.
- **Weather Resistant Design:** Built to withstand various outdoor conditions (shine, rain, snow, dust).

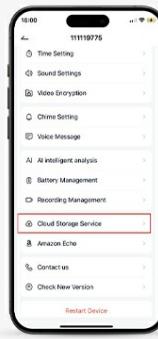

*Image: The ieGeek Bell J9 wireless doorbell camera and its accompanying chime unit. The doorbell features a camera lens, motion sensor, and a large illuminated button. A smartphone screen displays a live view from the doorbell.*

## How to Get Free Cloud Storage?

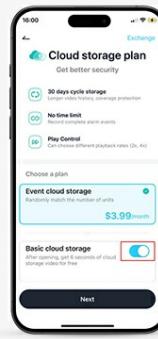

### Step 1

Click on the settings interface

### Step 2

Choose Cloud Storage Service

### Step 3

Click to enable basic cloud storage

*Image: The ieGeek doorbell mounted on a door, showing its weather-resistant design. Icons indicate protection against shine, rain, snow, and dust.*

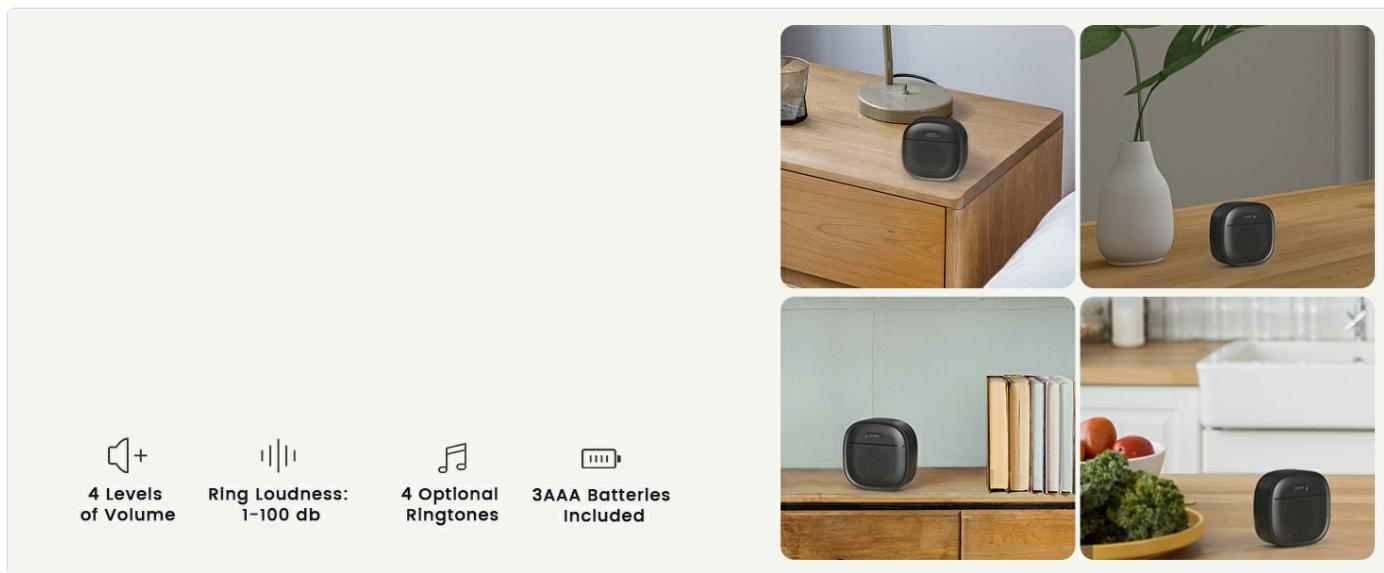

## SETUP

### 1. Charging the Doorbell

Before initial use, fully charge the doorbell camera using the provided USB cable. The charging indicator light will change color to indicate charging status (refer to the device's LED indicator guide for details).

### 2. App Download and Account Creation

Download the **ieGeek Cam** or **CloudEdge** app from your smartphone's app store (Google Play Store for Android, Apple App Store for iOS). Create an account and log in.

