Hiswelle H786

Hiswelle 8L Smart Humidifier H786 User Manual

Model: H786

1. Introduction

Thank you for choosing the Hiswelle 8L Smart Humidifier H786. This cool mist humidifier is designed to enhance your indoor air quality by maintaining optimal humidity levels in large rooms, bedrooms, offices, and living spaces. Featuring smart app control, a remote, touch controls, and an 8-liter capacity, it offers convenience and efficient humidification. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. Important Safety Instructions

- Always place the humidifier on a flat, stable surface.
- Do not immerse the base unit in water or other liquids.
- Ensure the power cord is not damaged and is placed away from heat sources or high-traffic areas.
- Unplug the humidifier before filling, cleaning, or moving it.
- Do not add essential oils directly into the water tank; use the designated aromatherapy tray only.
- The humidifier features an automatic shut-off function when water levels are low or the tank is removed, ensuring safety.
- Keep out of reach of children and pets.

3. Product Components

The Hiswelle 8L Smart Humidifier H786 package includes:

- Smart Humidifier Unit (1)
- Remote Control (1)
- User Manual (1)

4. Setup and First Use

4.1 Placement

Place the humidifier on a firm, flat, water-resistant surface at least 6 inches (15 cm) away from walls and furniture. Ensure the mist outlet is not obstructed.

4.2 Filling the Water Tank

1. Ensure the humidifier is unplugged.
2. Open the top cover of the water tank.
3. Pour clean, cool tap water directly into the tank. Do not exceed the 'MAX' fill line. The 8L capacity allows for up to 40 hours of continuous operation.
4. Close the top cover securely.

5. Connecting to the App (Tuya Smart)

The Hiswelle H786 humidifier can be controlled remotely via the Tuya Smart app. This allows for convenient management of

settings from anywhere.

1. **Download the App:** Scan the QR code in the physical user manual or search for "Tuya Smart" in the Apple App Store or Google Play Store.
2. **Register/Log In:** Create an account or log in to your existing Tuya Smart account.
3. **Add Device:** Follow the in-app instructions to add a new device. Ensure your smartphone is connected to a**2.4GHz Wi-Fi network** during the initial pairing process. The humidifier only supports 2.4GHz Wi-Fi.
4. **Connect:** The app will guide you through connecting the humidifier to your Wi-Fi network. Once connected, you can control the humidifier from your phone.

6. Operating the Humidifier

6.1 Control Methods

The humidifier can be operated using the touch control panel on the unit, the included remote control, or the Tuya Smart app.

Image: Remote control in use, highlighting the convenience of operating the humidifier from a distance.

6.2 Mist Modes and Humidity Settings

- **Mist Levels:** Choose from 3 mist volume levels to suit your preference and room size. The maximum mist output is 350ml/h, suitable for areas up to 505 square feet.

- **Customized Humidity:** Set your desired humidity level between 40% and 90% Relative Humidity (RH). The humidifier will automatically adjust its operation to maintain this level.

Image: Illustrates the adjustable mist output levels and the 360-degree rotating nozzle for even mist distribution.

Image: A graph demonstrating the customizable humidity range and suggested levels for different environments.

6.3 Aromatherapy Function

The humidifier includes a built-in aromatherapy function. Locate the fragrance pad on the back of the unit. Add 4-5 drops of your favorite essential oil to the pad. Do not add essential oils directly into the water tank.

