

Samsung S25

SAMSUNG Galaxy S25 Cell Phone User Manual

Model: S25 (SM-S931UDBAXAA)

1. SETUP

1.1. Insert SIM Card

To ensure network connectivity, insert your Nano-SIM card into the device. Use the provided SIM tray ejector tool to open the SIM card tray located on the bottom edge of the phone. Place the Nano-SIM card into the tray with the gold contacts facing down, then gently push the tray back into the slot until it clicks into place.

1.2. Initial Power On

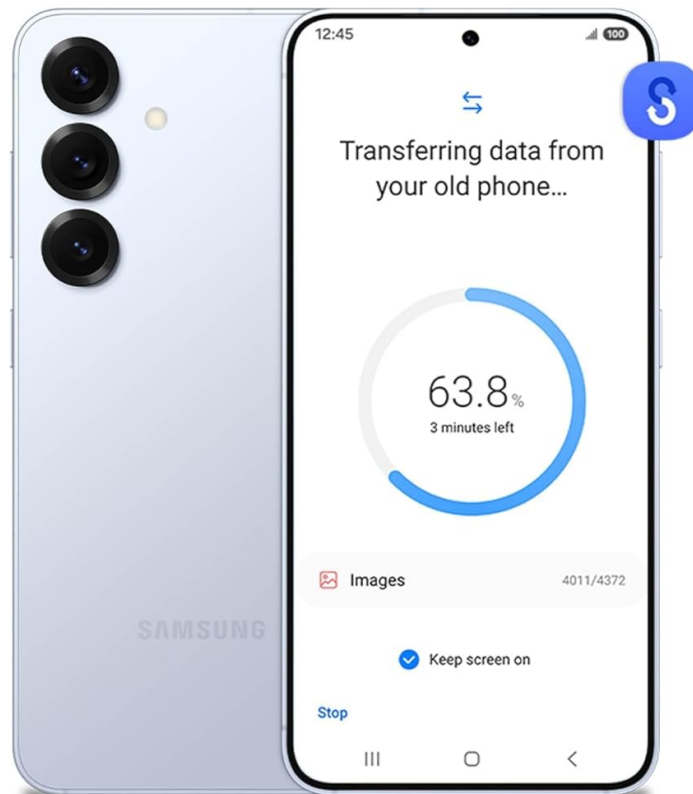

Press and hold the Power/Side key (located on the right side of the device) until the Samsung Galaxy logo appears on the screen. Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, and Google account login.

1.3. Data Transfer with Smart Switch

Easily move content and apps from your previous phone to your new Galaxy S25 using Smart Switch. This can be done wirelessly or via a USB cable. For wireless transfers, ensure both devices are connected to the same Wi-Fi network. For iOS devices, download the Smart Switch app from the App Store.

Switching is quick and easy

Move content and apps from your previous phone over to your new one with Smart Switch

Wired transfers from Android™ devices require the sending device to have Android 4.3 or later. For wireless connections, the sending device must have Android 4.0 or later. Open Smart Switch Mobile in “Settings” on the receiving Galaxy device or download the Smart Switch Mobile app from the Galaxy Store. Data, content and apps available for transfer may vary by transmission method. Wired transfers from iOS require the sending device to have iOS 5 or later. Transfers can also be completed without a cable through a wireless connection or iCloud. For wireless connections, the sending device must have iOS 12 or later. iCloud transfers require the sending device to have iOS 5 or later. For wireless transfers, download Smart Switch for iOS from the App Store on your iPhone or iPad. Contacts, gallery, videos, calendars and reminders can be transferred wirelessly from an iOS device.

5. MAINTENANCE

5.1. Battery Care

The Galaxy S25 is equipped with a 4000mAh battery. To maximize battery lifespan:

- Avoid extreme temperatures.
- Use only Samsung-approved chargers and cables.
- Avoid completely draining the battery frequently.
- Enable power-saving modes when needed.

5.2. Water and Dust Resistance

The Galaxy S25 is IP68 rated for water and dust resistance. This means it can withstand submersion in up to 1.5 meters of fresh water for up to 30 minutes. Avoid exposing the device to salt water, chlorinated water, or liquids other than fresh water.

6. TROUBLESHOOTING

6.1. Device Not Responding

If your device is unresponsive, try a force restart by pressing and holding the Volume Down key and the Power/Side key simultaneously for more than 7 seconds.

6.2. Network Connectivity Issues

Ensure your SIM card is correctly inserted. Check your Wi-Fi and mobile data settings. If issues persist, restart your device or contact your service provider.