*Image: A visual guide showing three steps for setup: 1. Download ieGeek Cam or CloudEdge App, 2. Connect to 2.4Ghz WiFi, 3. Scan QR code for device pairing.*

### 3. Connecting to Wi-Fi

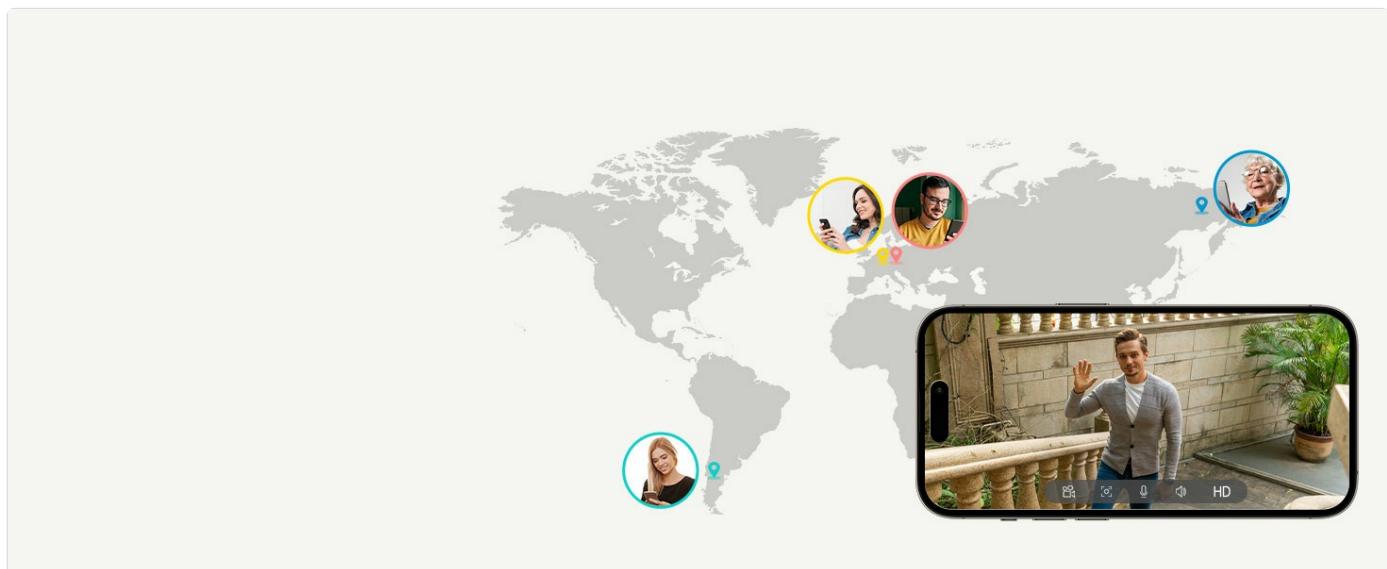

- Ensure your smartphone is connected to a **2.4Ghz WiFi network**. The ieGeek Bell J9 does not support 5Ghz WiFi.
- Follow the in-app instructions to add your new device. This typically involves scanning a QR code displayed on your phone with the doorbell camera.

### 4. Installing the Doorbell

The doorbell offers flexible installation options:

- **Screw Mounting:** Use the provided screws and wall anchors to securely attach the mounting bracket to your desired location.
- **Adhesive Mounting:** For smooth surfaces, a strong adhesive option may be available (check package contents).

Position the doorbell at an optimal height to capture visitors and packages clearly. The 130° wide-angle lens provides a broad field of view.

*Image: A person installing the ieGeek doorbell, illustrating both screw (bore) and adhesive mounting options for the bracket.*

## 5. Installing Micro SD Card (Optional)

To enable local video storage, insert a Micro SD card (up to 256GB, not included) into the designated slot. The doorbell features a unique bracket design to protect the Micro SD card from theft.

*Image: A three-step guide showing how to install a Micro SD card: 1. Insert a pin into the hole to release the doorbell from its bracket, 2. Take apart the doorbell and bracket, 3. The card slot is on the left side of the doorbell.*

## OPERATING INSTRUCTIONS

### Live View and Two-Way Audio

- Open the ieGeek Cam app to access the live feed from your doorbell camera at any time.
- Use the microphone icon in the app to speak to visitors at your door.

