

LifePro Rejuvawrap X

LifePro Rejuvawrap X Infrared Sauna Blanket User Manual

Model: Rejuvawrap X | Brand: LifePro

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your LifePro Rejuvawrap X Infrared Sauna Blanket. Please read this manual thoroughly before operating the device and retain it for future reference.

The LifePro Rejuvawrap X is designed to provide a personal infrared sauna experience, utilizing far infrared technology to generate heat. This device is intended for personal use to promote relaxation and warmth.

2. SAFETY INFORMATION

WARNING: To reduce the risk of burns, fire, electric shock, or injury to persons, read all instructions before using this product.

- Do not use if pregnant, nursing, or if you have any medical conditions without consulting a physician.
- Avoid using the sauna blanket for extended periods. Adhere to recommended session times.
- Ensure the blanket is completely dry before storage.
- Do not fold or crease the blanket while in operation.
- Keep out of reach of children.
- Always use the provided disposable liners or wear appropriate clothing to protect the blanket from sweat.
- Do not use near water or in excessively humid environments.
- Unplug the device from the outlet when not in use and before cleaning.

3. PACKAGE CONTENTS

Upon opening your LifePro Rejuvawrap X Infrared Sauna Blanket package, please verify that all components are present and in good condition:

- LifePro Rejuvawrap X Infrared Sauna Blanket
- Control Unit with Power Cord
- Travel/Storage Bag
- User Manual
- Warranty Information Card
- Disposable Sauna Liners (5 units)
- LifePro Towel

Image: The LifePro Rejuvawrap X Infrared Sauna Blanket, its control unit, travel bag, and various accessories including disposable liners and a towel, are displayed on a bed.

4. SETUP

1. **Unpack:** Carefully remove the sauna blanket and all accessories from the packaging.
2. **Placement:** Lay the sauna blanket flat on a heat-resistant surface, such as a bed or floor, ensuring there are no folds or creases.
3. **Connect Control Unit:** Connect the power cord from the control unit to the designated port on the sauna blanket. Ensure a secure connection.
4. **Power On:** Plug the control unit's power cord into a standard electrical wall outlet. The control unit display should illuminate.

5. OPERATING INSTRUCTIONS

The control unit allows you to adjust the temperature and session duration. Familiarize yourself with the buttons:

- **POWER Button:** Turns the device on/off.
- **TEMP +/- Buttons:** Adjusts the temperature setting. The blanket can reach a maximum temperature level of 9.
- **TIME +/- Buttons:** Adjusts the session duration. The maximum session time is 60 minutes.

Starting a Session:

1. **Prepare:** Place a disposable liner inside the blanket or wear loose, comfortable clothing that covers your body.
2. **Power On:** Press the POWER button on the control unit.
3. **Set Temperature:** Use the TEMP +/- buttons to select your desired heat level. Start with a lower setting and gradually increase as you become accustomed to the heat.
4. **Set Time:** Use the TIME +/- buttons to set your desired session duration, up to 60 minutes.
5. **Pre-heat:** Allow the blanket to pre-heat for 5-10 minutes. You will notice it getting warm quickly.
6. **Enter Blanket:** Once pre-heated, carefully lie down inside the blanket. The blanket features armholes for comfort and accessibility.
7. **Enjoy:** Relax and enjoy your infrared sauna session. The device will automatically shut off once the set time has elapsed.
8. **After Session:** Exit the blanket, unplug the control unit from the wall, and allow the blanket to cool

down before cleaning or storing.

6. MAINTENANCE

Cleaning:

- Always unplug the blanket and allow it to cool completely before cleaning.
- Wipe the interior and exterior surfaces of the blanket with a damp cloth and a mild, non-abrasive cleaner.
- Do not immerse the blanket or control unit in water.
- Ensure the blanket is thoroughly dry before folding or storing.

Storage:

- Once clean and dry, fold the blanket neatly.
- Store the blanket and control unit in the provided travel/storage bag in a cool, dry place, away from direct sunlight.
- Avoid placing heavy objects on top of the stored blanket.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Blanket not heating	Not plugged in; power button off; faulty connection.	Ensure power cord is securely plugged into outlet and control unit. Press power button. Check all connections.
Control unit display not working	No power; unit malfunction.	Verify power connection. If problem persists, contact customer support.
Blanket feels too hot/cold	Temperature setting incorrect.	Adjust temperature using TEMP +/- buttons. Allow time for temperature to stabilize.

If you encounter issues not listed here, please contact LifePro customer support for assistance.
