

## SanDisk SDIXD0N-256G-GN6TP

# SanDisk 256GB Creator Phone Drive Instruction Manual

Model: SDIXD0N-256G-GN6TP

## 1. INTRODUCTION

The SanDisk 256GB Creator Phone Drive is designed to enhance the creative workflow for users with multiple devices. This compact storage solution facilitates reliable, high-speed data transfer between smartphones, tablets, and personal computers. It features both USB Type-C and Lightning connectors, ensuring broad compatibility across various Apple and other devices. With its generous storage capacity, the drive supports managing high-resolution photos, video files, and important documents, helping to prevent storage limitations. Additionally, the purchase includes a three-month Adobe Lightroom membership to further support photo editing and organization.

## 2. PRODUCT OVERVIEW

The SanDisk Creator Phone Drive is a versatile storage device offering convenience and performance. Key features include:

- **Dual Connectivity:** Equipped with both USB Type-C and Lightning connectors for seamless transfer between various devices.
- **Expanded Storage:** Provides up to 256GB of additional storage capacity for mobile devices.
- **Automatic Backup:** Supports automatic backup of photos and videos via the SanDisk Memory Zone app for iOS (iOS 15 or higher required).
- **Durable Design:** Features a robust metal construction for enhanced durability and a stylish appearance.
- **Creative Software:** Includes a three-month Adobe Lightroom membership to assist with photo editing and organization.
- **Broad Compatibility:** Compatible with iPhone 15 or newer (USB-C), older iPhone models (Lightning), iPad, and Mac devices.

## 3. SETUP

---

Follow these steps to set up your SanDisk Creator Phone Drive:

1. **Unpack the Drive:** Carefully remove the SanDisk Creator Phone Drive from its packaging.
2. **Identify Connectors:** The drive features a Lightning connector on one end and a USB Type-C connector on the other. Use the swivel mechanism to expose the desired connector.
3. **Download the SanDisk Memory Zone App:** For iOS devices (iPhone, iPad), download the SanDisk Memory Zone app from the App Store. This app is essential for managing files, performing backups, and accessing advanced features. Ensure your iOS device is running iOS 15 or higher.
4. **Connect to Device:**
  - **For iPhone/iPad (Lightning):** Plug the Lightning connector into your iPhone or iPad's Lightning port.

- **For iPhone 15/iPad/Mac/PC (USB Type-C):** Plug the USB Type-C connector into the USB-C port of your compatible device.

5. **Initial Recognition:** Your device should recognize the drive automatically. For iOS devices, the SanDisk Memory Zone app will prompt you to connect the drive. For computers, the drive will appear as an external storage device.

### 4. OPERATING INSTRUCTIONS

---

Once the SanDisk Creator Phone Drive is connected and the SanDisk Memory Zone app (for iOS) is installed, you can begin managing your files:

#### 1. Accessing Files:

- **On iOS:** Open the SanDisk Memory Zone app. The app provides an interface to browse files on your device's internal storage and on the connected SanDisk drive.
- **On Mac/PC:** The drive will appear as a removable storage device. You can access it through your computer's file explorer (Finder on Mac, File Explorer on Windows).

#### 2. Transferring Files:

- **From Device to Drive:** Within the SanDisk Memory Zone app or your computer's file explorer, select the files you wish to transfer and use the copy/move function to place them onto the SanDisk drive.
- **From Drive to Device:** Similarly, select files on the SanDisk drive and copy/move them to your

device's internal storage or a connected computer.

3. **Automatic Backup (iOS):** The SanDisk Memory Zone app allows you to set up automatic backups of your camera roll. Navigate to the backup settings within the app and configure your preferences. This ensures your photos and videos are regularly saved to the drive when connected.
4. **Using Adobe Lightroom:** Your purchase includes a three-month Adobe Lightroom membership. Follow the instructions provided with your drive to redeem this offer and enhance your photo editing capabilities.

**Manage Files with the  
SANDISK® Memory Zone™ app<sup>2</sup>**

<sup>2</sup>SANDISK® mobile app required. Available for download from the App Store. iOS 15 or higher required. Set up automatic backup within app settings. Terms and conditions apply.

## 5. MAINTENANCE

---

To ensure the longevity and optimal performance of your SanDisk Creator Phone Drive, follow these maintenance guidelines:

- **Proper Ejection:** Always safely eject the drive from your computer before physically removing it. For iOS devices, ensure any transfer or backup processes are complete before disconnecting.
- **Physical Care:** Avoid dropping the drive or exposing it to extreme temperatures, moisture, or strong magnetic fields. Use the swivel mechanism to protect the connectors when not in use.
- **Cleaning:** If necessary, gently wipe the exterior of the drive with a soft, dry cloth. Do not use liquid cleaners or solvents.
- **Firmware Updates:** Periodically check the SanDisk support website for any available firmware updates

for your drive to ensure continued compatibility and performance.

## 6. TROUBLESHOOTING

If you encounter issues with your SanDisk Creator Phone Drive, refer to the following common solutions:

- **Drive Not Recognized:**
  - Ensure the drive is fully inserted into the device's port.
  - Try connecting to a different port or device to rule out port-specific issues.
  - For iOS, verify the SanDisk Memory Zone app is installed and your iOS version meets the requirements (iOS 15 or higher).
  - Restart your device (phone, tablet, or computer).
- **Slow Transfer Speeds:**
  - Ensure your device's USB port supports the drive's speed capabilities (e.g., USB 3.0 or higher for optimal performance).
  - Avoid running multiple demanding applications during large file transfers.
  - Check for any background processes that might be consuming system resources.
- **App Issues (iOS):**
  - Ensure the SanDisk Memory Zone app is updated to the latest version.
  - Close and reopen the app.
  - Reinstall the app if problems persist.
- **Storage Full Message:**
  - Verify the actual storage used on the drive versus its total capacity.
  - Delete unnecessary files from the drive to free up space.

## 7. SPECIFICATIONS

Feature	Detail
Brand	SanDisk
Series	SanDisk Creator Phone Drive
Model Number	SDIXD0N-256G-GN6TP
