NEUMITECH PJ300

NEUMITECH PJ300 Compact Smart Projector

INSTRUCTION MANUAL

Product Overview

The NEUMITECH PJ300 is an ultra-portable, high-performance smart projector designed for versatile use. It delivers vibrant HD visuals with 4K decoding support, offering a display range from 40 to 130 inches. Key features include automatic keystone correction for perfectly aligned images, and seamless connectivity through Wi-Fi 6 and Bluetooth 5.2.

- **Ultra-Bright Clarity:** Enjoy native 1280x720p resolution with 4K decoding and 1500 lumens brightness.
- **Auto Keystone Correction:** Automatically adjusts image distortion for a clear, aligned picture.
- **Seamless Connectivity:** Features Wi-Fi 6 for fast streaming and Bluetooth 5.2 for audio pairing.
- **Multiple Inputs:** Includes USB, HDMI, and analog audio output for various external devices.

What's in the Box

Upon unboxing your NEUMITECH PJ300, you should find the following items:

- NEUMITECH PJ300 Smart Projector
- Remote Control (AAA Batteries Required, Not Included)
- Power Cable
- HDMI Cable
- Cleaning Kit
- User's Manual

Setup Guide

1. **Power Connection:** Connect the power cable to the projector and then to a power outlet. The power indicator light will illuminate.
2. **Remote Control:** Insert two AAA batteries (not included) into the remote control.
3. **Placement:** Place the projector on a stable, flat surface or mount it using a compatible tripod. Ensure the lens is facing the desired projection surface (wall or screen).
4. **Power On:** Press the power button on the projector or the remote control to turn on the device.
5. **Focus Adjustment:** Use the focus ring near the lens to sharpen the projected image until it is clear.
6. **Keystone Correction:** The PJ300 features automatic keystone correction. If manual adjustment is needed, use the keystone control to correct any trapezoidal distortion.
7. **Network Connection (Wi-Fi 6):** Navigate to the settings menu, select 'Network' or 'Wi-Fi', and connect to your preferred Wi-Fi 6 network.
8. **Bluetooth Pairing (Bluetooth 5.2):** In the settings menu, select 'Bluetooth' and pair with your desired external audio devices for enhanced sound.

Operating Instructions

The NEUMITECH PJ300 offers various ways to display content:

- **Connecting External Devices:**
 - **HDMI:** Connect your laptop, gaming console, or other HDMI-enabled devices using the provided HDMI cable. Select 'HDMI' as the input source.
 - **USB:** Insert a USB drive into the USB port for media playback (photos, videos, music). Select 'USB' as the input source and browse your files.
 - **Analog Audio Output:** Connect external speakers or sound systems via the 3.5mm audio jack for a customized audio experience.
- **Wireless Screen Mirroring:** Utilize the built-in Wi-Fi 6 for screen mirroring from compatible iOS, Android, or Windows devices. Follow the on-screen instructions for casting.
- **Navigating the Interface:** Use the directional buttons and 'OK' button on the remote control or the projector's top panel to navigate through menus and select options.

Maintenance

- **Lens Cleaning:** Use the provided cleaning kit to gently wipe the projector lens. Avoid using abrasive materials or harsh chemicals that could damage the lens.
- **Ventilation:** Ensure the projector's ventilation vents are clear and unobstructed to prevent overheating. Do not block the air inlets or outlets.
- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided carrying case for protection during transport or storage.

Troubleshooting

- **No Image or Blurry Image:**
 - Check the focus ring to ensure the image is sharp.
 - Verify keystone correction is properly set.
 - Ensure the correct input source (HDMI, USB, etc.) is selected.
- **No Sound:**
 - Adjust the volume on the projector and any connected external audio devices.
 - Check Bluetooth connection if using wireless speakers.
 - Ensure cables are securely connected for wired audio.
- **Connectivity Issues (Wi-Fi/Bluetooth):**
 - Restart the projector and your network router.
 - Ensure the projector is within range of your Wi-Fi network or Bluetooth device.
 - Check for any interference from other electronic devices.
