KEMEI KM-1071, KM-2299, KM-2024

KEMEI Professional Hair Clippers, Trimmer, and Shaver Set

Models: KM-1071, KM-2299, KM-2024

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your KEMEI Professional Hair Clippers, Trimmer, and Foil Shaver Set. This comprehensive kit includes a professional electric hair clipper (KM-1071), a professional electric hair trimmer (KM-2299), and an electric foil shaver (KM-2024). Please read this manual thoroughly before first use and retain it for future reference.

SAFETY PRECAUTIONS

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- Always use the kit with caution, especially around sensitive areas such as the face and eyes.
- Keep all components, especially small parts, out of reach of children and pets to prevent choking hazards.
- Always unplug the devices from the power source before cleaning or performing any maintenance.
- Do not ingest or inhale any parts or accessories of the kit.
- Do not immerse the devices in water. Clean only with a damp cloth or brush as instructed in the maintenance section.
- Ensure the charging voltage matches the device requirements to prevent damage.

Note: Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition. This product is for personal grooming and not a dietary supplement.

PACKAGE CONTENTS

Your KEMEI Professional Hair Clippers, Trimmer, and Shaver Set includes the following items:

PRODUCT FEATURES OVERVIEW

Each device in your KEMEI grooming kit is designed with specific features for optimal performance:

- **Precision Carbon Steel Blades:** All cutting tools feature sharp, safe carbon steel blades for efficient and comfortable trimming.

- **Powerful & Quiet Motor:** Equipped with high-performance rotary motors, capable of handling all hair types with low noise operation.
- **USB Fast Charging:** Convenient USB charging for flexible power options.

Hair Clipper (KM-1071)

- Adjustable cutter head for varied cutting lengths.
- R-shaped blade design to prevent skin irritation.

Hair Trimmer (KM-2299)

- T-blade with 0mm gap for precise lining and detailing.

Foil Shaver (KM-2024)

- Double foil design for a clean, close shave.
- Durable mesh head and floating blades for comfort and effectiveness.

SETUP AND CHARGING

Before first use, it is recommended to fully charge each device.

Charging Instructions

1. Connect the appropriate USB charging cable to each device.
2. Plug the other end of the USB cable into a compatible USB power source (e.g., USB charger, laptop, power bank, car charger, USB panel).
3. The indicator light on the device will illuminate during charging.
4. Allow sufficient time for a full charge:
 - Hair Clipper (KM-1071): Approximately 3 hours for 240 minutes of working time.
 - Hair Trimmer (KM-2299): Approximately 3 hours for 180 minutes of working time.
 - Foil Shaver (KM-2024): Approximately 8 hours for 50 minutes of working time.
5. Once fully charged, disconnect the device from the power source.

OPERATING INSTRUCTIONS

This section details how to use each grooming tool effectively.

Using the Hair Clipper (KM-1071)

1. **Select a Guide Comb:** Choose the desired cutting length from the 6 available clipper limit combs (3mm, 6mm, 10mm, 13mm, 16mm, 19mm).
2. **Attach the Comb:** Align the comb with the clipper blade and snap it securely into place.
3. **Turn On:** Press the power button to turn on the clipper.
4. **Begin Trimming:** Hold the clipper flat against the head and move it slowly against the direction of hair growth.
5. **Adjust Length (if applicable):** Some models may have a lever for fine-tuning blade length without changing combs.

Using the Hair Trimmer (KM-2299)

1. **Select a Guide Comb:** For specific lengths, choose from the 3 trimmer limit combs (1mm, 2mm, 3mm). For precise lining, use without a comb.
2. **Attach the Comb:** Securely attach the chosen comb to the trimmer blade.
3. **Turn On:** Press the power button to activate the trimmer.
4. **Begin Trimming/Lining:** For trimming, move the trimmer against hair growth. For lining, use the edge of the T-blade for sharp, clean lines around the neckline, sideburns, or beard.

Using the Foil Shaver (KM-2024)

1. **Turn On:** Press the power button to start the shaver.
2. **Begin Shaving:** Hold the shaver gently against the skin and move it in short, circular, or linear motions. The floating blades will adapt to your facial contours for a close shave.
3. **For Best Results:** Ensure skin is clean and dry. Shave against the direction of hair growth.

MAINTENANCE AND CLEANING

Regular cleaning and maintenance will prolong the life and performance of your KEMEI grooming kit.

1. **Turn Off and Unplug:** Always ensure the device is turned off and unplugged from the power source before cleaning.
2. **Remove Hair:** Use the included cleaning brush to brush away any loose hairs from the blades and body of the clipper, trimmer, and shaver.
3. **Clean Blades:** For the clipper and trimmer, you may carefully remove the blade assembly (refer to specific device instructions if available) to thoroughly clean underneath. For the shaver, open the foil head and brush out hair.
4. **Oil Blades:** After every few uses, apply a small drop of the included lubricating oil to the blades of the clipper and trimmer. Turn the device on for a few seconds to distribute the oil evenly. This helps maintain blade sharpness and smooth operation. Do not oil the shaver foils.

5. **Wipe Body:** Use a soft, slightly damp cloth to wipe down the body of each device. Do not use abrasive cleaners or immerse devices in water.
6. **Storage:** Store all components in the provided storage pouch in a cool, dry place, away from direct sunlight and moisture.

TROUBLESHOOTING

If you encounter any issues with your KEMEI grooming kit, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not turning on.	Battery is depleted.	Charge the device fully as per the 'Charging Instructions' section.
Blades pulling hair or cutting poorly.	Blades are dull, dirty, or not oiled.	Clean the blades thoroughly and apply lubricating oil. If issues persist, blades may need replacement.
Device making unusual noise.	Hair caught in the motor or blades.	Turn off and unplug the device. Clean the blades and internal mechanisms carefully.
Shaver not providing a close shave.	Foil head is worn or dirty.	Clean the foil head. If wear is visible, the foil head may need replacement.

If the problem persists after attempting these solutions, please contact customer support.
