## 2. SETUP INSTRUCTIONS

Your VECELO mattress is delivered vacuum-packed in a compact box. Follow these steps to unpack and set up your mattress:

1. Carefully open the cardboard box.
2. Remove the rolled, vacuum-sealed mattress from the box.
3. Place the rolled mattress on your bed frame or a flat, clean surface.
4. Using the provided cutter (or a similar tool, being careful not to damage the mattress), cut and remove the outer plastic wrapping.
5. Unroll the mattress. It will begin to expand immediately.
6. Carefully cut and remove the inner plastic cover.
7. Allow the mattress to fully expand for approximately 24-72 hours. While it will restore to about 90% of its shape immediately, full expansion ensures optimal comfort and support.

### 3. PRODUCT FEATURES

- **Excellent Pressure Distribution:** The mattress features individual pocket coils that respond independently to body weight, distributing pressure evenly and supporting natural body curves. This helps reduce strain on pressure points like shoulders and hips, promoting better circulation and reducing fatigue.
- **Superior Breathability:** The surface is made of a soft, high-quality knit fabric with excellent breathability, allowing moisture and heat to escape efficiently. This maintains a comfortable temperature year-round.
- **Durable and Hygienic:** Constructed from carefully selected eco-friendly materials, the mattress is designed for long-term use without sagging. It is treated with anti-mite and anti-bacterial properties for a clean and comfortable sleep environment.
- **Side Reinforcement:** High-strength coils are placed at both ends of the mattress to prevent sagging when sitting on the edge, providing stable support.

## 6. MAINTENANCE

To maintain the quality and longevity of your VECELO mattress:

- **Regular Cleaning:** Surface stains can be easily wiped off with a damp cloth. Avoid using harsh chemicals.
- **Ventilation:** Ensure good air circulation around the mattress to prevent moisture buildup.
- **Rotation:** Periodically rotate the mattress (head to foot) to promote even wear and extend its lifespan.

## 7. TROUBLESHOOTING

If you encounter any issues with your mattress, please consider the following:

- **Incomplete Expansion:** If the mattress has not fully expanded after 72 hours, ensure it is placed on a flat surface in a well-ventilated room. Temperature and humidity can affect expansion time.
- **Unusual Odor:** A new mattress may have a slight odor upon unboxing. This is normal and will dissipate within a few days in a well-ventilated area.

- **Comfort Issues:** Allow your body time to adjust to the new mattress, typically a few weeks. If discomfort persists, review the product specifications to ensure it matches your preferred firmness.