- The built-in speaker allows you to hear responses from the visitor.

### How to Install Micro SD Card?

**Step 1**  
Insert pin into the hole

**Step 2**  
Take apart doorbell and bracket

**Step 3**  
Card slot is on the left side

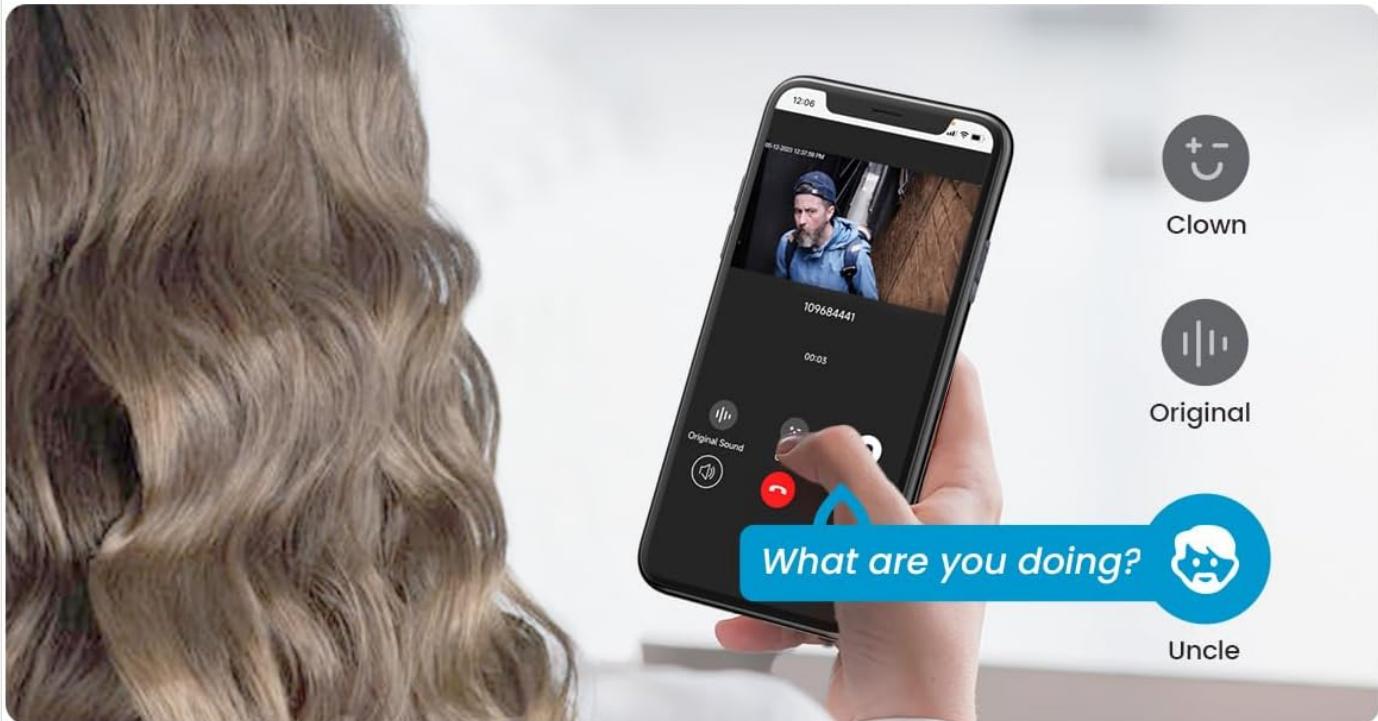

*Image: A person at the door interacting with the doorbell, with speech bubbles indicating two-way communication: "Hi, your package" and "Please put it out at the door, thanks".*

### Voice Changer Feature

Enhance your privacy or add a fun element to interactions with the voice changer feature. Select from various voice options (e.g., Clown, Uncle) within the app to modify your voice during two-way audio calls.