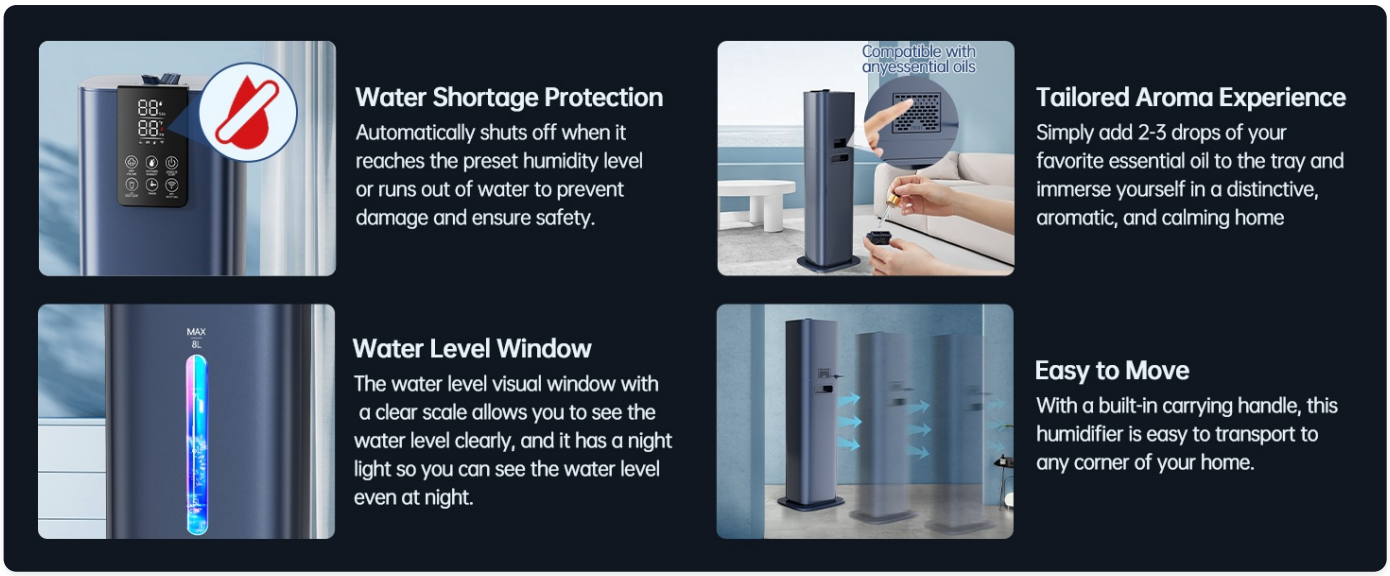

Image: Instructions for using the aromatherapy function by adding essential oils to the designated tray.

6.4 Ambient Light

The humidifier features an ambient light with various colors that automatically changes in a breathing light pattern, adding to the room's atmosphere.

6.5 Timer Function

Set a timer for up to 12 hours of operation using the control panel, remote, or app. The humidifier will automatically turn off once the set time expires.

6.6 Sleep Mode

Activate sleep mode for ultra-quiet operation (as low as 35dB), ensuring a peaceful environment for rest. The display lights will dim in this mode.

7. Maintenance and Cleaning

Regular cleaning is essential to prevent mineral buildup and ensure optimal performance and hygiene of your humidifier.

7.1 Daily Maintenance

- Empty and rinse the water tank daily.
- Refill with fresh, cool water.

7.2 Weekly Cleaning

1. Unplug the humidifier.
2. Empty any remaining water from the tank and base.
3. Pour 1 cup of white vinegar into the water tank and base. Let it soak for 30 minutes to loosen mineral buildup.
4. Use a soft brush or cloth to clean the inside of the tank and the ultrasonic transducer.
5. Rinse all parts thoroughly with clean water until there is no vinegar smell.
6. Wipe the exterior with a soft, damp cloth.

8. Troubleshooting

Problem	Possible Cause	Solution
No mist or low mist output	Low water level; mineral buildup on transducer; mist outlet blocked.	Refill water tank; clean the transducer with vinegar solution; ensure mist outlet is clear.
Humidifier leaks water	Overfilled water tank; tank not seated correctly; damaged tank.	Do not fill past the MAX line; ensure tank is properly aligned; contact support if damaged.
App connection fails	Incorrect Wi-Fi band (not 2.4GHz); incorrect password; humidifier too far from router.	Ensure 2.4GHz Wi-Fi; re-enter password; move humidifier closer to router.
Humidifier not turning on	No power; water tank not properly installed; safety shut-off activated.	Check power connection; ensure tank is correctly seated; refill water if low.
No change in room humidity	Room size too large for humidifier; doors/windows open; humidity setting too low.	Ensure humidifier is appropriate for room size; close doors/windows; increase desired humidity setting.