# Hide Your Identity

Talk to Visitors with Voice Changer

*Image: A smartphone screen showing the ieGeek app interface with options for voice changing (Clown, Original, Uncle) during a call with a visitor. Below, a person reacts to a voice message from the doorbell.*

## PIR Motion Detection and Alerts

- The doorbell's Passive Infrared (PIR) sensor detects motion up to 20 feet.
- Upon detection, you will receive a real-time notification on your phone within 3 seconds.
- The doorbell will automatically record footage of the event.
- You can customize motion detection sensitivity and define specific surveillance areas within the app to reduce false alarms.

# PIR Motion Detection

Push Notification of Abnormal Changes in 3S

Image: The ieGeek doorbell mounted next to a door, with red waves indicating motion detection. A person is shown approaching the door with packages. A smartphone notification at the bottom indicates an alarm message.

*Image: A person pressing the ieGeek doorbell button. Icons for Siren and App Push notifications are displayed, along with a notification message from the ieGeek Cam app.*

## Integration with Alexa

Connect your ieGeek doorbell to Amazon Alexa to view live footage on compatible Alexa-enabled devices (e.g., Echo Show) by simply using voice commands like "Alexa, show me the front door."

# Work with Alexa

Conduct Your Smart Home Security System

Watch

Cell Phone

Tablet

*"alexa, talk to the front door."*

*Image: An Amazon Echo Show device displaying a live view from the ieGeek doorbell, with the text "Work with Alexa" and a speech bubble saying "alexa, talk to the front door." Icons for Watch, Cell Phone, and Tablet are also shown.*

## Video Quality and Night Vision

The doorbell captures video in 1080P HD resolution, providing clear images. Built-in infrared lights enable automatic switching to night vision mode in low-light conditions, ensuring clear visibility even at night.

# Capture More Details

More Peace of Mind about Safety

**2K**

*Image: A side-by-side comparison of night vision quality, showing "Other 1080P" on the left with less detail and "2K" on the right with significantly clearer image quality of a street scene at night.*

## MAINTENANCE

---

### Battery Management

The ieGeek Bell J9 is powered by a 5600mAh rechargeable battery. Battery life can vary based on usage frequency and environmental factors. Recharge the doorbell when the battery level is low using the provided USB cable.

# Long Battery Life

Get rid of frequent charging

5600mAh

*Image: A transparent view of the ieGeek doorbell, highlighting the internal 5600mAh battery cells, with text indicating "Long Battery Life".*

## Storage Options

- **Local Storage:** Supports Micro SD cards up to 256GB for continuous recording.
- **Cloud Storage:** ieGeek Cam APP provides lifetime free cloud storage for 6-second video clips with a 7-day loop coverage. Paid cloud storage plans are also available for extended storage.

Image: The ieGeek doorbell with a Micro SD card inserted, alongside a smartphone displaying the ieGeek Cam app and a cloud icon labeled "ieGeek Cloud", illustrating both storage options.

- ⌚ Reply within 24 hours of working time
- ✉️ service @iegeek.com
- ⌚ 2-year war\*anty

Image: A three-step guide within the ieGeek Cam app showing how to enable basic free cloud storage: 1. Click on the settings interface, 2. Choose Cloud Storage Service, 3. Click to enable basic cloud storage.

## TROUBLESHOOTING

### Common Issues and Solutions

Issue	Possible Cause / Solution
<b>Doorbell not connecting to Wi-Fi</b>	Ensure your router is broadcasting a 2.4Ghz signal. The doorbell does not support 5Ghz WiFi. Check WiFi signal strength at the installation location.
<b>Frequent false motion alerts</b>	Adjust the motion detection sensitivity in the ieGeek Cam app. Define specific activity zones to exclude high-traffic areas.
<b>Poor video quality</b>	Check your internet connection stability and bandwidth. Ensure the camera lens is clean and free from obstructions.
<b>Battery not charging or draining quickly</b>	Ensure the charging cable is properly connected. If the issue persists, contact customer support. High frequency of motion alerts or live view usage can reduce battery life.

Issue	Possible Cause / Solution
Two-way audio unclear or delayed	Check your internet connection speed. Ensure there is no excessive background noise.

For further assistance, please refer to the FAQ section within the ieGeek Cam app or contact customer support.

## SPECIFICATIONS
